TOPIC 1: FEAR

Q: What is fear?

A: By itself, FEAR is the acronym for False Expectations Appearing Real. We all experience fear and we become miserable as we perceive a danger where there is none. Fear is not a danger. A danger is real, fear is imaginary. We have been blessed with the emotion of fear to trigger and warn us of real danger. Unfortunately, fear has become a monster that terrorizes us. It stops us from living life.

Q: How is fear different from real danger?

A: Fear is not a danger. A danger is real, fear is imaginary. We have been blessed with the emotion of fear to trigger and warn us of real danger. Unfortunately, fear has become a monster that terrorizes us. Though we know our fear is imaginary, we make it so real that it manifests every day through our mind in physical terms. We sweat, we shiver, and we shudder in fear.

Q: Why does fear stop us from living fully?

A: Many of us live our lives with fear. We lack faith and this makes us miserable. Though we know our fear is imaginary, we make it so real that it manifests every day through our mind in physical terms. Fear has become a monster that terrorizes us. It stops us from living life. There are many fears. The biggest amongst them is the fear of death.

Q: What kinds of fears do people carry?

A: There are many fears. The biggest amongst them is the fear of death. There are also phobias – imaginary fears that paralyze people. Some people have claustrophobia, aerophobia or irrational fears of harmless creatures. Fear makes people imagine death is round the corner. They live in the constant worry of death. These fears, though imaginary, create real suffering.

Q: How can I overcome fear?

A: Once we Realize the Truth that a Fear is not a Real Danger, we will overcome Fear forever. Fear is a False Expectation Appearing Real. The moment we distinguish fear from actual danger, the monster loses its power. We can eliminate fear by overcoming our ignorance and realizing that we are not the body that can be harmed, but the Divine Soul that is beyond all fear.

Q: Why do fears appear so real even when they are not?

A: A Fear is a False Expectation Appearing Real. It appears that there is a big problem. Fear has blown things out of proportion. The mind creates the illusion of a problem much larger than it is. As Mahatma Gandhi said – More people die out of the fear of a disease than out of the disease itself. Our minds use the cannon to kill the mosquito, making us focus all our energy on a threat that may not exist.

Q: What is the relationship between fear and faith?

A: When we lack faith, fear takes over. Fear makes us imagine death is round the corner. We live in constant worry of death. But those who are Enlightened with the Truth accept challenges gracefully. The solution is to overcome ignorance, take precautions, and surrender with faith, knowing that life and death are in the hands of the Divine. Faith and fear cannot coexist.

Q: Why does the fear of death cause so much suffering?

A: The problem is not death itself. The problem is fear and worry that causes stress and anxiety. We fear we will lose all our possessions, our money, our property, and everything that belongs to us. We worry about our loved ones and how all our relationships will snap in a moment. Because we are ignorant that we are not the body that dies, we get an anxiety attack at the very thought of death.

Q: How does ignorance cause fear?

A: Because we are ignorant of who we truly are and why we are here, fear takes hold. We consider ourselves to be this body and so fear losing it. Once we realize we are not the body, mind or ego – but the Divine Soul – the root of fear disappears. Overcoming ignorance will help us overcome all our fears in life, because the Soul, which is our true nature, is beyond all fear.

Q: Can fear be eliminated completely?

A: Yes! Once we Realize the Truth that a Fear is not a Real Danger, we will overcome Fear forever. The moment we distinguish our true Self from the body and mind, fear has no ground to stand on. The Enlightened one learns to live a life that is free from all fear. Whether there are dangers or no dangers, it hardly matters – they respond with courage, not panic.

Q: What physical signs tell us we are living in fear?

A: When we live in fear, we sweat, we shiver, and we shudder. Fear manifests in physical terms through our mind every day. It can cause anxiety attacks and can escalate to full depression. The problem of anxiety is a build-up of small fears and worries that becomes like a volcano that bursts with misery and sorrow. Fear, if unchecked, can destroy our peace of mind permanently.

Q: How does the global fear of disease illustrate the nature of fear?

A: Today, the whole world is living with the fear of a virus. Countries have locked down their borders and stopped trade and commerce. Fear has made the wolf bigger than it is. The danger is not as big as it is being made to be. But fear has blown it out of proportion. In fact, the virus is not as dangerous as the fear of the virus – and that is a powerful demonstration of how FEAR operates.

Q: What is the spiritual solution to fear?

A: The solution is: kill fear before fear kills you. Overcome ignorance before the ignorance overcomes you. The solution is to become Enlightened with the Truth. When we realize we are the Divine Soul, not the body that can be harmed or destroyed, we transcend fear. In this Realization, we surrender and live with faith, knowing that life itself is in the hands of the Divine.

Q: Why is faith the antidote to fear?

A: FAITH is Full Assurance In The Heart. Those who live with faith surrender their fears to the Divine. They do not panic because they trust in the Power that controls all outcomes. Realization of the Truth liberates one from the unnecessary habit of worrying and fearing. The Enlightened ones accept whatever will be, will be – and they live with peace rather than fear.

Q: How can one use the intellect to conquer fear?

A: We human beings have been blessed with an intellect, the power to discriminate and choose. When we use our intellect, we realize that fear is False Expectation Appearing Real. We can flip from NEP (Negative Energy Poison) to PEP (Positive Energy Power) – replacing fear with faith, courage, and confidence. The intellect, when awakened, can tame the monkey mind that manufactures fear.

TOPIC 2: WORRY AND ANXIETY

Q: What is worry?

A: Worry is a feeling of anxiety, of being troubled by the possibility of problems. One who has the problem of worrying is constantly worrying about problems. The problems may be real or imaginary – that hardly matters! But the worry is a big problem. We make a mountain out of a molehill because of worry. Worrying makes us use the cannon to kill the mosquito – focusing all energy on a problem that may not exist. Therefore, there is no problem. Worry is the problem!

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 2: Worry | Page: 4*

Q: Why do we worry even when there is no real problem?

A: Worry leads us to focus our entire energy, our time, our effort on a problem that may not exist. How often have you heard somebody tell you, 'Do not worry, everything will be okay?' Because we are worrying about something that may or may not happen. There may be very little chance of things going wrong. But we make a mountain out of a molehill because of worry. It is the mind that creates this unnecessary suffering.

Q: What is anxiety and how does it develop?

A: Anxiety is the build-up of small fears, small worries. It may be caused by a health issue, financial stress, or a small misunderstanding in a relationship. It is the intertwining of tiny fears and tiny worries that ultimately becomes like a volcano that bursts with misery and sorrow. When we let fear and worry build their roots in our life, they constantly give us shoots and fruits of anxiety, day after day.

Q: How does anxiety affect the body?

A: Anxiety has been listed as a disease. There are psychiatrists who treat mental disorders caused by anxiety. The symptoms include overthinking, difficulty in concentrating, panic, irritation, sleeplessness, loss of appetite and more. Sometimes, to deal with this problem, people are prescribed medicines, categorized as placebo after they are diagnosed with anxiety. Anxiety creates real physical suffering from an imaginary threat.

Q: Is worrying ever useful?

A: Worrying is like sitting on a rocking chair. You may rock all day long but reach nowhere. If there is something we can do about our problem, instead of worrying, shouldn't we do something to solve the problem? And if there is nothing we can do, then why do we worry? So regardless of whether we can do something about our problem or not, there is no need to worry! Worrying will only make the problem worse.

Q: What is the cure for worry?

