

## **TOPIC: ALWAYS IN CONSCIOUSNESS**

### **Q: What does it mean to always be in Consciousness?**

**A:** Always being in Consciousness means living in a state of awareness where the mind does not take over. The moment we lose Consciousness, the mind enters and controls our senses, and then everything goes wild. When Consciousness is in command, the intellect is activated and we become the masters of our life. It is like the beautiful blue sky — Consciousness is the sky, and the mind is the dark cloud that covers it. Always be in Consciousness!

### **Q: How does Consciousness lead to eternal happiness?**

**A:** When we are always in Consciousness, there are no toxic thoughts in which we are caught. The intellect is activated and we become the masters of our life. Peace is the foundation of happiness, and peace is found by stilling the mind. But the only way to still the mind is to be in Consciousness. Therefore, Consciousness is the very gateway to Eternal Bliss. Without it, we can never reach that state of seamless happiness.

### **Q: What is the mind and why does it steal our happiness?**

**A:** The MIND stands for Misery, Ignorance, Negativity, Desires. It is nothing but a bundle of toxic thoughts. Although we cannot find the mind, it appears and steals our happiness. The moment we move to a state of Consciousness, a state of Awareness, there is no mind. What is the secret to Eternal Bliss? Kill the mind before the mind kills you!

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 2: Always In Consciousness | Page: 18–19*

### **Q: How can we return to Consciousness when the mind takes over?**

**A:** The moment the mind starts to shoot us with toxic thoughts, we must become aware of the arrival of the mind. Still it. Kill it! Come back to Consciousness. When we are in Consciousness, there is happiness. The moment there is no happiness, it means the mind has taken over our Consciousness. Consciousness is simple — just be aware. Just be conscious. The mind dissolves the moment awareness returns.

### **Q: What role does the intellect play in staying conscious?**

**A:** The intellect can only take charge if we are always in Consciousness. The ancient Indian scriptures tell us that the intellect is like the charioteer of our life chariot. More important than our senses is the mind, and more important than the mind is the intellect. The moment we lose Consciousness, the mind takes over. But if Consciousness is in command, the intellect shines and can reach that state of Eternal Bliss.

### **Q: What is the connection between peace of mind and Consciousness?**

**A:** Peace is the foundation of happiness. If we want to be happy, we have to find peace of mind. But peace we don't have to find — it is within. We just have to still the mind, then we will find peace. But how to find peace of mind? When there is a piece of mind, there is no peace of mind. The only way is Consciousness. Always be in Consciousness! This is the first and most vital letter in the AiR Happiness Secret.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 2: Always In Consciousness | Page: 19*

**Q: Can we eliminate fear and worry by staying in Consciousness?**

**A:** Yes! When we are always in Consciousness, we wipe away the clouds of doubt and throw the mind out. We can eliminate anxiety and stress, which is caused by toxic thoughts that create a mess. We must be in love with the blue sky of Consciousness. Fear and worry exist only in the mind. Where there is Consciousness, there is no mind. And where there is no mind, there is no fear, no worry — only peace and happiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 2: Always In Consciousness | Page: 20–21*

**Q: Why is Consciousness described as the first step to happiness?**

**A:** The first letter in the AiR Happiness Secret is A — Always in Consciousness, not sometimes, not once in a way. It is not being in Consciousness occasionally. It is always being in Consciousness because the moment we unlock the door of our head, we are dead! The mind will enter our door and push us on the floor. Then happiness will be no more. Consciousness is therefore the foundation on which the entire Happiness Secret is built.

**Q: What happens when we start living in Consciousness?**

**A:** When we start living in Consciousness, we have already started the journey of Eternal Bliss. We will be happy for the rest of our life. In Consciousness, we have no toxic thoughts in which we are caught. The intellect is activated. We become the masters of our life. Problems may arise, but when the intellect is in charge rather than the mind, we respond with wisdom rather than react with fear.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 2: Always In Consciousness | Page: 21*

**Q: Is Consciousness the same as mindfulness?**

**A:** A state of Consciousness is that state of thoughtlessness, also known as mindfulness. In this state, we become the witness, the observer and there is complete awareness of thought. We are no longer caught in thought. The intellect awakens in Consciousness and can lock and block the mind. In mindfulness, thoughts appear gently, one by one, like cable cars on a ropeway, and there is peace. Where there is a piece of mind, there can be no peace of mind.

**Q: How does Consciousness connect us to intelligence?**

**A:** The intellect can only be activated in Consciousness. Therefore, the first letter of the AiR Happiness Secret tells us to always be in Consciousness. In this state of Consciousness, the intellect is activated. When the intellect is activated, ignorance is eliminated. It is like when the

sun shines, there is no darkness. Ignorance is darkness. The moment the light of intelligence shines in Consciousness, automatically, the darkness of ignorance vanishes.

**Q: Can anyone achieve a life of continuous Consciousness?**

**A:** Yes! The AiR Happiness Secret is a practical and achievable way to live in Consciousness. It is not some spiritual jargon. It is about bringing in the light of truth and overcoming the darkness of ignorance. AiR himself has experienced this and shares that by following all 19 steps of the Happiness Secret — starting with always being in Consciousness — anyone can discover a way to seamless Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Introduction | Page: 9–11*

**Q: What is the difference between a mind state and a Consciousness state?**

**A:** When we are in a mind state, we are bombarded by toxic thoughts. More than 50 thoughts a minute drill us and kill us — thoughts of fear and worry, stress and anxiety. In this state, the intellect does not function effectively. It is only when Consciousness shines and the mind dissolves that the intellect is in command. In Consciousness, there are no toxic thoughts. There is peace and bliss — the true state of Eternal Happiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 75*

**Q: How does Consciousness help us deal with problems?**

**A:** In Consciousness, when problems arise, the intellect is in command. Instead of reacting impulsively, we respond with wisdom. We are no longer caught in toxic thoughts that make mountains out of molehills. Those who live the AiR Happiness Secret will be unaffected by what unfolds moment after moment. They will live a transformed life where trials and tribulations of the mundane world will not affect them — because they remain always in Consciousness.

**Q: What is the AiR Happiness Secret and where does Consciousness fit in it?**

**A:** The AiR Happiness Secret is a 19-letter acronym that reveals the path to Eternal Bliss. The very first letter is A — Always in Consciousness. It is the starting point of everything. Without Consciousness, none of the other 18 steps can be effectively practised. Consciousness is the soil in which all the other seeds of happiness are planted. It is the key that opens the door to the entire Happiness Secret.

