

3 Peaks of Happiness

Topic: HAPPINESS

Q: What is Happiness?

A: Everybody wants to be Happy. But how many of us know the real meaning of Happiness? We are chasing success, money, name and wealth, thinking that the more we have of these, the Happier we will be. No doubt, these will give us pleasure, but is pleasure Happiness? Yes and no! Pleasure creates momentary joy, but soon we sink into a valley of gloom and despair. When we fulfil a desire, pleasure will quench our thirst. But soon, another desire will make us burst. Is there a way of being Happy all the time?

Q: What is the cause of Happiness?

A: Sometimes, we are celebrating, laughing, joking, having fun but in that very moment, we hear some news which is very disturbing. This steals our peace of mind. Then, can we remain Happy? Impossible! Peace is the foundation of Happiness. Where there is no peace, there can be no Happiness. Nobody can deny this.

Q: Where does Happiness come from? Is it inside or outside us?

A: Happiness doesn't come or go. Happiness is within. It is inside. But we are searching for it outside. How will we ever find it! As long as we are chasing Achievement and success, to attain pleasure that is momentary, we will be glad and sad in cycles. Unless we learn to live a life of contentment and Fulfillment, we will not discover eternal bliss.

Q: How can I be Happy all the time?

A: Happiness is in the 'now'. It is not in the yesterday that is gone, nor is it in the tomorrow not yet born. Those who learn the art of being in the 'now', the art of living life, moment by moment, they attain that state of eternal bliss. But how can we be Happy, moment by moment? It is practically impossible! We all have so many problems and we become unhappy. Where does our Happiness go?

Source: Page 4, Chapter 1 — 3 Peaks of Happiness (2nd Edition) by AiR – Atman in Ravi

Q: Is Happiness a choice?

A: Happiness is a choice. We must consciously want to be Happy. While Happiness is not always dependent on products, people and places, if we do not want to be Happy, we will remain in that state of unhappiness forever. Some people are living miserable lives. Either they are in a job that they hate or a relationship that makes them cry. Somehow, they got into it. But they have a choice! They can find a way out of this misery and sorrow, or they can drag it into another tomorrow. Happiness just doesn't happen. It needs effort.

Source: Page 10, Chapter 3 — 3 Peaks of Happiness (2nd Edition) by AiR – Atman in Ravi

Q: Why do we feel happy sometimes and unhappy other times?

A: While everybody wants to be Happy, different things make different people Happy. You may be very Happy eating a pizza, but I may hate Italian food. My Happiness may come from eating a South Indian Dosa. Each human being is wired differently. Each one of us becomes Happy being with our favourite people. Somebody may make me very Happy, but that very person may be the cause of your stress and unhappiness. Therefore, Happiness is not triggered by the same source for everybody. We all have our different Happiness triggers.

Q: What is the definition of unhappiness?

A: It is so much easier to define unhappiness. It is that state of fear, worry, stress, anxiety and depression. We become unhappy when there is anger, hate, revenge and jealousy. Isn't it true that these negative, toxic emotions ruin our Happiness. Wouldn't it be right then, to think that Happiness is being positive, living with faith, hope, trust and enthusiasm.

Topic: THE THREE PEAKS OF HAPPINESS

Q: What are the Three Peaks of Happiness?

A: Life is a journey. Unfortunately, most of us think it is a destination. We zoom from the womb to the tomb, trying to achieve name, fame, money and success. The first peak of Happiness is Achievement that gives pleasure. The second peak is Fulfillment that comes from contentment and gives us peace, the very foundation of Happiness. But there is a third peak, the peak called Enlightenment. Very few people know of this third and ultimate peak of Happiness. It is a state of Eternal Bliss, Divine Love and Everlasting Peace. On the third peak, one is liberated from all pain, suffering and sorrow.

Q: Which peak of Happiness is the highest?