A: Realization of the Truth liberates one from this unnecessary habit of worrying. It makes one realize that worrying is like sitting on a rocking chair – you may rock all day long but reach nowhere. The Enlightened one learns to live a life that is free from all worry. Whether there are problems or no problems, it hardly matters! Worrying is not a solution to the problem. It is a choice. We must break the habit of worrying and rather choose to be happy.

Q: How does the mind create stress?

A: It is the mind that causes us to worry and causes our stress and anxiety. All our emotional problems are caused by our mind, the subtle Thought Factory of our existence. The mind causes us to fear when there is no real danger. It leads us from our worries and anxieties into depression and ultimately even creates suicidal thoughts. It is a thought that becomes a feeling and ultimately becomes an action.

Q: What is the relationship between the past and worry?

A: The past is gone, and the future is not yet born. Many people have big problems of stress, depression, loneliness, even suicidal thoughts because they swing like a pendulum, first to yesterday, and then to tomorrow. They lose the present moment of Bliss. Most of our problems are caused because of this swinging from the past to the future. We must leave the problems of yesterday and the challenges of tomorrow where they are.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 27: *The Past Is Gone, the Future Not Yet Born* | Page: 80

Q: Why do we worry about the future?

A: We live with the ignorance that we are in control of all our actions and thus, the fruit of our actions lies in our hands. We don't realize that there is a factor beyond our comprehension that controls the results of all our actions. When we don't learn to accept this Divine factor that is beyond our control, we live and die with problems. The mind jumps to tomorrow and creates stress, worry and anxiety.

Q: Can we live free from anxiety?

A: Yes! When we Realize the Truth, we start our journey out of anxiety. Many of us know it is our mind that creates anxiety – then why do we continue to suffer? Because we have not realized a way out of it. Once we realize we are not the mind, we can transcend all stress and worry. Like mist evaporating in the morning sun, all anxiety can disappear when we use our intellect to discriminate thoughts.

Q: What does it mean to tame the monkey mind?

A: To find the one solution to all our problems, we must learn to tame the monkey mind and make it into a monk. As long as the monkey lives in our head, we are dead. We must tame the monkey, cut its tail – the Ever-Yelling, Ever-Yearning aspect of the mind. The mind is a thought factory producing a thought practically every second. It is this constant thinking that causes worry and stress.

Q: Why do stress and anxiety lead to depression?

A: When we let fear, worry, stress and anxiety grow in our life, and lose the virtues of faith, hope, trust and enthusiasm, we can be caught by the biggest problem of all – depression. Then life becomes a journey of suffering, as we hate every moment that we live. Depression occurs when we resort to taking psychiatric help and sometimes subject to placebo treatments, yet remain trapped because we have not found the root cause.

Q: What role does acceptance play in eliminating worry?

A: The art of acceptance and surrender is the way to overcome fear, to go beyond worry, stress, anxiety and depression. As long as we live with regrets, we nurse, we curse, and we rehearse our problems. We must learn to accept, to let go. FAITH is Full Assurance In The Heart, and HOPE is Having Only Positive Expectations. They live with TRUST – Total Reliance Unconditional Surrender To The Almighty. Thus, they have no problems.

Q: How does living in the 'Now' eliminate anxiety?

A: Happiness belongs to the 'now'. If we want to be happy, we must be happy right now! We cannot be happy in yesterday, nor can we be happy in tomorrow. Life is all about moments. Moments create minutes that become hours, that finally form days, weeks, months, and years. If you lose the moment, you lose life itself. In this moment, there are no problems! This is the simplest cure for anxiety.

Q: What is the one solution to worry and anxiety?

A: Overcoming ignorance is the one solution. Because we are ignorant about who we truly are, we suffer worry and anxiety. The moment we realize we are the Divine Soul – not the body, mind and ego – we transcend all these problems. The Realization of the Truth removes all stress and gives us Peace, Joy and Happiness. Problems may come, but in the light of Enlightenment, they cannot shake the one who knows the Truth.

TOPIC 3: ANGER, HATE AND REVENGE

Q: What is anger and why is it destructive?

A: Burn anger before anger burns you! When we become angry at somebody, we create a fire inside us – it is like holding a piece of hot burning coal to throw at our enemy. Little do we realize that the burning coal of anger will first burn our hands before it can even be thrown at another. Anger destroys our life. Not only does it increase our blood pressure and the chances of an early death, but it also destroys the present moment of our life.

Q: Why do we feel angry at others?

A: The root cause of anger is our own ego. The ego makes us take revenge on somebody else who has harmed us. We are angry at others because they may not fulfil our expectations. The ego says 'I', 'me' and 'mine' and makes us feel different and separate from others. If we transcend the ego, we can eliminate anger from our life. For the right eye never gets angry at the left eye – they know they are one.

Q: What is hate and what causes it?

A: Hate is a passionate and extreme aversion that causes hostility towards an enemy. We may hate because of the colour of someone's skin, religion, or a past rivalry. Hate is a bit of a problem – it creates poison inside us, and the toxins of hate make us miserable. Our hatred towards another establishes itself in our roots and affects our own Peace and Happiness. Instead, if only we could forgive and transform our hate to love, we would replace negativity with positivity.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 4: Hate | Page: 6*

Q: How does hate destroy the one who hates?

A: Hate creates poison inside us, and the toxins of hate make us miserable. Our hatred towards another establishes itself in our roots and affects our own Peace and Happiness. Ram and Rahim were neighbours and grew up as friends. Because of their different religions, they started hating one another. Not only did it end their friendship, but their hostility stole their peace of mind and created stress in the community they lived in.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 4: Hate | Page: 6*

Q: What is the problem with revenge?

A: Revenge is not the solution to the problem. It only becomes the cause of misery that multiplies itself several times because we do not realize that revenge will not just destroy our enemy but also destroy us. We permit this feeling of vengefulness to ruin our lives. Whatever be the cause that led to the state of affairs, revenge only creates more harm to oneself than one may realize. When we Realize the Truth, we will also realize the futility of trying to take revenge.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 5: Revenge | Page: 7*

Q: Why do people want to take revenge?

A: In life, one may have been cheated or let down and as a result, that person is unable to let go of the hurt. The desire to avenge the past creates the emotion of revenge. The ego, having felt insulted, seeks to restore its image by hurting back. But this vengefulness only creates more suffering. When will we overcome this vengefulness and learn to forgive and live? The answer lies in Realizing the Truth.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 5: Revenge | Page: 7*

Q: What is jealousy and what does it lead to?

A: Why does a human being become jealous and develop feelings of insecurity? Because we are ignorant about the reality of life, we permit jealousy to become a big problem and we let it lead us to our doom. When we live with it, we lose our Peace, our rationality, as we try to inflict harm upon others, resulting in destroying our own life. The solution lies in realizing that everything is controlled by Universal Laws which we must accept.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 6: Jealousy | Page: 8*

Q: How does the ego cause anger, hate, and jealousy?

A: The root cause of all these poisonous emotions is our own ego. We all know the ego, the one that says 'I', 'me' and 'mine'. It is because of this ego that we suffer anger, hate, and jealousy. We are so worried about our image and the embarrassment we would face if something went wrong to this ego, that it creates major problems in our life. The ego fights hard to keep us imprisoned in the cosmic illusion.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part B – Chapter 4: The Agony of the Ego | Page: 43*

Q: Can we eliminate anger, hate, revenge and jealousy?