## **TOPIC: INTELLIGENCE OVER IGNORANCE**

**Q: What is ignorance and how does it make us unhappy?**

**A:** We believe in lies that God lives in the skies. We are taught that success is happiness. We believe that practice makes perfect and become miserable pursuing perfection. We are filled with ignorance and the way to happiness is to overcome this ignorance. The human being is the only one blessed with a fully developed intellect that can discriminate black from white,

wrong from right. The moment the intellect is in command, intelligence replaces ignorance and we can choose to be happy.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 22–23*

**Q: Is success really the same as happiness?**

**A:** No! Success is not happiness. In fact, the opposite is true — Happiness is success. The whole world is trying to be successful so that they can be happy. But if you are happy, then you are already successful! Therefore, why not learn the art of being happy? This is one of the biggest lies we were taught — that success leads to happiness. Our intelligence must discriminate this myth from the truth.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 22*

**Q: How does intelligence help us be happy?**

**A:** Intelligence replaces our greed with need. It makes us content and satisfied. We find peace and fulfillment. We replace anxiety with tranquillity. When the intellect is activated in Consciousness and our intelligence replaces ignorance, we can choose to be happy. It is not complicated. If we can be glad, but we choose to be sad, aren't we mad? Intelligence helps us make the right choice — to choose happiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 24*

**Q: What lies were we taught that cause unhappiness?**

**A:** From the time we were kids, we were told that success is happiness. We were told that practice makes perfect, leading us to chase perfection and create misery. We believe that God lives in the skies when in reality, God lives in the temple of our heart. We remain a fool because of what we are taught in school! These are the lies that create ignorance and unhappiness. Intelligence is the torch that exposes these lies.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 22*

**Q: How can we activate our intelligence?**

**A:** The intellect can only be activated in Consciousness. Therefore, the first step is to always be in Consciousness. In this state of Consciousness, the intellect is activated. When the intellect is activated, ignorance is eliminated. It is like when the sun shines, there is no darkness. Can you sweep away the darkness in a room with a broom? You can't! You need light. The light is intelligence. The moment the light of intelligence shines, the darkness of ignorance vanishes.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 23*

**Q: What is the role of discrimination in achieving happiness?**

**A:** The human being is the only one who is blessed with a fully developed intellect. It can discriminate black from white, wrong from right. The moment the intellect is in command, our intelligence replaces our ignorance and we can choose to be happy. Discrimination means separating truth from myth, need from greed, peace from restlessness. This power of discrimination is what makes happiness a real possibility for human beings.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 23*

**Q: Why do very few people enjoy Eternal Bliss?**

**A:** Look around you. You will find very few people enjoying that state of Eternal Bliss. Most people live in a merry-go-round, passing happiness and unhappiness. They have not activated their intelligence to smile all the while. They don't even know that it's possible. But it is! If we are always in Consciousness and we put our intelligence in charge of our life, we will overcome the ignorance of fear, worry, stress and anxiety, and our life will be full of peace, love, bliss and tranquillity.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 24*

**Q: How does intelligence help us overcome greed and desire?**

**A:** Intelligence replaces our greed with need. Desires, if unchecked, will not quench our thirst — they will only make us burst. No doubt, desires do excite us at first. But ultimately, they become a fire that burns us. Intelligence helps us see this trap and choose contentment over craving. Once the intellect is in command, we stop running after more and more and discover the true treasure — peace and fulfilment.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 24*

**Q: What does it mean to discriminate truth from myth?**

**A:** Discriminating truth from myth means using the intellect to question what we have been conditioned to believe. We were taught the myth that success is happiness. We believe the myth that God lives in the sky. We think the body is who we are. Intelligence allows us to discriminate. When we discover that we are not the body, mind and ego but the Divine Soul, we eliminate the root of all ignorance. This discrimination is the second step in the AiR Happiness Secret.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 22–24*

**Q: Can intelligence eliminate fear and worry?**

**A:** Yes! If we are always in Consciousness and put our intelligence in charge of our life, we will overcome the ignorance of fear, worry, stress and anxiety. Fear is a False Expectation Appearing Real — it exists because of ignorance, not reality. When intelligence shines, it exposes fear for what it is: a product of the mind, not a real danger. Intelligence, rooted in Consciousness, is the most powerful tool we have to eliminate all forms of unhappiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 3: Intelligence Over Ignorance | Page: 24*

**Q: What is the relationship between ignorance and suffering?**

**A:** We human beings are ignorant about who we truly are and why we are here. We consider ourselves to be the ones we see in the mirror. Because of this ignorance, we suffer the pain of the body, misery of the mind and agony of the ego. As long as ignorance continues to blind us, we continue to suffer, day after day. Overcoming ignorance through intelligence is the one true path to ending all suffering and discovering Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 9: Purpose | Page: 50*

**Q: How is intelligence different from just being 'smart'?**

**A:** Being smart is having knowledge. Intelligence, in the context of the AiR Happiness Secret, is activating the intellect in Consciousness to discriminate truth from myth and choose wisely. Many of us know the truth. We have knowledge but don't go beyond college to experience what the truth is all about. There is a difference between knowing and realizing. When we know it, we know it. But when we realize, we live it. That is true intelligence.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 75*

**Q: How does intelligence help us choose happiness over unhappiness?**

**A:** Happiness is a choice, but this choice can only be made by the intellect in Consciousness. As long as the mind is in charge, it will default to negativity and toxic thoughts. But when we activate our intelligence, we can choose faith over doubt, hope over hopelessness, positivity over negativity. The intellect can choose to be happy. If we can be glad but we choose to be sad, aren't we mad? Intelligence is what enables us to make the wise choice.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 17: Choose To Be Happy | Page: 89–90*

**Q: What is the lie about money and happiness?**

**A:** One of the biggest lies, promoted by ignorance, is that money equals happiness. If money equals happiness, then the rich should be glad. But turn around and you will find many of them are sad. They even commit suicide. Why? They have all the pleasures but no peace. Intelligence reveals the truth: happiness is not in things. It doesn't come from what you have. It comes from how you feel. We need enough money but beyond that, money alone cannot buy the treasure of Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Preface | Page: 3–4*

**Q: How does AiR's own story illustrate intelligence over ignorance?**

**A:** For 25 years, AiR enjoyed all the pleasures of the world — money, wealth, name and fame. But he was taught the lie that success is happiness. At 40, he realized this was not the real treasure. His intelligence, activated through his spiritual quest with his Guru, helped him discriminate between what he was conditioned to believe and what was actually true. This led him from the peak of achievement through fulfillment, and ultimately to Enlightenment and Eternal Bliss.

## **TOPIC: ACCEPTANCE AND KARMA**

**Q: What does it mean to accept in life?**

**A:** To be happy, learn to accept. Whatever happens, do not protest. Do not question. Do not create self-pity. Do not curse God. This will make you miserable. The secret of being happy is to accept. Everything in this universe is governed by Divine laws. Karma is one such law. Those who understand the Law of Karma accept without protest. They do not lose their peace of mind and cry and look up at the sky and question why.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 33–34*

**Q: What is the Law of Karma?**

**A:** Karma means action. The Law of Karma is the Universal Law of Action and Reaction. The law is based on the principle, 'As you sow, so shall you reap.' If you plant apples, you cannot get mangoes. Can anybody doubt this? This law controls everything in the universe — the earth rotates every 24 hours precisely, the earth revolves around the sun in 365¼ days. Everything that is happening in life is a reaction to our past action. Everything is Karma.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 33–35*

**Q: Why do we protest against life's circumstances?**

**A:** We become unhappy and protest because we do not realize that life is Karma. We live with the ignorance that life is unfair, when in reality, everything is unfolding as per the Universal Law of Action and Reaction. We go to astrologers and palmists to understand our destiny, looking for bad luck to blame, when in truth, we only pluck what we plant. When we understand Karma, the protest disappears and joyous acceptance takes its place.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 34*

**Q: Can we change our destiny through our actions?**

**A:** Yes! Karma is of two types. The Karma already done by us in the past are seeds that have been planted and must bear fruit — we must joyously accept. But what about the deeds we are doing today? We human beings are blessed to choose with our intellect and free will. The deeds we do today will determine the destiny of tomorrow. Therefore, we can change our destiny by changing our actions. Do good Karma today to programme a blissful future.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 35–36*