A: The third and ultimate peak of Happiness, Enlightenment, not only gives us Happiness beyond pleasure and bliss that is built on the foundation of peace, but it also liberates us from all the suffering on earth, from fear, worry, stress and anxiety; from anger, hate, revenge and jealousy. Not only does Enlightenment liberate us from all suffering on earth, but it also liberates us from the constant cycle of death and rebirth.

Q: Why do most people stay on the first peak of Achievement?

A: Why is it that most people are chasing Achievement to be Happy? It is because the majority of the world is trapped by their own senses that seek pleasure. The world today is full of merchandise that wants to fulfil our sensual pleasures. The television and the internet are full of products and pleasures, motivating people to believe that Happiness is in acquiring these. Therefore, we are all trying to become richer, so that we can have all these possessions that will fill our life with pleasure.

Source: Pages 23–24, Chapter 6 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: How can I evolve from one peak of Happiness to another?

A: Are you seeking Happiness? If you want to be Happy, stop seeking it, for if you seek, you will never reach the peak! We must exit from the highway that goes to the peak of Achievement and take that little road that will lead us to the second peak of Happiness, Fulfillment. Then, a rare minority is lucky to evolve to that third and ultimate peak of Happiness, where we are liberated from all suffering and sorrow. It is on this third peak that we enjoy the pleasures of this world with peace, and we evolve further, beyond Achievement and Fulfillment.

Source: Pages 129–131, Chapter 33 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the difference between pleasure and peace?

A: Peace is that state of tranquillity where one is free from all anxiety. It is a state of eternal Happiness. It is an emotion of Divine joy. It does not last for a moment or even a brief period of time. It becomes a state of being. In that state of Peace, there is always joy. Peace is the cause, joy is the effect. But remove Peace, you will find there is no Happiness. Peace from Fulfillment gives far greater Happiness than pleasure from Achievement.

Topic: ACHIEVEMENT (FIRST PEAK)

Q: Is success the same as Happiness?

A: The whole world believes that success is Happiness. The whole world is trying to be an achiever. We seek money, wealth, name, fame, because we believe that all this will give us achievement and all this will make us Happy. No doubt success will give pleasure, but success is not Happiness. Success creates money that creates Pleasure and Bliss, but this is not what true Happiness is. A small minority discovers the secret – Success is not Happiness. Success is pleasure but cannot guarantee eternal bliss.

Source: Pages 125–127, Chapter 32 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: Why can success make us unhappy?

A: Success makes us compare our wealth with others and we become jealous. Instead of making us Happy, our success begins to make us unhappy. Ultimately, we consume our life making so much wealth, and in the bargain, we lose all our health! Before we realize it, our life is over! We may have all the money in the bank, but no time to spend it. When we realize this and decide to spend our wealth, we cry that we do not have the health to spend our wealth. Then we regret spending our entire life trying to be successful!

Source: Page 39, Chapter 10 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: Can money buy Happiness?

A: We must not underestimate the importance of success. We all need money to survive. But to believe that success and achievement is eternal Happiness is a myth we all grow up with. Money can buy a house, but not a home. Money can buy a bed, but not sleep. Money can buy a diamond ring, but not love. There are things money can buy. Therefore, we need money. But money cannot buy Happiness.

Source: Pages 29–30, Chapter 8 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What happens when we keep chasing achievement?

A: The pleasure derived from Achievement is driven by the hormone dopamine. Dopamine gives us a kick to seek more pleasure, more success and more achievement. We get trapped in this pleasure cycle and we live and die, chasing Achievement to be Happy. We don't realize that this journey is endless. These desires will never quench our thirst. Ultimately, they will make us burst. When we are climbing the peak called Achievement, finally we will reach a cliff called Death and fall.

Source: Page 24, Chapter 6 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: When should I take an exit from the Achievement highway?

A: Blessed is the one who is wise to take an exit from the highway of Achievement. Fortunate is he, who stops climbing the peak of Achievement, trying to reach the top. It doesn't exist!

Realizing that the peak is a cliff that will lead us to fall and die, the truly Happy one descends the peak of Achievement, into the valley of contentment. Such a person finds peace, the very foundation of Happiness. Such a person is free from all fear and worry, stress and anxiety. Such a person experiences true bliss.