A: The moment we Realize the Truth of who we are, these 4 monsters disappear from our life. They were the cause of our major problems. The moment we become one with others, there is no question of jealousy, just as revenge becomes irrelevant. Do we ever take revenge against ourselves? When we realize we are all one – just like waves of the ocean that appear different but are ultimately part of one ocean – all these dissolve.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part C – Chapter 33: Eliminate Anger, Hate, Revenge and Jealousy | Page: 86*

Q: How can we learn to control our reactions to others?

A: We cannot control other people's actions, but we can control our own reactions. If something is done, we have to learn to accept and surrender to it. Our reaction is the biggest problem as it leads us to becoming unhappy and bitter as we carry the disappointments in our head till we are

dead. When will we Realize the Truth that this life is just a show? Every action is performed by an actor, who is a part of this Divine drama called Life.

Q: What happens when we transcend the ego?

A: The moment we eliminate the supremacy of the ego, we are free from all these toxins. How? We have to let go of the ego. The moment we stop clinging to 'I', 'me' and 'mine', we will be fine. Because we will not consider ourselves as separate from others, there will be no inferiority complex, and we will eliminate our sense of insecurity as we realize we are all part of the one Supreme Power. Our problems will disappear as we live as the Divine Soul.

Q: Why does anger harm us more than others?

A: Anger is a fire that will burn you before you spit it on the one who makes you angry. It is caused by ignorance where we think others to be separate from us. The right eye never gets angry at the left eye because they know they are one. Anger destroys our life. It increases our blood pressure, chances of an early death, and destroys the present moment. The habit of anger becomes uncontrollable and can lead to physical harm.

Q: How does Realization help overcome anger and hate?

A: Overcoming ignorance will not only eliminate anger, but when we realize that others are a part of us, the one Divine Supreme Soul, we will also transcend hate. The deep negative dislike that creates so many problems will disappear from our life. The moment we realize our true identity – that we are not the body, mind and ego – the agony of hate, anger, revenge and jealousy vanishes completely.

Q: What is the meaning of flipping from NEP to PEP?

A: NEP is Negative Energy Poison – toxic emotions like anger, fear, hate, worry, revenge, anxiety, and jealousy that create poison in our life. PEP is Positive Energy Power – positive emotions like faith, courage, compassion, hope, enthusiasm, forgiveness and optimism. All the problems of our life can be conquered if only we learn to flip from NEP to PEP. We have been blessed with an intellect, the power to discriminate and choose – and we must use it.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 36: Flip from NEP to PEP | Page: 89

Q: Why is forgiveness the real solution to hate and revenge?

A: When we Realize the Truth that in reality we are one, Peace is restored. If only we could forgive and transform our hate to love, we would eliminate the negativity in us and replace it with positivity. When we learn that all of us are part of the same Divine Soul – not separate beings – hatred loses its ground. Forgiveness is not weakness; it is the highest wisdom that comes from Realizing the Truth of our oneness.

TOPIC 4: HEARTBREAK AND RELATIONSHIPS

Q: Why do relationships break down?

A: Issues between people who have a beautiful relationship emerge to destroy Peace and Happiness. In relationships, there is always the need of understanding between those who are in the relationship. Relationship issues are not only between lovers but could be between friends or within a family. The cause is ignorance – we fail to understand that expectations, possessiveness, and attachment erode the love that once held us together.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi* | Chapter: Part A – Chapter 13: Relationships | Page: 15

Q: What causes heartbreak?

A: The problem of heartbreak is not caused by love, but by the lack of true love. True love is bliss, not just a kiss. When love is just hugs and kisses, hearts and Valentine's, it is sure to end with broken hearts. True love is unconditional and Divine. Because the world has not understood the true meaning of love, more often than not, love stories end in heartbreak.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi* | Chapter: Part A – Chapter 14: Heartbreaks | Page: 16

Q: Can the heart actually break?

A: The heart can never break! If it did, we would be dead. It is just a trick of the mind. It gushes blood to the heart and makes the heart the organ of emotion. When will we overcome the myth that our heart is breaking? Our ignorance lies in not realizing that the body will die and that nobody can escape death. Relationships in this world are only temporary – and when we fall in love, at that very moment we must be prepared for impermanence.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi* | Chapter: Part C – Chapter 23: The Heart Can Never Break | Page: 76

Q: What is true love?

A: True love is bliss, not just a kiss! It is the Divine unconditional love of the Soul that is immortal. The solution lies in not only loving and enjoying the ecstasy and happiness that comes with love, but to Realize the Truth that True Love is unconditional and Divine. As long as we do not realize this, we will continue to live with the problem of a broken heart. Love should uplift us, not bind us in attachment.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part A – Chapter 14: Heartbreaks & Part C – Chapter 23: The Heart Can Never Break | Page: 16, 76

Q: Why does possessiveness destroy love?

A: When love turns to doubt, trust breaks apart. Those who live in this material world without faith, hope, belief, fill their lives with negativity and ultimately suffer. Possessive love cages the loved one and robs them of their freedom and space. As one tries to rob another of freedom, one not only loses their love but also loses the person forever. Possessiveness is not love; it is fear disguised as love.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part A – Chapter 15: Possessiveness | Page: 17

Q: What is the problem with attachment in relationships?

A: Attachment appears disguised as love, but it steals our happiness. We become possessive and this attachment creates a passion for the ones we love. All the problems caused in relationships have one source – ignorance. Somehow, we have been made to believe that our relationships will last forever when we know beyond doubt that no relationship is immortal. Either relationships break when we are alive, or if not, they ultimately end at death.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part A – Chapter 16: Attachment & Part C – Chapter 35: Are Relationships Immortal? | Page: 18, 88

Q: Are any relationships immortal?

A: No relationship is immortal. Either relationships break when we are alive, or if not, they ultimately end at death. Because we are ignorant of this Truth, we create so many problems – we experience heartbreaks, just as we fall into the trap of loneliness. Some people let this ignorance take them into a state of depression, some even have suicidal thoughts. The solution lies in loving without attachment or conditions.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 35: Are Relationships Immortal? | Page: 88

Q: How should we love people without suffering heartbreak?

A: We must love as many people as we like, but we must be attached to none. We must have no expectations and there must be no conditions in our love if we truly want to go beyond all the problems that are caused by our relationships. Human beings find it so difficult to be detached because we are caught in the cosmic illusion. When we love unconditionally – without expecting anything in return – we are free from heartbreak.

Q: Why do family feuds happen?

A: Why do families fight? If they are one family, then there should be no reason to fight. But still, they fight over property issues, just as they fight over issues of power and position. One brother hates the other because they have differences of opinion. Instead of trying to reconcile and co-exist peacefully, they let their disagreements grow into feuds that can last forever. The root cause is again the ego and its need to win.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 17: Family Issues* | Page: 19

Q: How does loneliness arise from broken relationships?

A: We human beings are social animals, and we must have interaction and relationships to live a life of contentment and fulfilment. When we do not have that bond with somebody, we become depressed because of loneliness. Some people, like Danny the comedian, were very active socially but felt deeply lonely inside. Loneliness comes not from being alone, but from feeling disconnected from others and from our own true self.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 30: Loneliness* | Page: 32

Q: Is loneliness really about being alone?

A: The problem of loneliness is huge, just as it is strange. It is not just about being alone. It is about living midst people and still feeling lonely. One may live in the centre of Manhattan, but still feel alone. Although we are all connected through Facebook, Instagram, E-mail, and WhatsApp, we still feel very lonely and sad. Loneliness comes from our false sense of identity that separates us from others.

Q: How can we overcome loneliness?