**Q: How does Karma explain suffering?**

**A:** Life is a drama. This earth is like a humongous stage. We are mere actors who come and go. Because we are ignorant, we suffer. We face trauma because we do not understand Karma and thus, we don't enjoy the drama called life. Those who discover that everything in life is Karma not only rejoice in whatever is happening but also do their Dharma. They live a virtuous life with morals and ethics and take charge of their destiny.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 36*

**Q: Why should we joyously accept life's unfolding?**

**A:** Life is a boomerang. What goes around comes around. Everything happening in life is a reaction to our own actions returning to us. Those who understand Karma accept without protest and joyously celebrate every aspect of life, be it good or bad. In fact, nothing is good or bad. Everything is perfect. It is for us to understand Karma, accept the law, and then rejoice, accepting everything that happens, knowing these are our own actions returning to us as reactions.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 35*

**Q: What is the ABCD formula for a happy life?**

**A:** The best formula to live life is ABCD: A – Accept, don't Protest; B – Do your Best; C – Consciously Surrender; D – Be a Divine Instrument. When we live life with ABCD, we will be happy because we will not keep on complaining and whining about what has happened and

what is going to happen. What is in our hands? To do our best. Once we do our best, we must surrender the rest to the universal Law of Karma for its fair governance.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 69*

**Q: Is bad luck real?**

**A:** Bad luck is a fairy tale. No star up in the sky, based on its position, can decide your state of being happy or sad. Those who understand Karma go beyond the fairy tale of bad luck. They realize they will only pluck what they plant. We did not choose our parents, nor did we choose our gender, nationality or religion — everything is decided by Karma, the Universal Law. There is no luck. There is only Karma. Understanding this eliminates all grievance and restores peace.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 34*

**Q: How does acceptance transform our experience of life?**

**A:** The moment we accept without protest, life transforms. We made a small switch — instead of expecting, we accept — and life changes. We stop shuttling between regret and worry. We start living in the present moment. What I made a small switch: Earlier, I would expect. Now I learned to accept and my life changed. When we accept everything that is happening joyously, knowing it is our past Karma, we are programming the future of our life to be blissful and peaceful.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Introduction | Page: 10*

**Q: What does it mean to 'enjoy the drama without trauma'?**

**A:** Bad things happen in life — can anybody deny it? When we discover that all trauma is because of Karma, we start to enjoy the drama. Karma is a Universal Law — the Law of Action and Reaction. Everything unfolding in life is not luck; we pluck what we plant. Just like seeds we plant decide the fruit on the tree, our deeds decide our destiny. So, we learn to joyously accept what is happening without protesting and being disgruntled. This is enjoying the drama without trauma.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Introduction | Page: 10*

**Q: How does AiR describe the benefit of understanding Karma?**

**A:** I discovered that all trauma was because of Karma, I started to enjoy the drama. Karma is a Universal Law — it's the Law of Action and Reaction. Everything that was unfolding in my life was not luck. I realized that I would pluck what I planted. So, I learned to joyously accept what was happening without protesting and being disgruntled. I had the choice to do my present actions and I did my best. Then, I learned to surrender.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Introduction | Page: 10*

**Q: What happens when we don't accept life?**

**A:** Many people are unhappy because they feel like puppets and think that there is no point in living because life is full of misery and sorrow. They do not take charge of their actions and their life. This is ignorance. Thus, they are unhappy. They complain about what is happening rather than changing their actions and changing their life. Non-acceptance breeds misery, stress and depression. Joyous acceptance, on the other hand, breeds peace and bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 36*

**Q: Can we learn to accept even painful situations?**

**A:** Yes, and this is the art of happiness. If something happens, those who know Karma know it is not luck — they will only pluck what they plant. They don't cry and look up at the sky and question why. They know that whatever has happened is a reaction to their own action. Instead of repeating the same song of sorrow, they accept and are happy. Pain may come — but we don't have to suffer. The body may ache, but with acceptance, the spirit remains at peace.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 34–35*

**Q: What is Dharma and how does it relate to Karma?**

**A:** Those who understand Karma not only accept joyously but also do their Dharma. They live a virtuous life with morals and ethics and take charge of their destiny. We can cut corners and compromise, but then we suffer not only the results of our past Karma but also create new bad Karma in the present. Dharma is righteous action — it is planting good seeds today so that we reap good fruit tomorrow. Whether we are happy or unhappy, it is all up to us.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 6: Acceptance | Page: 36*

**Q: Why is 'don't cry over spilt milk' not enough?**

**A:** We have learned not to cry over spilt milk. But we must also learn not to spill any more milk. Take charge of life and be happy. Happiness is a choice and it all depends on what you do, for what you do, comes back to you. Acceptance of the past is only half the teaching. The other half is to consciously choose better actions in the present, knowing that these new seeds will decide the destiny of tomorrow. Both parts are essential to living a life of Eternal Bliss.

## **TOPIC: THE THREE PEAKS – PLEASURE, PEACE AND PURPOSE**

**Q: Why does happiness have three Ps?**

**A:** Happiness is spelt with 3 Ps because there are three peaks of happiness: Pleasure, Peace and Purpose. The first P of happiness is Pleasure — joy that comes and goes. The second P is Peace — the foundation of happiness that forever flows. The third P is Purpose — discovering the truth of who we are and why we are here. Without all 3 Ps, happiness is incomplete. This is why AiR spells happiness with three Ps.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 9: Purpose | Page: 49*

**Q: What is pleasure and is it enough for happiness?**

**A:** Pleasure is the first peak of happiness. It is joy that comes from success, achievement, wealth, name and fame, and the gratification of our five senses. No doubt, pleasure is real and enjoyable. But it is momentary — it comes and goes. Once we have enough achievements, once we fulfil our basic needs, fulfilling greed cannot make us happy. At first, desires quench our thirst but ultimately, they make us burst. Pleasure alone cannot create Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 7: Pleasure | Page: 39*

**Q: Why do rich and famous people often feel miserable?**

**A:** If only pleasure was happiness, then all rich people in this world should be glad. But many of them are sad. They are so miserable that they even commit suicide. They have all the pleasures in the world, money and merchandise, but instead, they cry! It is often the wealthy who are miserable because of their unfulfilled desires. They are never happy! Pleasure is a temporary trigger — it creates happiness that comes and goes but never that bliss that forever flows.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 7: Pleasure | Page: 40*

**Q: Should we avoid pleasure to be happy?**

**A:** No! We must enjoy good food and the beauty of this world, an enchanting sunrise or sunset. We must love our friends and dear ones. We must not only accept and enjoy the beautiful pleasures of life but also know what makes us happy and pull those happiness triggers. However, running after success, achievement, entertainment and material things thinking they will make us happy is an illusion. Pull the triggers, enjoy pleasure, but do not sink in it.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 7: Pleasure | Page: 40*

**Q: What is peace and why is it the foundation of happiness?**

**A:** Peace is the foundation of happiness. Those who don't have peace cannot be happy. All our celebrations are built on a premise of a peaceful life. A stressful life cannot create happiness. Either anxiety or tranquillity exists in our life, but only tranquillity enjoys the quality of joy and bliss. What would it gain a man, if he gained the whole world but lost his peace? His happiness would cease! Peace is more important than any achievement.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 8: Peace | Page: 43–44*