Source: Page 46, Chapter 12 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Topic: FULFILLMENT (SECOND PEAK)

Q: What is Fulfillment and why is it a higher peak of Happiness?

A: Those who exit from the highway of Achievement, reach the second peak of Happiness, Fulfillment. Fulfillment, however, is not a peak. It is a plateau, a plateau, where we are liberated from desires, from passions and obsessions. We are fully satisfied. We live a life of fulfillment. The key difference between achievement and fulfillment is that the former is a journey chasing pleasure but the latter is a journey of peace, the very foundation of Happiness.

Source: Page 50, Chapter 13 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the meaning of contentment and how does it help?

A: Truly Happy people are content. They live with fulfillment. They know that Happiness is not in getting and becoming Happy, but rather in being Happy. They learn the art of being content, being satisfied and living a life of fulfillment. How often do we lose our smile and our joy because we become jealous of others? Where does the jealousy come from? It is born out of lack of contentment. There is no fulfillment.

Source: Page 58, Chapter 15 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the FULFILLMENT acronym?

A: F – Full Satisfaction and Contentment; U – Universal Connection; L – Living with Meaning and Purpose; F – Faith, Hope, Surrender; I – Inspiration, Energy and Enthusiasm; L – Liberation and Freedom; L – Laughter and Love; M – Making a Difference; E – Emotionally Positive; N – Noteworthy Success and Achievement; T – Tranquillity and Peace. People living with fulfillment are fully satisfied and content. They program themselves to eliminate disappointment from their

life.

Source: Pages 62–64, Chapter 16 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: How is Happiness on the second peak different from the first?

A: When we look at some people who are always cheerful, always smiling and Happy, we will find that their intrinsic emotion is peace. Their Happiness doesn't come from pleasure that comes from Achievement. Those who are enjoying eternal Happiness, cannot be seen on the peak of Achievement where one fears falling down, just as one experiences the stress of climbing up. On the plateau of Fulfillment, there are no aspirations that steal our Happiness.

Topic: ENLIGHTENMENT (THIRD PEAK)

Q: What is Enlightenment?

A: The third peak of Happiness, Enlightenment is that state of Realization where we overcome all ignorance. We overcome all the myth that we have grown up with. We realize we are the Divine Soul, and the Soul doesn't suffer. We realize the truth about God and how we are all manifestations of God. We realize we ourselves are a particle of the Supreme Immortal Power, SIP. We are the Soul, the Spark Of Unique Life which suffers no pain.

Source: Page 74, Chapter 19 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: Why is Enlightenment the purpose of human life?

A: What is Enlightenment? Why is it our life purpose? This is our purpose because only a human being is blessed with an intellect to discriminate. Man is the only living species who has the willpower to choose. If man does not use his willpower to discriminate, to overcome ignorance and to be enlightened, then, man will return to earth in a rebirth, carrying his Karma of his several past lives.

Source: Pages 77–78, Chapter 20 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: How can I reach Enlightenment?

A: If we want to achieve our life purpose of Enlightenment, we have to overcome ignorance. But how can we overcome ignorance? The darkness of ignorance cannot be eliminated with a broom, just like you cannot sweep out darkness from a room. You need a light to eliminate darkness in a room. So also, you need Enlightenment, for when one is enlightened and one realizes the truth, one overcomes ignorance, which is the very cause of suffering.

Source: Pages 79–80, Chapter 20 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What does an Enlightened person experience?

A: When they reach the peak of Enlightenment, there is no suffering, misery and sorrow. There is only joy, love and bliss. On the third peak, the enlightened ones love all because they realize, that each person is a manifestation of the Divine. Love is a fountain of joy and the enlightened ones experience unparalleled happiness. Therefore, not only do the enlightened ones enjoy earthly pleasure, but they also enjoy Divine heavenly bliss.

Source: Page 20, Chapter 5 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: Is Enlightenment for everyone?