A: When we realize we are the Divine Soul, where is the question of being lonely? The problem lies in us living as this body-mind complex with an identity defined by our ID card. To overcome loneliness, we have to think beyond our physical existence and experience oneness with the Power that is all around us. We are never alone! The Divine exists in every cell of our body and in everyone and everything around us.

Q: What is the role of expectations in relationship problems?

A: Expectations change and so does the equation between people. Many relationship problems arise when expectations are not met. Our reaction to unmet expectations is the biggest problem as it leads us to becoming unhappy and bitter. We carry the disappointments in our head till we are dead. When we Realize the Truth, we love without conditions and release expectations – then relationships become a source of joy rather than pain.

Q: How does Self-Realization help with heartbreak?

A: When we realize our true identity as the Divine Soul, we are liberated from the triple suffering – including the suffering of heartbreak. All problems belong to the body, mind and ego. None of them belong to the Soul. Because we do not realize we are the Divine Soul, we suffer. The moment we achieve this Realization, heartbreak dissolves. True Love – which is the love of Soul to Soul – is immortal and never breaks.

Q: Why do love stories often end in pain?

A: The problem with love stories is our deep ignorance about relationships. We think that our relationships will last forever. Although we come alone into this world, and we go alone, we still expect our loving relationships to be eternal and everlasting. This is our foolishness. Still, heartbreak is one of the world's biggest problems. The solution lies in realizing that True Love is Bliss, not just a Kiss – and discovering Divine, unconditional love.

TOPIC 5: FAILURE, SUCCESS AND POVERTY

Q: What is failure and why does it cause so much suffering?

A: Failure is a problem that occurs when we fail to achieve our goals, when we are unable to fulfil our dreams and we fall short of our desires. Who is it that is creating these dreams, these goals, and desires? We ourselves set unrealistic targets for our life and become miserable when we do not reach them. The inability to succeed manifests as fear, worry, stress, and anxiety and even leads to thoughts of suicide.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part A – Chapter 20: Failure | Page: 22

Q: Is success the same as happiness?

A: No! Very few people Realize the Truth that Success is not Happiness. Happiness is Success. They are the ones that solve the problem of success. Many people in the world experience the roller coaster of success. Before they realize it, the screen of their life displays – Game over! In their pursuit for success, they forget to live. Success is like a shadow – the more you chase it, the further it goes away.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part A – Chapter 21: Success | Page: 23

Q: Why do successful people sometimes feel miserable?

A: There are others who suffer because of their success. They are miserable because their success does not satisfy them. For them, enough is not enough as they let their need become their greed. Soon life is over and now, they have wealth, but no health to enjoy their wealth. Are all successful people happy? If money equals happiness, then the rich should be glad. But turn around and you will find many of them are sad.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part A – Chapter 21: Success | Page: 23

Q: What is the real meaning of success?

A: The solution is to exit from the first peak of achievement, transit the plateau of contentment and fulfilment, and reach the destination of Enlightenment. It is in overcoming our ignorance and Realizing the Truth that we attain the state of Eternal Peace and Everlasting Happiness as we are liberated from all misery and sorrow. True success is not achievement – it is the state of Happiness itself.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 22: Success Is Not Happiness | Page: 75

Q: Why do we chase success and create more problems?

A: From the time we are kids, we are taught to be winners. We have been brainwashed into believing that the goal of life is achievement. We are taught the wrong equation – Success is Happiness. This creates stress and anxiety in our life. The pursuit of success becomes a big problem and then, the only bigger problem that arises is when we do not achieve success – then the problem is disappointments and frustration.

Q: What is poverty and who truly suffers from it?

A: Most people who suffer because of poverty, suffer it in their mind. Who suffers more from poverty? It is not the poor; it is the rich. The thought of poverty kills them. Those who are poor are content with whatever little they have. They count their blessings and accept problems without fear or a tear. Poverty is a state of mind. The problem is not with poverty, the problem is with the mind.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part C – Chapter 21: Poverty Is a State of Mind | Page: 74*

Q: How can we overcome poverty?

A: The solution to the problem of poverty is to eliminate the beggarly thoughts from our mind. Look out of your window, and you will find that people who seem to have less wealth, seem to have far more in terms of the treasure of happiness as they have eliminated poverty from their mind. In this world of immense opportunity, there are enough opportunities for people not to cry and ask, 'Why am I poor?' If there is no opportunity here, move and find one.

Q: How does greed cause financial problems?

A: Greed can never be fulfilled, only needs can. When we let our need grow beyond our means, it becomes greed. The problem is – Enough is not enough! We human beings are never satisfied. Because there is no contentment and fulfilment, our greed takes us up the peak of achievement, until we fall off the cliff and die. Somebody rightly said, 'Debt is the enemy of financial freedom'. Instead of being free, we create investments that make us suffer.

Q: Why does desire cause suffering?

A: The Buddha, the Enlightened one, stated that desire is the root cause of all problems. He analyzed that while it seems that desires and cravings create excitement and Happiness as we fulfil them, the satisfaction is only temporary. Desire becomes a fire that ultimately burns us. When there is desire, we become attached to the result that we seek. Ultimately, all desires are not fulfilled, and it leads to suffering.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 28: Desires | Page: 30*

Q: What causes disappointments in life?

A: The real cause of disappointments is fixing our mind on the result expected post our action. By itself, disappointment does not appear as a problem. When we fail to accept whatever happens in our life, we create disappointments and become unhappy. We human beings get disappointed at every little thing. Instead of being glad, our disappointments make us sad. There is a way to overcome this – to accept whatever comes with joy and Bliss.

Q: What is the Law of Karma and how does it relate to problems?

A: Karma means action. As per the Law of Karma, the seed you plant determines the fruit on the tree. So also, the deed you plant determines your destiny. Those who understand the Law of Karma find a solution to all their problems. They realize that problems are only the fruits of their past actions and as long as there are deeds of thorns that they have planted, they will not only anticipate those problems but welcome them and then face, fight and finish them.

Q: Can we carry our wealth beyond death?

A: You cannot carry a small pen into the afterworld. When we Realize the Truth, we can be free from most of our monetary problems. We spend our entire life trying to earn and earn, but we do not realize that others will burn what we earn. In the bargain, we carry so many problems, so much stress and anxiety, when in the end, nothing will belong to us. The solution is Enlightenment – then wealth is enjoyed but not clung to.

Q: Is unemployment really a problem?

A: When we have no purpose in life, we can remain jobless and continue to let this problem of unemployment be with us forever. Just crying about a problem will in no way find a solution to that problem. We need action. We need to use the gift of our intellect and solve our problems. If we do not employ our gift of the intellect, we will continue to face problems like unemployment. It's a choice!

Q: How does contentment solve the problem of success and failure?

A: A few of us are happy as we live with contentment and fulfilment. We experience peace. The solution to success and failure lies in shifting our goal from achievement to Enlightenment. On the plateau of contentment and fulfilment, there is neither excessive craving for success nor despair at failure. We enjoy the journey itself. Contentment is the wealth that nobody can take away from us.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 22: *Success Is Not Happiness* | Page: 75

Q: What is the one solution to all problems of failure, success and poverty?

A: It is Enlightenment. Realize the Truth and the battle is won. Enlightenment will leave all problems behind. Bliss, Peace and Happiness you will find. Poverty is a state of mind. Success is not Happiness. Failure is not the end. When we realize we are the Divine Soul – not the body that achieves or fails, not the mind that fears poverty – all these problems dissolve. We see this life for what it is: a show, from which we come and go.

TOPIC 6: DEATH, SICKNESS AND DISEASE

Q: Why is death considered such a big problem?