**Q: How can we find peace of mind?**

**A:** Peace is within. We don't have to find it. We just have to still the mind. It is the mind that makes us blind as happiness is left behind. When the mind is stilled, peace is instantly found. But the mind bombards us with up to 50 thoughts per minute. These poisonous thoughts create stress and anxiety and eliminate happy thoughts. If we want peace, we must still the mind. When we still the mind, we kill the mind because the mind disappears when there are no toxic thoughts.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 8: Peace | Page: 44–45*

**Q: How does the monkey mind disturb our peace?**

**A:** The monkey mind is Ever-Yelling and Ever-Yearning. When this tail, the EY, gets added to the silent monk — our peaceful self — the monk becomes a monkey! The monkey mind jumps to a yesterday that is gone and to a tomorrow not yet born. By jumping into the past and the future, the monkey mind steals the present moment of peace and bliss. Like a still lake disturbed by ripples, the monkey mind creates toxic waves that rob our happiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 8: Peace | Page: 45*

**Q: What is the third P – Purpose – and why is it essential?**

**A:** The third P of happiness is Purpose. If we discover the purpose of our existence, we can reach that state of Everlasting Bliss. When we discover the purpose of our existence, we will be liberated from all misery and sorrow. The purpose of our life is first to discover 'Who am I?' and then 'Why am I here?' The moment we realize we are the Divine Soul, the Spark Of Unique Life, we discover the ultimate peak of happiness called Enlightenment.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 9: Purpose | Page: 48–49*

**Q: What is Enlightenment and how does it relate to purpose?**

**A:** Enlightenment in simple words is switching on the light within. It is overcoming the darkness of ignorance. It is Realization of the truth about life. Those who discover Purpose and evolve to the third peak of happiness, Enlightenment, achieve a state of Eternal Peace, Divine Love and Everlasting Happiness. We realize that we are not this body that will die, not the mind, not the ego — but the Divine Soul. This Realization removes all suffering and reveals the purpose of existence.

**Q: How do we evolve from pleasure to peace to purpose?**

**A:** We must take an exit from the expressway of achievement where pleasure lives and enjoy the bliss that comes from fulfillment. With peace and fulfillment, we live with faith and fun. Then, once peace is established as our foundation, we begin the quest for Purpose: 'Who am I?' This takes us to the third peak of Enlightenment. The AiR Happiness Secret teaches us to take an exit from the highway of achievement and scale the peaks of fulfillment and ultimately, Enlightenment.

**Q: Can we enjoy pleasure and still be peaceful?**

**A:** Yes! Those who learn to live with peace not only enjoy pleasure but also enjoy the treasure of Eternal Bliss. When there is no mind to disturb it, we create a foundation of peace in which we can enjoy pleasure. This is the true treasure of happiness — to be glad without becoming sad, to remain happy all the while and to smile. Peace does not mean giving up pleasure. It means enjoying pleasure without the accompanying stress, anxiety and fear.

**Q: What happens when we are liberated by discovering our purpose?**

**A:** When we discover, 'Who am I?' we discover the purpose and enjoy Eternal Bliss in Truth Consciousness. The purpose of our life is to discover that we are manifestations of the Divine. We discover God in the temple of our heart, just as we love every human being as God. This leads to a state of ecstasy beyond definition and description. Only those who are Awakened or Enlightened enjoy this state of Ananda or Nirvana — Eternal Happiness with no sign of unhappiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 9: Purpose | Page: 52*

**Q: Why do most people never discover the third peak of happiness?**

**A:** There are many who prefer 'Ignorance is bliss' to Sat Chit Ananda. They do not go on a quest to discover the truth of 'Who am I?' They just live and ultimately die and when something goes wrong, they cry and question why. They never realize the truth. They only enjoy life thinking it is a circus. They never experience Sat Chit Ananda, that state of Eternal Bliss. They are stuck at the first peak of pleasure, never discovering peace or purpose.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 74–75*

**Q: How does AiR describe his own journey through the three peaks?**

**A:** For 25 years, I enjoyed the rollercoaster of success, achievement, wealth and pleasure. It was only after 25 years that I realized success was not happiness. I took an exit from the highway of achievement after 25 years of success and started to live a different life, discovering the second peak of fulfillment through humanitarian work. Then, on 31st August 2014, I got the spark of awakening. I realized I was not Ravi — I was the Atman, the Soul in Ravi. This was the third peak — Purpose and Enlightenment.

**Q: What practical steps help us pull happiness triggers for pleasure?**

**A:** To be happy through pleasure, it is a good idea to make a list of the 10 things that will make us happy. We can pull any trigger that gives us pleasure but we must not become a slave to them. These triggers should make us glad, never sad. The lack of pleasure should not rob us of our treasure of being happy. We must accept happiness as it flows into our life and pull happiness triggers whenever possible — a long drive, playing with a pet, a walk in nature.

## **TOPIC: LIVING IN THE 'NOW'**

**Q: Why is living in the present moment the key to happiness?**

**A:** The AiR Happiness Secret reveals that 'I' stands for being 'In the Now'. If we want to be happy, we should not shuttle to a yesterday that is gone and then to a tomorrow not yet born. When we shuttle, we lose our peace, the very foundation of happiness. Life is made up of moments. And if we don't rejoice in the moment, not only will we lose the moment, but we will also lose life itself. Happiness only belongs to the 'Now'.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 53–54*

**Q: What does the monkey mind do to our present moment?**

**A:** When the monk in us loses its peace by becoming a monkey, the monkey mind jumps to a yesterday that is gone and to a tomorrow not yet born. This jumping steals the present moment of bliss, joy and peace. Without the mind, no human being can ever go into the past or the future. It is only the monkey mind that takes us there. When we tame the monkey mind and make it a monk, we naturally live in the present moment.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 54–55*

**Q: Why can't we change the past or control the future?**

**A:** Even if somebody gives you a million dollars to go and change yesterday, you can't! Even if somebody gives you a trillion dollars to go to tomorrow and make something happen, you cannot go to tomorrow. It is only when we realize this simple truth that we can learn to live in the present moment with peace and joy. Can anybody deny that it is a fact that we can only live life moment by moment? Then why do we lose the moment and become unhappy?

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 55*

**Q: How does regret about the past make us unhappy?**

**A:** The mind goes to the past and creates regret, shame and guilt with its thoughts that nurse, curse and rehearse the incidents and wrongs of the past. We lose our peace. Nobody can go to a past that is gone. But we human beings live with regret, shame and guilt of what is over. The past is done and dusted and yet we go back there and become miserable. The MK-50 mind shoots us with thoughts of regret 50 times a minute.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 55–56*

**Q: How does worry about the future steal happiness?**

**A:** The mind jumps to tomorrow and creates fear, worry, stress and anxiety. Yet we cannot control the future — it will unfold as it will. A FEAR is a False Expectation Appearing Real. We constantly live with fear of the future, how can we be happy? We become paranoid and wonder how we will deal with the troubles of tomorrow. The fact is that whatever will be tomorrow, will be. The seeds of tomorrow are already planted. Surrender is the answer.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 69–70*

**Q: What does 'living in day-tight compartments' mean?**

**A:** Living in day-tight compartments means shutting the door on yesterday and closing the door on tomorrow. Live today. Live now, moment by moment. Don't let the mind steal your peace and bliss. Don't let joy stealers steal your happiness. It is a choice. You can live in the now and make your life wow, or you can jump into yesterday and tomorrow and live with misery and sorrow. It's your choice! Resolve now to live in day-tight compartments.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 56*