A: The state of Enlightenment is rare. Not even 1% of humanity experiences it. It is not easy to define Enlightenment or to measure Happiness that is experienced on this peak. The euphoria of joy that comes from Enlightenment is seamless, and greater than the waters of all the oceans put together. If we are on the first peak of Happiness, chasing success, achievement and pleasure, it is time to take an exit. Then, we must try to pass through the state of Fulfillment which will give us peace. Our purpose is to achieve the purpose of life.

Topic: SUFFERING & FREEDOM FROM SUFFERING

Q: Why do we suffer in life?

A: There are 3 types of suffering. The triple suffering is that of the body, of the mind and of the ego. The body suffers as long as it is alive. Once it is dead, there is no suffering. But death is not the end. It is just a bend. ME, the Mind and Ego carries its pending Karma, good and bad deeds, that have not been settled, into another body in a new life. Again, this new body will suffer, along with the old mind and ego, and old Karma. In addition, it will do new Karma, both good and bad, and for every bad Karma, we have to suffer.

Source: Pages 70–71, Chapter 18 — 3 Peaks of Happiness (2nd Edition) by AiR – Atman in Ravi

Q: Who is the one who suffers?

A: Who suffers? Of course, 'I' do. But who is the 'I' that suffers? We all think that we are 'me'. But the truth is that I am not the 'I' that suffers. Am I the body that suffers physical pain, am I the mind that becomes miserable or am I the ego that is anguished and anguished? An intelligent person will say, 'I am all of these. I am the body, mind and ego that suffers.' As long as we think we are the body, mind and ego, we cannot escape suffering.

Source: Page 70, Chapter 18 — 3 Peaks of Happiness (2nd Edition) by AiR – Atman in Ravi

Q: Is anyone free from suffering?

A: Isn't it true that anybody who comes to earth experiences pain and suffering? There is nobody on the planet who is free from it. Life is like a merry-go-round, and just like there is day and night, there will be darkness and light. Sometimes we will be glad, and sometimes we will be sad. This is what 99% of us think. Only 1% of humanity goes forward and discovers that ultimate state of Happiness, peace and bliss, where there is no suffering or sorrow.

Source: Pages 67–68, Chapter 17 — 3 Peaks of Happiness (2nd Edition) by AiR – Atman in Ravi

Q: How can I be free from all suffering?

A: There is only one way to be free from all suffering. It is to tame the monkey mind and make it into a monk. All our suffering is because of the mind. The solution appears on the third and ultimate peak of Happiness, Enlightenment. A truly enlightened person knows that he is not the body that suffers physical pain. The ego that gets anguished is a false identity. All this is caused by the mind, which is an illusion. Realizing this is Enlightenment. It liberates us from all suffering.

Source: Pages 101–104, Chapter 26 — 3 Peaks of Happiness (2nd Edition) by AiR – Atman in Ravi

Q: What is the role of Karma in suffering?

A: Who suffers? It is the body, mind and ego that suffers. Why do we suffer? It is because of Karma. Without Karma, there is no suffering, just as good Karma is the cause of all goodness that unfolds in our life. Nothing happens by chance or luck, nor is it God's wish and will to make us suffer. Very often, we ask the question – 'Why do bad things happen to good people?' Bad things cannot happen to good people. It is a law, a Universal Law of action and reaction.

Topic: PEACE, MIND & CONSCIOUSNESS

Q: What is peace and why is it the foundation of Happiness?

A: Is it possible to be Happy without Peace? Can you be in a state of stress, worry, anxiety and depression and still be Happy? You can't! One is hot, the other is cold. They are opposites. Peace is the cause and Happiness is the effect. Why is it that pleasure cannot give us true Happiness? Pleasure can only give us momentary Happiness, because there is no peace, no tranquillity. The moment there is pleasure, we experience joy, but the very next moment, we are stressed or worried or anxious. In this moment, we lose our peace and with it our Happiness.