A: Death is a big problem for the world. The whole world is scared of death, but ironically, it is a reality that nobody can escape from. Death is certain. Every 'body' has to die. Death is a problem because we see that the one who dies loses everything that is known, all that he considers his own. Throughout life, we work hard to build a career, to earn, to buy a property, to build a home and create savings. In a flash, at that moment of death, nothing belongs to us.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 12: Death | Page: 14*

Q: How should we face death?

A: Those who are Enlightened with the Truth accept death gracefully. Some even celebrate death as they consider it to be a doorway to Liberation, freedom from all problems and suffering on earth. Accept the reality of death. Realize the Truth that death is not the end, it is just a bend to transcend. The solution lies in overcoming our ignorance about death. Death is certain, accept it – and live fully in the meantime.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part C – Chapter 18: Death Is Certain, Accept It | Page: 71*

Q: What happens after death?

A: Only a rare few who Realize the Truth and are Enlightened solve the mystery of death. These truly wise ones not only solve the death problem but consider it to be a celebration as it liberates them from all misery that they suffer on earth. They realize that Death is the doorway to God! The body dies, but the one who was alive passes away, departs, moves on. We are not the body that dies.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part A – Chapter 12: Death | Page: 14*

Q: Can we overcome the fear of death?

A: When we overcome the fear of death, we start to live. Because we are ignorant that we are not the body that dies, we get an anxiety attack at the very thought of death. But those who are Enlightened with the Truth accept death gracefully. The moment we realize we are the Divine Soul – birthless and deathless – the fear of death dissolves. The Soul is a Power, energy that gives life to a human body. It cannot die.

Q: How do we deal with physical pain?

A: My body aches, but I am okay. Pain is like a zooming train – sure, it comes, but it never stays. Has any pain lived with you forever? Instead of suffering from the pain, we should realize we are not the ones made of skin and bone. The solution is not in having life without aches and pains. The solution is in acceptance and responding gracefully with a smile. Realize the Truth – there will be pleasure and pain, sun and rain, loss and gain, but we must laugh again and again.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part C – Chapter 20: My Body Aches, but I Am Okay | Page: 73*

Q: Are we the body that suffers from disease?

A: Of course, the body experiences pain and it suffers. But are we the body? We have a body but we are not the body, just like we may have a car or house, but that is not us. Sarah had cancer, yet she said clearly – I do not have cancer, my body has! It will soon die, but nobody can escape death! When we realize that we are not the body, we can transcend even severe physical suffering.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part C – Chapter 5: Am I the Body That Suffers? | Page: 58*

Q: What is the difference between sickness and suffering?

A: The body may experience pain and it will die, but we do not need to suffer. Ramakrishna had cancer but he did not 'suffer' from cancer. He smiled, he laughed, he lived. He Realized the Truth that his body had a disease. His body would soon die, but he did not suffer the disease and the pain. Can we be like Ramakrishna? Pain can never kill us; we can kill the pain.

Q: Why do some people with serious diseases still remain at peace?

A: What makes people heroes despite their disease? What makes them smile? It is the Realization of the Truth that defeats their disease. Despite their disease, they live, they smile, and they pray. They accept their disease, and as they battle it, they enjoy their journey of life. The Realization that we are not the body liberates us from suffering even while the body may still experience pain.

Q: What causes mental health problems?

A: Mental health can be a major problem. The sickness of the mind manifests in our physical circumstances. If only we realize the cause of our mental problems, our mental health issues, we will find a solution ourselves. As long as we are ignorant that the problems of the mind can be solved by overcoming our ignorance, we will continue to suffer. The mind makes us suffer more than a physical ailment sometimes.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part A – Chapter 10: Mental Health | Page: 12

Q: What is the deeper truth about physical problems of the body?

A: Every 'body' experiences physical problems. As the body grows, the problems grow. We develop heart issues, or our kidneys fail. Every human being who is alive, will experience some or the other physical problem. The body will ultimately die, but sometimes, before it dies, there will be disease and decay. If we Realize the Truth about the problems of the body, we will be able to find a solution to all our physical problems.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part B – Chapter 2: Physical Problems of the Body | Page: 41

Q: Why should we accept the certainty of death?

A: No 'body' can escape death! Then, how does it become a problem? The problem is not death. The problem is fear and worry that causes stress and anxiety. Death is not a problem. It is a reality. But stress and anxiety are a problem. Because we are ignorant that we are not the body that dies, we suffer. The moment we accept the certainty of death and realize we are the Soul, we can live fully and fearlessly.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 18: Death Is Certain, Accept It | Page: 71

Q: What is the Soul's relationship to death?

A: The Soul is birthless and deathless. It is a Power, energy that gives life to a human body. When we realize we are that Soul, and not the human body, all our problems are solved because the problems do not belong to us in the first place! The Soul never suffers. The moment the Power leaves, there will be no breath. We are that Power – the one who departs at death. And that Power cannot die.

Q: Does science support the idea that we are more than the body?

A: Science, through its experiment called Wave-Particle Duality, has concluded that we human beings are not the mass of 30 trillion cells that we appear to be. Every cell is nothing but energy. The smallest particle – the quark – is nothing but energy. When we Realize this Truth that we are nothing but energy, all suffering and all problems cease. The energy of the spirit is like electricity. It gives Power to the human machinery to live till we die.

Q: How should we respond when our loved ones are sick or dying?

A: Our ignorance about death makes us grieve deeply when loved ones suffer or die. We create unnecessary additional suffering for ourselves. The moment we realize that death is not the end – it is just a bend to transcend – we can support our loved ones with love and peace rather than panic. Those who are Enlightened consider death a doorway to God and can face it and support others through it with grace.

Q: What is suicidal thinking and how can it be overcome?

A: Suicide is not the end to our problems. It only creates more problems for now and for the future. When our stress, worry, and anxiety cross the ultimate level of depression, then there is nothing else left. The mind manipulates us to commit suicide. Why do we want to end this beautiful gift called Life? Why do we let our mind bombard us with negative thoughts and become the cause of our own misery? The solution lies in Realizing the Truth – that death is not in our hands.

TOPIC 7: THE MIND, EGO AND IGNORANCE

Q: What is the mind and why does it cause problems?

A: The mind is a subtle thought factory of our existence. Where is the mind? You cannot find! But it is constantly producing thoughts. It thinks a new thought practically every second – up to 50,000 thoughts a day. It is the mind that causes us to worry and causes our stress and anxiety. It causes us to fear when there is no real danger. It leads us from our worries and anxieties into depression and even creates suicidal thoughts.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part B – Chapter 3: Emotional Problems of the Mind | Page: 42*

Q: What is the ego and what problems does it cause?

A: The ego is the one that says 'I', 'me' and 'mine'. Our existence is because of the ego. The moment we say there is no ego, there is no existence. The root cause of all poisonous emotions like anger, hate, revenge and jealousy is our own ego. We are so worried about our image that the ego creates major problems in our life. Most of the world suffers deep misery because of the ego.

Q: What is ignorance and how does it cause suffering?

A: We human beings are ignorant about who we truly are and why we are here. We consider ourselves to be the ones we see every morning in the mirror. The cause of our suffering is our ignorance. Because of this ignorance, we do not realize who we truly are and we suffer the pain of our body, misery of our mind and agony of our ego. As long as ignorance continues to blind us, we continue to suffer, day after day.

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part B – Chapter 8: Our Ignorance Makes Us Suffer | Page: 47*

Q: What is the real cause of all our problems?