**Q: How can we make every moment peaceful and blissful?**

**A:** The challenge is how to live in the now. It is not that we enjoy becoming miserable, living with regrets of the past and fear of the future. But the monkey mind takes us there. The secret is simple — tame the monkey mind, make it a monk! When we still the mind, we kill the mind. When there are no toxic thoughts, peace returns instantly. If only we still the mind in this moment, we will kill the mind and live in Consciousness, moment by moment.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 56–57*

**Q: Is it very difficult to be happy in the present moment?**

**A:** Is it very difficult to be happy just for the moment? 'Oh, that's easy!' you will say. Then just be happy now and resolve to be happy in the next moment and the next and the next. Don't let the mind steal your peace and bliss. It's a choice. You can live in the now and make your life

wow or you can jump into yesterday and tomorrow and live with misery and sorrow. It's your choice! Living in the now is the simplest and most powerful happiness secret.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 56*

**Q: What is the 'horse and rider' lesson about the mind and the present?**

**A:** A man was riding a horse and somebody asked him, 'Where are you going?' 'I don't know!' replied the man. 'Ask the horse!' When we let the mind become the boss, then we are at a great loss because the mind rides us into the past, creating regret, shame and guilt, and into the future, creating fear, worry, stress and anxiety. If we let the monkey mind ride our life horse, how can we be happy? We must take back the reins and live in the now.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 55*

**Q: How does 'living in the now' connect with the entire Happiness Secret?**

**A:** The AiR Happiness Secret is simple. It is a practical way to be happy and while we all know that there is no way to go back to the past and change it, just as there is no way to control the future, we are unable to accept and surrender all because we are unable to live in the now. What is the secret to live in the now? Just tame the monkey mind. Make it a monk! If only we live in the moment, we can be happy and if we repeat this moment after moment, we will live the AiR Happiness Secret of Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 57*

**Q: What vow should we make to live in the present?**

**A:** Today, make a vow that you will live in the now. Don't just wander like a cow! If you want to make your life wow, then resolve to be in the now! Shut the door on yesterday and close the door on tomorrow. Live in day-tight compartments. Live today. Live now, moment by moment and you are sure to be happy. The vow to live in the now is the simplest and most powerful step you can take toward Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 56*

**Q: How does surrender help us live in the present moment?**

**A:** When we learn to surrender, we enjoy the present moment without contaminating it with toxic thoughts. Life continues to flow without misery and sorrow because we live counting our blessings, with an attitude of gratitude. I too lived a life of stress and worry, fear and anxiety. I would worry about everything, even whether it would rain tomorrow. Then I realized that we don't have control over what is going to happen outside us. But we have complete control of what is happening inside us.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 70*

**Q: What does 'Que sera sera, whatever will be, will be' teach us?**

**A:** Que sera sera — whatever will be, will be. The future's not ours to see. This famous saying reveals the art of surrender that keeps us in the present moment. Whatever will be tomorrow, will be. The seeds of tomorrow are already planted. The fruit will sprout. Everything is Karma. When we realize we cannot change what is already planted, we stop worrying about tomorrow and return to the only place where happiness exists — the present moment.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 71–72*

**Q: How do we stop the mind from jumping to yesterday and tomorrow?**

**A:** The MIND is Misery, Ignorance, Negativity and Desires. Just stop now and eliminate the mind. Then peace you will find! If only you still the mind in this moment, you will kill the mind. When you kill the mind, you reach that state of Consciousness in which you live life moment by moment. There is no mind, only thought. One by one, thoughts enter our Consciousness, and the intellect discriminates. This is the secret to staying in the now.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 10: In The 'Now' | Page: 57*

**Q: Why does AiR say happiness belongs only to the 'now'?**

**A:** Happiness belongs to the 'now'. If we want to be happy, we must be happy right now! We cannot be happy in yesterday, nor can we be happy in tomorrow. Even if they are pleasant memories and exciting plans, the happiness belongs to this moment. Therefore, if anybody has a problem of unhappiness, they must do a simple thing — make a vow to be happy in the 'Now'. Life is all about moments. If you lose the moment, you lose life itself.

## **TPOIC: NEP TO PEP AND THE ECSTASY OF DIVINE LOVE**

**Q: What is NEP and what is PEP?**

**A:** NEP is Negative Energy Poison — toxic emotions like fear, worry, stress and anxiety, regret, shame and guilt, anger, hate, revenge and jealousy, pride, greed and selfishness. PEP is Positive Energy Power — positive emotions like faith, hope, trust, enthusiasm, courage, confidence, love, compassion, forgiveness and optimism. When such positive emotions become the raw material we constantly feed the mind, positive thoughts pop in our head. But if we feed the mind NEP, by default, it produces toxic thoughts.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 11: NEP To PEP | Page: 59–60*

**Q: How do we flip from NEP to PEP?**

**A:** To flip from NEP to PEP, we must choose positive emotions. We must fill our life with PEP. We must stop feeding on NEP and start feeding on PEP. The result — our thought factory, our mind, will flip over and produce positive thoughts. The mind is a factory. It only produces thoughts based on the raw material we feed it. If we feed it salted seeds, we get salted popcorn. If we add caramel, we get sweet popcorn. So also, we choose the emotions we feed the mind.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 11: NEP To PEP | Page: 59*

**Q: Why does the mind default to negativity?**

**A:** It is unfortunate that we do not realize that by default, the mind is NEP. It is constantly producing negative toxic thoughts. Therefore, we have to make it a habit to live with PEP. Just like we eliminate toxic food from our menu and choose nourishing food that makes us healthy, the AiR Happiness Secret teaches us to make PEP our life philosophy. Unless we have already filled our being with positive emotions, we will lose the battle to the mind.

*Source: Discover the AiR Happpiness Secret by AiR – Atman in Ravi | Chapter: Chapter 11: NEP To PEP | Page: 61*

**Q: Can we think positively just by telling ourselves to?**

**A:** It is impossible to think positively if we constantly feed our mind negative emotions. Telling ourselves to 'think positive!' while still full of negative emotions does not work. We must choose positive emotions first. Then the mind has no option but to think positive thoughts. If we still the mind, we can move from a state of mind to Consciousness. In that state of Consciousness, we can activate our intellect which becomes the tool of discrimination and can choose PEP over NEP.

**Q: How does love create happiness?**

**A:** We have all experienced the happiness that comes from love. From the time we were kids, we loved our parents and friends and wasn't that a way to be blissful? True love is Divine. Divine Love is an ecstasy of joy. It comes from deep within the Soul. True love is like a fountain of happiness and flows from the time one comes till the time one goes. Happiness manifests in the form of love, but unfortunately, we have not discovered true love.

*Source: Discover the AiR Happpiness Secret by AiR – Atman in Ravi | Chapter: Chapter 12: Ecstasy Of Divine Love | Page: 63–64*

**Q: What is true love?**

**A:** True love is not just a hug and a kiss. True love is LOVE: L – Longing, O – Of the Soul, V – Very passionate, E – Ecstasy of Joy. If one discovers the acronym of LOVE, one will grow beyond love from skin to skin and start to love the Divine that dwells within. True love is unconditional — not 'I love you because I need you' but 'I need you because I love you.' This love, based on the Soul rather than conditions and expectations, is the ecstasy of Eternal Joy.