Source: Pages 97–98, Chapter 25 — 3 Peaks of Happiness (2nd Edition) by AiR – Atman in Ravi

Q: How can I still my mind?

A: If we want to be in a state of eternal bliss, we must learn the art of living in Consciousness. What is Consciousness? It is a state of thoughtlessness. It is a state where there is no mind. This is because when we still the mind, we kill the mind. Then, we are awakened in that state of

being the witness and the observer. This is Consciousness. In the state of Consciousness, thoughts appear one by one. There is no bombarding of thoughts by the mind.

Source: Pages 85–86, Chapter 22 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the monkey mind and how does it steal our peace?

A: What is peace? It is the ability to make the monkey mind into a monk. The mind is like a monkey. Its tail, the EY, causes that Ever Yelling, Ever Yearning, that steals our peace. When we cut the tail of the monkey, then the monkey becomes a monk. The monkey mind is creating so much noise, such a pandemonium, that it steals our peace and our Happiness! Our need becomes our greed. The monkey makes us run behind pleasures, people, possessions.

Q: What is SatChitAnanda?

A: Sat means Truth. Chit means Consciousness. Ananda means eternal Bliss. When we put the three words together, we attain the state of eternal Happiness. An enlightened and liberated being realizes the truth that Happiness doesn't come from things or people. He realizes that he is the Divine Soul and in essence, is already full of Happiness, love and peace. If only one can remain in the Consciousness of our true identity, the Spark Of Unique Life, the Soul, then we don't need anything to be Happy. We can just be Happy in the Consciousness of the truth of who we are.

Source: Pages 89–91, Chapter 23 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the difference between Consciousness and the mind state?

A: In the state of Consciousness, we are the boss! In a state of the mind, the mind is riding our life horse and it is taking us where it wants to go. In the mind state, thoughts become feelings and feelings lead to our unhappiness. But in Consciousness, there is no mind. There is no bundle of thoughts. Therefore, in this state of thoughtlessness, or Consciousness, we experience bliss.

Topic: IGNORANCE & REALIZATION

Q: What is ignorance and how does it cause suffering?

A: The ignorance one is talking about on the Enlightenment journey is different. We are ignorant of our reality. We are ignorant of who we are and why we are here. As long as we are ignorant, we will suffer. The moment we overcome ignorance, we will attain peace and Happiness. When we are ignorant and we think we are the body, we suffer physical pain. We are also ignorant when it comes to the mind and ego that portrays itself as 'ME'.

Source: Pages 82–83, Chapter 21 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the truth we need to realize to be free?

A: A rare minority is liberated from all suffering because they are enlightened with the truth that they are not the body that suffers, not the mind that becomes miserable, not the ego that experiences anguish. They realize they are the Divine Soul. This Realization frees them from all suffering, and they live a life of eternal Happiness. However, very few people are blessed to be enlightened with the truth and to be liberated from all suffering.

Source: Page 72, Chapter 18 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: Why do we remain attached to the idea that we are the body?

A: When we look at a group photograph, don't we scream in glee and say, 'That is me!' This is ignorance. This is not me. This is my body. When we overcome ignorance, we realize that the body came later. We came 9 months before as that Spark Of Unique Life, the Soul. When we realize this truth, we can be free from the pain that the body suffers. We are also ignorant when it comes to the mind and ego that portrays itself as 'ME'.

Source: Pages 82–83, Chapter 21 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the difference between knowledge and Realization?

A: Knowing we are not the body, mind and ego, but the Soul is not enough. Enlightenment is living as the Soul, transcending the body, mind and ego. This is the mark of Enlightenment. It is at this state that man is free from all sorrow and man enjoys that ecstasy of Eternal Happiness, Divine Love and Everlasting Peace. Knowledge is not Realization. It is just to know. Realization is to do what we know.

Topic: LOVE & GRATITUDE

Q: What is True Love?