A: While there are many problems, if we contemplate and investigate, there will be one great realization – the realization that there is one solution to all problems. Our problems are caused by ignorance. Because of ignorance, we do not Realize the Truth. Because we do not Realize the Truth, we suffer physical pain of the body, misery of the mind and agony of the ego. The real problem is not fear or depression, not anger or suicidal thoughts, not even failure and poverty; it is IGNORANCE!

□ Source: *Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part B – Chapter 10: What Is the Real Cause of Problems? | Page: 49*

Q: Are we really the body, mind and ego?

A: We are neither the body nor the mind or ego, but we suffer all the problems of body, mind and ego. When we realize the reality that we are the Divine Soul, we are liberated from all our problems. The mind with its toxic thoughts, continues to drill us and kill us. We think the mind is king, it is everything, when in reality it is our biggest enemy. We are not the body, we are not the mind – we are the Soul.

Q: How does the mind trap us in the past and future?

A: The mind goes to the past and creates regret, shame and guilt with its thoughts that nurse, curse and rehearse the incidents and wrongs of the past. We lose our peace. Then the mind jumps to tomorrow and creates stress, worry and anxiety. Immediately, any peace that we enjoy will cease because of our own mind. We swing like a pendulum, first to yesterday, and then to tomorrow, and we lose the present moment of Bliss.

Q: How can we tame the monkey mind?

A: We must tame the monkey, cut its tail – the EY of MONKEY, the Ever-Yelling, Ever-Yearning aspect of the mind. To tame the monkey that is our mind, we must stop its ever-yearning. The mind is constantly desiring, and this craving is the root cause of our problems. We must learn to silence our mind by using the intellect to control it, just as we observe it and witness its jumping from thought to thought. Tame the monkey mind and make it a monk!

Q: What is the difference between the mind and the intellect?

A: We have been blessed with an intellect, the power to discriminate and choose. We are the only ones who have a willpower. Alas, we live without realizing this and we take this gift of the intellect to our graves along with all our problems! The intellect discriminates thoughts, while the mind produces them. When we use the intellect to observe and filter the mind's output, we transcend stress and regain peace.

Q: How does the ME (Mind and Ego) make us suffer?

A: The ME makes us worry and fear. It is the Mind and Ego that fools us into believing that we are this body. People call us by our name millions of times, and ME, the Mind and Ego, believes we are that name. Thus, the ego suffers, because it does not realize that this is just a name and not me. As long as we believe we are the Mind and Ego, ME, problems will be. It is the ME that is making us suffer from birth to death.

Q: What does it mean to transcend the ego?

A: To transcend the ego, we have to let go of it. The moment we stop clinging to 'I', 'me' and 'mine', we will be fine. Because we will not consider ourselves as separate from others, there will be no inferiority complex, and we will eliminate our sense of insecurity. The moment we transcend the ego and realize we are nothing, everything in our life will change. Our problems will disappear as we live as the Divine Soul.

Q: Why do we believe in the fairy tales that make us suffer?

A: We human beings love fairy tales. We say 'I am John' but this is a lie! We were not John when we were born and when John will die, the 'I' in John will leave John. We continue to be enveloped in the darkness of ignorance and never Realize the Truth. As long as we believe in

fairy tales, we will live with the myth, we will never Realize the Truth, and we will take our problems and suffering to our graves.

Q: What is the triple suffering?

A: We human beings experience this triple suffering the moment we arrive on planet earth. It is the pain of the body, the misery of the mind, and the agony of the ego. Nobody who is alive can escape from this triple suffering. The Buddha, the Awakened One, called this Dukkha. He advocated Nirvana to overcome all the suffering. All of humanity experiences this triple suffering as long as we live as the human-computer.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part B – Chapter 6: *We Suffer the Triple Suffering* | Page: 45

Q: Who actually suffers?

A: Who actually suffers? The human being that comprises the physical body and the subtle Mind and Ego, ME, experiences this triple suffering. But in reality, 'I', the one who has a body, mind and ego, do not really suffer! It is the body that suffers pain, the mind that becomes miserable, the ego that gets agonized. The cause? Our ignorance. Because we are ignorant, we become miserable thinking we are the mind and body.

Q: How does Realization free us from the mind's grip?

A: The moment we realize we are not the mind, the way the mist evaporates in the morning sun, all stress and worry will disappear. But if we do not, we will continue to live with all our mental problems, till our ultimate moment of death. Kill the mind before the mind kills you. Tame the monkey mind and make it a monk! Q: Is the mind really our enemy?

A: Unfortunately, we are ignorant about this. We think the mind is king, it is everything, when in reality it is our biggest enemy. The mind is a thought factory. It is constantly producing thoughts – practically every second, up to 50,000 thoughts a day. It does not stop its monkey business even when we go to sleep. It bombards us with dreams and nightmares and makes us miserable. As long as the monkey lives in our head, we are dead.

TOPIC 8: THE SOUL, ENLIGHTENMENT AND THE ONE SOLUTION

Q: What is the one solution to all problems?

A: The seed of all our problems is Ignorance. If we eliminate the seed, there will be no tree. If there is no ignorance, we would not have any problems. Overcoming Ignorance is the one solution. How will we overcome this ignorance? How will we Realize the Truth? How will we be Enlightened? Unless we ask questions and investigate, we will never realize that one solution to our many problems. Problems are many, the Solution is One.

Q: Who are we in reality?

A: We are the Divine Soul. We have a body but we are not the body – just like we may have a car or house, but that is not us. We seem to have a mind, but where it is, we cannot find. The ego says 'I' but will last only till we die. We are the Power that starts as a single cell and ends as trillions. Whether we call it the Soul, the Spirit, or the Atman, we are that Power which gives life to the body from birth to death.

Q: What is Enlightenment?

A: Enlightenment is the Realization of the Truth – that we are not the body that suffers, we are not the mind that is miserable, we are not the ego that is agonized. We are the Divine Soul. Enlightenment is moving from darkness to light. All our problems lie in one solution – the solution is Enlightenment. Once there is Realization, we will be Enlightened and free from all misery and sorrow.

Q: Does the Soul suffer?

A: The Soul need not suffer. The Soul is birthless and deathless. It is a Power, energy that gives life to a human body. When we realize we are that Soul, and not the human body, all our problems are solved because the problems do not belong to us in the first place! The Soul never suffers. If a bulb breaks, does it affect the electricity that gives it power? So also, when we realize we are the Soul, suffering does not touch us.

Q: What is Self-Realization and what is its reward?

A: Self-Realization happens when we overcome all our ignorance and when we are Enlightened with the Truth. We are not the body, mind or ego. We are the Divine Soul. Once we achieve this goal, all our problems disappear as if by magic. The reward of Liberation is a life without problems. All the problems belong to the body, the mind, and the ego. None of the problems belong to the Soul. This is the Ultimate Goal.

Q: How do we discover the one solution to our many problems?

A: We must question everything if we want to Realize the Truth. We must Ask, Investigate, and Realize. Not only must we ask questions, but we must investigate. We must contemplate all possible answers and discriminate the myth from the truth. When we continue this quest, we will realize we are not the body that suffers physical pain, not the mind that is miserable, nor the ego that is agonized. We will find the one solution: we are the Divine Soul.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 13: Ask, Investigate, Realize | Page: 66

Q: What methods can we use to achieve Realization?

A: There are many methods of Realization. Some use the method of Causation – the Divine is the cause, we are only effects. Some use the method of Elimination – I am not the body and mind, but I exist, I am the Soul. Others use the method of the Seer versus the Seen. There is also the scientific method of the Wave-Particle Duality. Realization is the crystallization of knowledge into an inner intuitive experience. When we open our 'Real Eyes', we 'Realize' the Truth.