**Q: What are the seven colours of love?**

**A:** Just like white light splits through water droplets to create the seven colours VIBGYOR, pure Divine soulful love is white love that manifests as seven colours of love: Violet (soulful love for parents), Indigo (friendship), Blue (innocent romance), Green (self-love), Yellow (intellectual love), Orange (emotional love), and Red (physical love or Eros). As human beings, we all experience this rainbow of love. The source of all these colours is the Soul within.

*Source: Discover the AiR Happpiness Secret by AiR – Atman in Ravi | Chapter: Chapter 12: Ecstasy Of Divine Love | Page: 65*

**Q: Why do we experience heartaches and heartbreaks?**

**A:** Because we do not discover the true meaning of love, we experience heartaches and heartbreaks and do not discover the love that can be a fountain of joy. In today's world, love is more to do with Valentine's Day, hugs and kisses. We love and we hate, and the ecstasy of true love never enters our gate! Love often turns to conditions and expectations, and when expectations are unmet, we create suffering. When we discover White Divine Soulful Love, we transcend all heartbreak.

*Source: Discover the AiR Happpiness Secret by AiR – Atman in Ravi | Chapter: Chapter 12: Ecstasy Of Divine Love | Page: 64*

**Q: What is the highest form of love?**

**A:** Those who discover White Divine Soulful Love, make a big jump forward in living the Happiness Secret. They discover what the Greeks called Agape, Divine Love. They experience what the Sufis call Ishq-e-Haqiqi. When they realize this Divine Love, they see God in one and all. They serve the Divine that manifests as beings that suffer and they love God as they see every Soul as a manifestation of God. This creates the ecstasy of love that is the highest form of happiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 12: Ecstasy Of Divine Love | Page: 65–66*

**Q: How does seeing God in all create happiness?**

**A:** A famous Saint named Namdev was cooking when a dog picked up the bread and started to run. The Saint ran behind the dog with ghee and called out, 'Come here, let me spread butter on the bread!' The Saint was blessed to see G-O-D in the D-O-G. This is Divine Love. When we realize that each Soul is a manifestation of the Divine, we love without conditions, serve without expectations, and discover an ecstasy of joy that is greater than any other form of happiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 12: Ecstasy Of Divine Love | Page: 66*

**Q: Can love and peace coexist to create lasting happiness?**

**A:** If we want to experience Eternal Bliss, we must realize that we need peace, love and bliss. All this cumulatively makes us live in that state of Eternal Happiness. Just like we need peace for happiness to sprout, we need love for the roots to grow into shoots and fruits. Happiness manifests in the form of love. Love can instantly create bliss and this joy is greater than any other happiness. Peace and love together are the pillars of Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 12: Ecstasy Of Divine Love | Page: 67*

**Q: How does the ego block our experience of love?**

**A:** As long as we live in ignorance and the ego stands tall, we create a wall. When the 'I', the ego, begins to fall, we discover the Divine in one and all. Our love becomes a fragrance of joy. It is no more attachment and clinging for the skin. It is love for the Divine that dwells as the Soul within. The ego creates barriers in love. When the ego is Enlightened, it dissolves these barriers and allows the fountain of Divine Love to flow freely.

**Q: What is Prema Yoga?**

**A:** AiR discovered Prema Yoga, the Yoga of Divine Love. He realized that God manifests as all the beauty in the world. God appears as SIP, the Supreme Immortal Power, the Soul in every living creature. It became easy to love God as one loves the manifestations of the Supreme. This Divine Prema Yoga made AiR a Yogi who lives in a state of Eternal Bliss. Anybody who discovers this love of the Soul for SIP, can live a life of Eternal Peace, Divine Love and Everlasting Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 20: Transcend Bhoga, Live in Yoga | Page: 107*

**Q: Why should we replace negative emotions with love and compassion?**

**A:** All toxic emotions lead us away from a smile. Whether it is anger, hate, revenge and jealousy, these only eliminate the smile from our life. But just replace these with forgiveness and love, with compassion and kindness, and the smile automatically appears. When we flip from NEP to PEP by choosing love, compassion and forgiveness, we generate positive energy that attracts happiness. Love is the single most powerful positive emotion — it is the fountain from which all joy flows.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 15: Smile, All The While | Page: 81*

**Q: How do peace, love and bliss together create eternal happiness?**

**A:** What constitutes happiness in essence? It is peace, love and bliss. The AiR Happiness Secret teaches us to choose these. We master the art of living with peace as we make miseries cease and seize every moment of life and fill it with love. Love often creates heartaches and heartbreaks, but the AiR Happiness Secret reveals true love that is bliss — not just a kiss. Once we learn to live with peace and love, we are taken to that state of seamless bliss.

## **TOPIC:SURRENDER AND SAT CHIT ANANDA**

**Q: What does surrender mean in the context of happiness?**

**A:** To live a life of Eternal Bliss, we must learn to surrender. We must eliminate worry and stress from our life. We must uproot fear of the future. The best formula is ABCD: Accept don't Protest, do your Best, Consciously Surrender, and be a Divine Instrument. When we live with ABCD, we will be happy because we will not keep on complaining about what has happened and what is going to happen. Once we do our best, we must surrender the rest to the universal Law of Karma.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 68–69*

**Q: How can we surrender when things go wrong?**

**A:** If we look back at life, we will realize that all our fears were not real dangers. Whatever we worried about passed away without killing us! Then why are we clinging to suffering by not surrendering? If something wrong is going to happen, we have an option. Either we can worry about it, or if we can do something about it, then we should do it. If there is nothing we can do, then why worry? If there is a solution, we don't need to worry. And if there is no solution, we still don't need to worry.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 71*

**Q: What is Sat Chit Ananda?**

**A:** Sat Chit Ananda is one word with 3 parts. Sat means truth. Chit means Consciousness. Ananda means Bliss. This bliss is not ordinary happiness that will come and go. This is Eternal Bliss that will forever flow. Those who experience Sat Chit Ananda live a life without any misery and sorrow. They live peacefully, in the moment, without jumping from yesterday to tomorrow. Ananda is Nirvana. There can be no greater joy.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 73–74*

**Q: How do we attain the state of Sat Chit Ananda?**

**A:** When one is in the Chit of Sat, the Consciousness of truth, one experiences Ananda, Eternal Bliss. This is Sat Chit Ananda, Eternal Bliss that is experienced living in Truth Consciousness. To attain this, we must first discover the Sat, the truth — that we are not this body that will die, not the mind, not the ego, but the Divine Soul. Then we must live in Chit, the Consciousness of that truth. When both Sat and Chit come together, Ananda, Eternal Bliss, is the natural result.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 74–76*

**Q: What is the truth — Sat — that we must realize?**

**A:** The truth is that nobody can deny it. If something is blue or green, it is this colour for all of us. There are many truths of life. The mind says that we will die but the truth is that we will never die — only the body will die. The mind says, 'I am Robert,' but the truth is, 'I am not Robert. My name is Robert.' The truth is that nothing is mine, nobody is mine! We come alone and go alone! We bring nothing and take nothing. When we discover these truths, we have achieved the first part of Sat Chit Ananda.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 74*

**Q: What is the difference between knowing truth and realizing it?**

**A:** Many of us know the truth. We have knowledge, but we don't go beyond college to experience what the truth is all about. There is a difference between knowing and realizing. When we know it, we know it. But when we realize, we do it. Those who experience Chit, the Consciousness, live in that awareness. Therefore, when there is Sat Chit, there is Truth Consciousness. Not only do we discover what the truth is, but we also live in Consciousness of that truth.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 75*