A: True Love is a rainbow of seven colours – VIBGYOR. Just like a rainbow, True Love manifests in the seven colours of love throughout our life. The source of white love is the Soul, the Spark Of Unique Life that is present in every living creature. That is why you can see love in a dog or a cat because love is Divine. It appears from the Soul. In fact, the truth is, love manifests as the seven colours of the rainbow, because love is from the Divine and love is for the Divine and every moment of love is a bliss greater than any Happiness.

Source: Pages 118–119, Chapter 30 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: How is love a fountain of joy?

A: A book on Happiness will be incomplete without talking about a primary source of Happiness. The fountain of joy is love, not love that is just a kiss, but True Love that is bliss. Do you want to be Happy? Then, just try to love. Love without expectation, love without any condition. Love the Soul Divine, and you will experience bliss. Have you experienced bliss that sprouts from the fountain of love? If you haven't, then its time to start living with love.

Source: Pages 117–120, Chapter 30 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: How can gratitude make me Happy?

A: Have you experienced that gust of bliss that instantly creates Happiness when you count your blessings? If you haven't done it, do it now! Are you blind? Be grateful you can see. Are you deaf? Be grateful you can hear. Can you walk and talk? There are many in this world who can't walk and talk! Do you have food to eat, clothes to wear and a shelter over your head? Millions in this world don't have! It is sad that we forget to count our blessings and we become miserable, when all we have to do is count our blessings to experience bliss.

Source: Page 113, Chapter 29 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is the simplest way to trigger Happiness?

A: Happiness is not a difficult thing for those who understand what it is. Whenever I used to feel a little low, all I used to do was count my blessings. I would become ever so grateful for all that I have been blessed with. I would experience an instant joy as my gratitude made me realize that I am far more blessed than most people in this world. Therefore, this became one of my ways to trigger Happiness in my earlier days.

Topic: POSITIVE & NEGATIVE ENERGY (PEP & NEP)

Q: What is PEP and NEP?

A: NEP is Negative Energy Poison and PEP is Positive Energy Power. As long as our life is full of NEP, it is impossible to be Happy, just as if we fill our life with PEP, Happiness is automatic. NEP or Negative Energy Poison are those emotions that create a toxic poison in our life. They are fear, worry, stress, anxiety, depression, anger, hate, revenge, jealousy, pessimism, and the likes. What are the positive emotions that create PEP? Faith, hope, trust, belief, enthusiasm, love, courage, confidence, forgiveness, optimism are amongst the positive emotions that create PEP.

Source: Pages 93–95, Chapter 24 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: How do emotions affect our Happiness?

A: Our life works on a thought chain. Thoughts create feelings, feelings create actions, actions create habits, and ultimately, our habits create our destiny. But it all starts with thoughts, and our thoughts as well as our attitude, the way we react and behave, are triggered by emotions that we live by. And these emotions are a choice. We can choose love or hate, revenge or forgiveness, fear or courage, pessimism or optimism. Based on what emotion we choose, we subconsciously and inadvertently choose whether we will be Happy or unhappy.

Source: Page 95, Chapter 24 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: What is fear and how can I overcome it?

A: While we may choose pleasure or peace on the Happiness journey, we must realize one truth that we are going to experience unhappiness. FEAR is only a False Expectation Appearing Real. There is no danger. But the mind is an expert in creating misery. Then, it makes us worry. It creates thoughts that makes us imagine several things. These thoughts create stress and even anxiety. The mind can create anxiety attacks in its aggression of negative thinking that can lead us to a state of depression.

Source: Pages 101–102, Chapter 26 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi

Q: How do I flip my life from NEP to PEP?

A: The first step is to flip our life over from NEP to PEP. The moment we flip over from NEP to PEP, negative to positive, then instead of poison in our head, we will be filled with Power. If we want Happiness, we need peace, the foundation of Happiness. And if we want peace, we need PEP. We need courage and confidence, love and compassion, forgiveness and optimism. We need that power that comes from positive emotions and that will lead us to contentment and fulfillment. **Source:** Pages 94–96, Chapter 24 — *3 Peaks of Happiness (2nd Edition)* by AiR – Atman in Ravi