Q: What is life like once we are Enlightened?

A: The moment we achieve our Ultimate Goal, we are free from problems. The one who lives without problems lives in the Consciousness of the Truth and experiences eternal Joy, Peace, and Bliss. One look at a person and you can make out what they have chosen – Many Problems or That One Solution. The Enlightened ones laugh their way through life as they overcome the darkness of ignorance. Problems may arise, but they cannot shake the Enlightened one.

Q: What is the role of the Divine connection in solving problems?

A: The simple solution to our many problems cumulates in building a Divine connection. It starts with Overcoming Ignorance and goes on to Realizing the Truth. This is Enlightenment – that we

are the Divine Soul that does not suffer. This will lead us to God-Realization through building a Divine connection between our Soul and the Supreme Soul. In this state of Bliss, our Divine connection makes us feel the presence of the Divine all the time, everywhere. Where is the question of any problem to survive?

Q: Is a problem-free life possible while still alive?

A: It is possible to find a solution to all our problems and to live a life where there are no problems. You do not need to go to the graveyard to leave behind your problems and your life! You can be alive and not have problems if you are Enlightened with the Truth that you are the Divine Soul. Our challenge is to convert this knowledge into Realization. Once we do, the problem-free life begins right here, right now.

Q: Why do most people never find the one solution?

A: Most of the human race is not able to digest reality and considers death to be the world's biggest unsolvable problem. Not many of us stop to find a solution to all our problems. We believe that this world is meant for us to suffer, and problems will accompany us till our last breath. Because we are enveloped in the darkness of ignorance, we never Realize the Truth, and we take our problems and our suffering to our graves.

Q: How is life like a dream?

A: We do not understand that life too, is like a dream. The only difference is that we wake up from a dream in the morning, while we wake up from the dream called Life at death. Have you seen a dead person carrying all their problems to their graveyard? No! All problems are temporary. The moment we realize life is like a dream – our problems are no more! Nothing is real, we come and we go. When we realize this, problems are zero.

Q: What does 'Not This, Not This, We Are That' mean?

A: We think we are this body, but we are not this body. We think we are the mind, but we cannot find the mind. The ego says 'I' and continues to say it till we die. But we are neither the body nor the mind and ego. We are that Power that keeps us alive from birth to death. The moment the Power leaves, there will be no breath. The moment we realize we are not the body, mind and ego, we will find a solution to all our problems.

Q: What is the human computer?

A: Our body is made up of hardware – the skin, muscles, blood, flesh, bones and critical organs. To make the human hardware work, we have the subtle aspect of our existence – the software: mind, memory, intellect and ego. Just like a computer needs hardware and software, the human-computer too needs both. But what if the computer had no battery or power? It would be dead. We are that Power – the Soul, Spirit or Atman. When we are enlightened with this Truth, we find the one solution.

Q: How does realizing we are the Divine Soul end suffering?

A: All our problems in life can get solved if only we realize the simple truth that – We are the Divine Soul. All the suffering is of the body, all the misery is of the mind, and all the agony is of the ego. But we are none of these. We are the Divine Soul. Because we are ignorant of this Truth, we live and die with problems. But the moment there is this Self-Realization, we are liberated from the triple suffering forever.

TOPIC 9: HAPPINESS AND PEACE

Q: What is true happiness?

A: We all seek peace because peace is the foundation of happiness. We experience peace when we live with contentment and fulfillment. Happiness is not outside of us. Most of us are searching for happiness outside when in reality, it is inside. True happiness is found not in the pursuit of success, achievement or material possessions – but in the realization of our true Self as the Divine Soul. Happiness is in the 'Now'!

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 26: Happiness Is in the 'Now' | Page: 79

Q: Can we be happy in the present moment?

A: Happiness belongs to the 'now'. If we want to be happy, we must be happy right now! We cannot be happy in yesterday, nor can we be happy in tomorrow. Even if they are pleasant memories and exciting plans, the Happiness belongs to this moment. Therefore, if anybody has a problem of unhappiness, they must do a simple thing – they must make a Vow to be Happy in the 'Now'. Life is all about moments. If you lose the moment, you lose life itself.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 26: Happiness Is in the 'Now' | Page: 79

Q: What is peace and why do we seek it?

A: We all seek peace because peace is the foundation of happiness. When there is no peace, our happiness does cease! Imagine you are in a celebration party. Suddenly, there is bad news. The moment we lose peace of mind, happiness we can no longer find. It is only natural for every human being to seek peace of mind because in this state, true happiness, we find.

□ *Source: Many Problems... One Solution by AiR – Atman in Ravi | Chapter: Part C – Chapter 17: There Is No Need to Worry | Page: 70*

Q: Why do people search for peace in the wrong places?

A: Peace is not outside of us. Most of us are searching for peace outside when in reality, peace is inside. We travel to faraway destinations to find peace of mind. Little do we realize that as long as we carry our mind with us, peace we can never find. The mind with its toxic thoughts, continues to drill us and kill us and destroys our peace. The moment we still the mind, peace, we can find.

Q: What is the relationship between contentment and happiness?

A: A few of us are happy as we live with contentment and fulfillment. We experience peace. The solution to the problem of success and failure is to exit from the first peak of achievement, transit the plateau of contentment and fulfillment, and reach the destination of Enlightenment. Contentment means living without craving. When we discover the peak of Enlightenment, our problem is solved and we live with eternal peace.

Q: How does laughing through life help with problems?

A: We must learn to put problems in a proper perspective. We must remember that every problem has a limited lifespan. Problems will not last forever and if some do, eventually, they will cease to be, because we do not last forever. Those who realize this learn to laugh through the problems of life. A problem is not a stumbling block. It is a stepping stone. They climb over their problems and reach the top with a smile.

Q: How does accepting life as a show create happiness?

A: What is life all about? Life is a show. We come and we go! Problems are part of the drama. They make life exciting. Imagine how boring life would be if there were no problems! As kids, we had a game-playing attitude. In the end, we would put the game back into the box and laugh.

But as we grow up, we forget to smile. If only we realized that our problems were not real and that ultimately, the show would be over, we would not carry our problems with us till our grave.

Q: What is SatChitAnanda – the consciousness of Truth as Bliss?

A: Very few people go in search of the true meaning of life. If they become conscious of the truth, they experience Ananda, a bliss unknown to the common man. When we live in the Consciousness of the Truth in Bliss, we experience Divinity not only within us, but we realize that every living organism is a Divine manifestation. This is SatChitAnanda – the Bliss that comes from being conscious of the ultimate Truth of who we are.

Q: Does achieving things bring happiness?

A: Success is not Happiness. Happiness is Success. We have been taught the wrong equation. Many people in the world experience the roller coaster of success. Before they realize it, the screen of their life displays – Game over! In their pursuit for success, they forget to live. Are all successful people happy? If money equals happiness, then the rich should be glad. But turn around and you will find many of them are sad.

Q: What happens when we make peace with ourselves?

A: We can never obtain Peace in the outer world until we make Peace with ourselves – as the Dalai Lama wisely said. The moment we Realize the Truth about life, about who we are, we stop searching for peace outside and find it within. Problems may continue to arise, but in the light of Enlightenment, they cannot shake the one who has discovered inner peace. Peace becomes our permanent state.

Q: How can we flip from a negative to a positive state of mind?