**Q: Why is surrender essential for happiness?**

**A:** When we learn to surrender completely, we transcend the ego and realize, 'I am not this body and mind. I am a manifestation of the Supreme.' Not only do we surrender gracefully, but we also live our life doing the Divine mission in Consciousness. Why lose our peace and bliss? Imagine we accept whatever has happened and we have enthusiasm, enjoy the pleasures of life, live in the now — but don't surrender. We will not be happy because we will always anticipate fears. Surrender eliminates all such anxiety.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 69–70*

**Q: How does Sat Chit Ananda lead to experiencing life as a Divine play?**

**A:** In Truth Consciousness, we enjoy the treasure of every pleasure, without getting into the cycle of pleasure and pain. We enjoy both sun and rain, being in Consciousness, realizing that nothing is good or bad — everything is perfect. Life is a Leela, a drama. Everything is Maya, a Cosmic Illusion. We experience Divine Love as we realize that each Soul is SIP, the Supreme Immortal Power. Thus, we see God in all, we love God in all, we serve God in all, enjoying Eternal Bliss in Truth Consciousness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 14: Sat Chit Ananda | Page: 76–77*

**Q: Can Sat Chit Ananda be experienced by ordinary people?**

**A:** Yes! Anyone who chooses Yoga, rather than Bhoga, can live a life of Eternal Peace, Divine Love and Everlasting Bliss. Anybody who is awakened to the truth can experience this. But even if there is no Enlightenment or Spiritual Awakening, the AiR Happiness Secret still promises a way to Eternal Bliss. Following all 19 steps of the Happiness Secret can bring us close to that state of Sat Chit Ananda that is the highest state of bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Afterword | Page: 117*

**Q: What happens in the mind when we are in a state of surrender?**

**A:** When we learn to surrender, we enjoy the present moment without contaminating it with toxic thoughts. Life continues to flow without misery and sorrow because we live counting our blessings, with an attitude of gratitude. I learned to surrender with an attitude of acceptance. I knew that the reaction of my past actions would appear in the moments that unfold, and I learned to joyously accept everything. This total surrender eliminated all sorrow of tomorrow as I started to live moment by moment, with peace and bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 70–71*

**Q: What is the highest form of surrender?**

**A:** The biggest way to surrender is to realize, 'I am nothing. I do nothing. Everything is unfolding as per a Divine plan, and I am a manifestation of the Divine.' This Realization is the formula for the ultimate surrender. When the ego stands tall as a wall, then we are sure to fall. Most of us carry problems in our head which don't exist. We imagine fears that are not dangers. We worry instead of enjoying our life, all because we don't let go. We don't surrender.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 13: Surrender | Page: 71–72*

**Q: What is the relationship between Sat Chit Ananda and the 14 joy stealers?**

**A:** Sat Chit Ananda is logically understood by those who transcend the mind and its miseries, the ego and its monsters. Having transcended the 14 joy stealers and having killed the mind, such a person lives in Consciousness, aware of the truth that we are nothing but manifestations of the Divine. This Truth Consciousness fills our life with Ananda, Eternal Bliss. We enjoy the treasure of every pleasure without getting into the cycle of pleasure and pain.

**Q: How is surrender related to the Law of Karma?**

**A:** Everything is Karma. Just as we accept without protest, we will learn to surrender. Accept don't wonder, replace hope with surrender. When we live life with the ABCD formula — Accept, do your Best, Consciously Surrender, be a Divine Instrument — the problems get resolved by themselves. We do our best and surrender the rest to the universal Law of Karma for its fair governance. Then, we must live as a Divine instrument and be happy.

**Q: What did AiR learn about surrender in his personal journey?**

**A:** AiR discovered: I too lived a life of stress and worry, fear and anxiety. I would worry about everything, even whether it would rain tomorrow. Then I realized that we don't have control over

what is going to happen outside us. But we have complete control of what is happening inside us. I learned to surrender with an attitude of acceptance. This total surrender eliminated all sorrow of tomorrow as I started to live moment by moment, with peace and bliss.

**Q: Is Sat Chit Ananda the final state of the Happiness Secret?**

## **TOPIC: SMILE, ELIMINATE THE MIND AND CHOOSE HAPPINESS**

**Q: Why is smiling so powerful for happiness?**

**A:** A smile is not just an indicator of happiness. It is a creator of bliss. If you want to be happy all the while, learn to smile, for when you smile despite your problems and circumstances, you will generate happiness where there is none! A smile is a shock absorber. It absorbs the miseries of life. It reduces the effects of problems. For a simple person, a smile is just a reaction to a happy moment. But to one who has mastered the art of happiness, a smile is a key that opens the door to bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 15: Smile, All The While | Page: 79–81*

**Q: Can we smile even when we have problems?**

**A:** Yes! Those who discover the secret of being happy all the while learn to smile. It doesn't matter if their life has problems. Every problem has a limited lifespan. It is like a train — it will come but it will go. We have to learn to enjoy the show. We have to understand that life is a drama and everything that is happening is nothing but our Karma. When we realize it is a drama, there will be no trauma. The smile remains, even through the storm.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 17: Choose To Be Happy | Page: 89*

**Q: What is the relationship between our expression and our inner state?**

**A:** A smile tells you that you are happy, just as a frown sends a message that something is wrong. You can understand a person's mood by their expression. A person who is cheerful, laughing and smiling is in a mode of bliss. A person who seems nervous, fearful, stressed or tense reveals their anxiety by the lack of a smile. A smile becomes a happiness indicator. Not only is it a happiness indicator but a smile is also a trigger of bliss.

**Q: What are the seven miseries of the mind?**

**A:** The seven miseries of the mind are: fear, worry, stress, anxiety, regret, shame and guilt. FEAR is a False Expectation Appearing Real. WORRY is Waste of Life, Overthinking,

Repeating the fear, Rehearsing the problem and Yearning. STRESS consists of Sad thoughts, Toxic thoughts, Repetitive thoughts, Exhausting thoughts, Sadistic thoughts and Suffocating thoughts. When we have fear, worry and stress, we create anxiety. Regret, shame and guilt come from the mind jumping to the past.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 16: Eliminate The Mind | Page: 84*

**Q: How do we eliminate the mind?**

**A:** The moment we move to a state of Consciousness, we can still the mind, and when we still the mind, we kill the mind! When there are no thoughts, then where is the question of fear or worry, stress or anxiety? This is how a king learned peace from a wise man who told him, 'When you still the mind, you kill the mind! When there are no thoughts, then where is the question of fear or worry, stress or anxiety?' Still the mind. Kill the mind. Eliminate all the seven miseries.

**Q: What is the MK-50 and why is it dangerous?**

**A:** MK-50 is the Mind Killer 50 — it shoots at us 50 toxic thoughts every minute. It can shoot us with 50,000 poisonous bullets every day! We all dread the AK-47, a dangerous weapon used by terrorists. But we are not cautious enough to stay away from MK-50, the Mind Killer 50. When will we eliminate the MK-50 from our life and learn to be happy? The secret is simple: still the mind, kill the mind, and eliminate all seven miseries that create so much sorrow.

**Q: How should we replace the mind with the intellect?**

**A:** We have to replace the mind with the intellect, the tool of discrimination and willpower. When we still the mind and reach that state of Consciousness, it is in that state that the intellect shines. As long as the mind is pouring thoughts, it is like a gushing river that does not permit us to build a dam. When the intellect is active, we can lock the mind and block fear, worry, stress and anxiety from stealing our tranquillity. Kill the mind, before the mind kills you!