A: NEP is Negative Energy Poison – toxic emotions like anger, fear, hate, worry, and jealousy. PEP is Positive Energy Power – positive emotions like faith, courage, hope, enthusiasm, and forgiveness. All the problems of our life can be conquered if only we learn to flip from NEP to PEP. We have been blessed with an intellect, the power to discriminate and choose. If only we use this gift, our problems will be no more!

Q: What is the role of gratitude and contentment in happiness?

A: Instead of choosing to live with greed, we must discover a way to live with contentment, counting our blessings. Look out of your window, and you will find that people who seem to have less wealth, seem to have far more in terms of the treasure of happiness. They have eliminated poverty from their mind. Those who count their blessings find that they have more than enough to be happy.

Q: What is the 'Ultimate Goal' of a human being?

A: The Ultimate Goal of our life is to realize we are the Divine Soul. This is called Self-Realization. When we overcome all our ignorance and when we are Enlightened with the Truth, then we realize that we are not the body, mind or ego. We are the Divine Soul. Once we achieve this goal, all our problems disappear as if by magic. But instead of pursuing this, we waste our life trying to achieve success and creating more problems.

Q: Why is the present moment the only place to find happiness?

A: Can you go to yesterday? You cannot! The past is gone, and the future is not yet born. All the dozens of problems that I have – are they killing me now? The answer is 'No'! We can escape from all the problems of our life in this moment. Then, the challenge is to repeat the act again, to live moment by moment without problems. Leave the problems of yesterday and the challenges of tomorrow where they are. Life is about today, about 'Now'. In this moment, there are no problems!

Q: How did the author find peace and happiness in his own life?

A: The author overcame his many problems by overcoming his ignorance and Realizing the Truth. It was Enlightenment. All his problems disappeared with just one solution. His fear, worry, stress, anxiety and depression, his anger and hate, along with many other challenges disappeared when he Realized the Truth about life. He had faith in the Divine, in his Lord, and this helped him connect with his Spiritual Master who guided him through.

TOPIC 10: ACCEPTANCE, SURRENDER AND LIBERATION

Q: What does it mean to accept and surrender?

A: The art of acceptance and surrender is the way to a problem-free life. As long as we live with regrets, we nurse, we curse, and we rehearse our problems. We must learn to accept, to let go. They learn to surrender – knowing that they cannot stop what is unfolding in their life. They accept what is happening and surrender to whatever will happen. They have no problems because they have learnt the art of Divine acceptance and surrender.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 29: The Art of Acceptance and Surrender | Page: 82

Q: What is the teaching 'whatever will be, will be'?

A: We live with the ignorance that we are in control of all our actions and thus, the fruit of our actions lies in our hands. We don't realize that there is a factor beyond our comprehension that controls the results of all our actions. The one who accepts whatever will be, will be does their best but leaves the rest to the Divine factor. The problems get resolved by themselves. And whatever doesn't get solved, they accept and do not think of as a problem.

Q: What is liberation and how do we attain it?

A: Liberation is freedom from all problems. When we realize we are not the body, the body may suffer physical pain, but we do not need to. When we overcome our ignorance, the mind may try to make us miserable, but we can transcend this misery. Once we are Enlightened that we are not the ego, there will be no agony of hate, revenge, jealousy, and anger. All our problems will in fact, disappear on Realization. We will be liberated from all suffering.

Q: How do we let go of the past?

A: If behind, at our problems, we were meant to see, then at the back, not in front, our eyes would be. We must look forward and move on, accepting the journey of life. We must not live in the realm of – I would have, could have, should have! What you resist will persist! Those who overcome their problems never look back at them. They realize the past is gone and there is no point in clinging to it.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 29: The Art of Acceptance and Surrender | Page: 82

Q: What is the 4th factor beyond our control?

A: There is a factor beyond our comprehension that controls the results of all our actions. There is no doubt that if we plant mangoes, we will get mangoes and not apples. But what if there is a drought or a flood or if insects destroy our tree? There are factors beyond our control that

control what will be. When we don't learn to accept this Divine factor, we live and die with problems. This is the 4th factor – the Divine power that governs outcomes.

□ Source: *Many Problems... One Solution* by AiR – Atman in Ravi | Chapter: Part C – Chapter 28: *Whatever Will Be, Will Be* | Page: 81

Q: Why does resisting problems make them worse?

A: What you resist will persist! Those who overcome problems, never look back at them. We must learn to accept, to let go. Some people continue to wonder why the problem arrived long after it has departed. They cling to their problems. But the ones who overcome their problems accept the journey of life, look forward, and move on. Acceptance and surrender dissolve problems – resistance only makes them grow.

Q: How does the Law of Karma teach us about acceptance?

A: As per the Law of Karma, the seed you plant determines the fruit on the tree. Those who understand the Law of Karma find a solution to all their problems. They realize that problems are only the fruits of their past actions and as long as there are deeds of thorns that they have planted, they will not only anticipate those problems but welcome them and then face, fight and finish them! This is the way to deal with problems.

Q: How do we enjoy life despite its problems?

A: What is life all about? Life is a show. We come and we go! Problems are part of the drama. They make life exciting. In a drama, one actor attacks another on stage. But when the drama is over, they do not carry the problem back in their heads. They realize it was just a drama. They let go of whatever happens. If only we realized that our problems were not real and that ultimately, the show would be over, we would not carry our problems with us till our grave.

Q: How does faith help us accept problems?

A: FAITH is Full Assurance In The Heart, and HOPE is Having Only Positive Expectations. They live with TRUST – Total Reliance Unconditional Surrender To The Almighty. Thus, they have no problems. By living with acceptance and surrender, they have found one solution to all their problems. They do their best and leave the rest to the Divine factor. The problems get resolved by themselves.

Q: What is the difference between problems and suffering?

A: Whatever be our problem, the biggest problem is the suffering caused by the problem. Every problem of our life is a problem, not just because it is a problem, but because it steals our peace and happiness. The moment we realize we are the Divine Soul, we can observe problems without suffering them. Problems may continue to exist, but we do not have to be miserable. There is a way to overcome all suffering while still being alive.

Q: Can we choose a problem-free life?

A: We have a choice. We can live with the many problems that life offers us or we can live with the one solution that eliminates all our problems. The one who is Enlightened says, 'Problems are nowhere,' while the one who has not Realized the Truth says, 'Problems are now here.' Although problems will be popping like how corn pops in a popcorn machine, you will munch with a crunch and enjoy. You will not fear the flowing of problems.

Q: What does it mean to sweep away all ignorance?

A: Ignorance is darkness. The darkness stops us from seeing the light of Truth. The moment we switch on the light, there would be brightness and the darkness would disappear. Most of our problems are caused by the darkness of ignorance. We need Enlightenment. We need to switch on the light within so that we realize who we are. Until we sweep away the darkness of ignorance, we will continue to believe in the myth and suffer all the problems of life.

Q: How does building a Divine connection solve all problems?

A: The moment we realize we are the Divine Soul, and we are liberated from the triple suffering, we become Conscious of our true self. We live in this Consciousness of the Truth in Bliss, as we experience Divinity not only within us, but we realize that every living organism is a Divine manifestation. This helps us overcome all the problems that we have with everybody around us. Where is the question of any problem to survive?

Q: Why is a problem-free life not in the graveyard?

A: A problem-free life is not only in the graveyard! It is possible to find a solution to all our problems while you are still alive. You do not need to die to be free from all suffering. You need Realization. Our challenge is to convert this knowledge into Realization. The ME, Mind and Ego,

makes us live and die with our problems. But the one who is Enlightened with the Truth discovers a problem-free life right here, while fully alive.