**Q: Is happiness really a choice?**

**A:** Happiness is a choice. But this is only known to the wise! The rest just cry and they die. Anybody can be happy. Happiness is not a complicated thing. But you have to choose happiness. And if you don't choose to be in that state of bliss, then you are sure to experience unhappiness. If we can be glad, but we choose to be sad, aren't we mad? Even after having the AiR Happiness Secret, we may remain unhappy if we choose the mind state over Consciousness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 17: Choose To Be Happy | Page: 88–92*

**Q: Why do most people remain unhappy even when they could be happy?**

**A:** Our happiness escapes us because of what we were taught in school. We were taught that success is happiness and we think only money can buy happiness. Instead of enjoying life, we yearn for things beyond our reach and become miserable. Even the richest people are unhappy because they compare themselves to those richer. Instead of learning to be happy,

fulfilling our need, we become unhappy with unfulfilled greed. We don't discover the AiR Happiness Secret!

**Q: What is the story of the poor man that illustrates choosing happiness?**

**A:** A wise man met a cribbing poor man and said, 'I will give you one lakh for each eye!' 'No!' exclaimed the man. 'Ok, give me your two hands and I'll give you two lakhs.' 'What nonsense!' the man shouted. The wise man concluded: 'You said you have nothing. You are worthless. But you seem to be rich in reality. With eyes, hands and feet, you can go and make a living and enjoy your life.' Most of us live life but don't enjoy every moment of it. Count your blessings!

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 17: Choose To Be Happy | Page: 90–91*

**Q: What is the foundation on which happiness must be built?**

**A:** If only we can build our life on the foundation of peace, and the pillars of faith, hope, trust and enthusiasm, then the tower of happiness can stand strong and it can shine as we discover, in one and all, the presence of the Divine. We can choose bliss — it is as simple as this! Happiness is a state of being. Those who are trying to become happy do not discover the simple truth — happiness is like a shadow. The more you chase it, the further it goes away.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 17: Choose To Be Happy | Page: 92*

**Q: How can we use the smile as an active happiness practice?**

**A:** To the truly happy ones, more important than the clothes they wear on their body, or the perfumes and cosmetics they have on their skin, is the smile they wear on their face. A smile is what makes a person truly beautiful. We must not let a moment in our life pass without a smile! Smiling is a sign of enthusiasm. It is an expression of faith. It reveals a person has hope. When we frown, it reveals we are fearful with regret, shame and guilt. A smile is our daily happiness practice.

**Q: Can eliminating the mind alone give us eternal happiness?**

**A:** To be happy, the simple secret is that we must not be unhappy. For when we are sad, there is no way to be glad! How can we eliminate all those things that make us sad? The way is to kill the mind that makes us mad. But eliminating the mind alone is not enough — we must also choose positive emotions, surrender, discover our purpose and live in Consciousness. The mind elimination is one powerful step in the 19-step AiR Happiness Secret. All 19 steps together guarantee Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 16: Eliminate The Mind | Page: 83*

**Q: What does it mean that we 'cannot become happy, we can only be happy'?**

**A:** Happiness is a state of being. Those who are trying to become happy do not discover the simple truth — happiness is like a shadow. The more you chase it, the further it goes away. Those who learn to be happy learn to remain still and enjoy the bliss of true happiness. You can't become happy. You have to be happy. Happiness needs no effort. It is a choice. For a

true Yogi, happiness is not something that comes and goes. It is Eternal Bliss that forever flows.

**Q: What is true wealth according to the Happiness Secret?**

**A:** Many people talk of being wealthy in terms of money, cars, houses and villas. But true wealth depends on whether you can smile all the while or not. If you can't smile, then you are bankrupt because it indicates that you are not happy, and happiness is the true wealth of life. What are we seeking money, achievement and wealth for? It is to be happy. And the happiness indicator is the smile. A rich person with a poor smile is deep in poverty.

## **TOPIC: RESPOND DON'T REACT AND ENLIGHTEN THE EGO**

**Q: What is the difference between reacting and responding?**

**A:** The Happiness Mantra is RDR — Respond, Don't React. Don't React, Destroy and eXplode! When we react, we are replying through the mind — our response is just a thought, a feeling and an action without interception by the intellect. We are not intercepting the thought chain with our intellect that shines in Consciousness. Therefore, our reaction is not an intelligent response. But when we respond, the intellect is in charge — we discriminate before we act.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 93–94*

**Q: What is RDX and why is it dangerous?**

**A:** RDX in the AiR Happiness Secret is React, Destroy and eXplode. Just like RDX is a powerful Royal Demolition explosive used by military forces, when we RDX in our life — when we react, destroy and explode — we demolish our happiness, our relationships and our peace. Not only do we create unhappiness in others but we also make ourselves unhappy. A simple principle: if we want to be happy, make others happy; if we make others unhappy, we can be sure we will be unhappy.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 93–95*

**Q: Why do we so often react instead of respond?**

**A:** Things happen in life and we are constantly responding and reacting. When we react, we are replying through the mind. The normal thought chain is: thoughts become feelings and feelings become actions. Under the influence of the mind, we have toxic thoughts driven by anger, hate, revenge and jealousy. These become feelings and actions. We do not pause. We do not use the intellect. If only we intercept the thought chain and move to Consciousness, the intellect would discriminate before we act.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 94*

**Q: What practical technique can we use to avoid reacting?**

**A:** Some people use a simple practical technique not to react. When they know they are going to be provoked for RDX, they fill their mouth with a few sips of water. This not only compels them to be quiet but also cools them to respond appropriately. They repeat the exercise till the

RDX possibility is over and they succeed to RDR, not RDX. Also, one must pause and allow the intellect to intercept the thought chain before it flows into feeling and action.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 95*

**Q: How does reacting create bad Karma?**

**A:** When we react, we create bad Karma. How often do we regret what we have said or done? But unfortunately, it is already done. Not only is the Karma over, and it will receive appropriate reaction, but we are also filled with remorse, regret, shame and guilt for our own action. Our reaction, rather than our response, has left us. It becomes our bad Karma, and our bad Karma is going to return to us to make us unhappy. RDR prevents this cycle of bad Karma.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 94–95*

**Q: What is our attitude and how does RDR improve it?**

**A:** Our attitude is our response, our reaction, our behaviour. Those with a negative attitude have RDX that erupts from the mind. But those with a positive attitude have RDR that comes from our Consciousness, our intellect. You can't control your attitude until you are a master of your mind. If the mind is the master, you will only react faster, destroy and cause opportunities, relationships and life itself to explode. RDR is the secret to a positive attitude and a happy life.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 96*

**Q: What is the ego and why does it cause unhappiness?**

**A:** The ego is the one that says 'I', 'me' and 'mine'. As we grow, we all develop the ego. Unfortunately, the ego is like a tree that automatically grows branches of anger, hate, revenge and jealousy. It develops pride, greed and selfishness. Studies reveal that the ego creates seven monsters that cause us so much anguish. The ego stands tall like a wall and unless we Enlighten it, the wall of ego continues to unleash the seven monsters that cause agony and destroy our happiness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 19: Enlighten The Ego | Page: 98–99*

**Q: What are the seven monsters of the ego?**

**A:** The seven monsters of the ego are: anger, hate, revenge, jealousy, pride, greed and selfishness. Because 'I' want more, 'I' become greedy. Because 'I' think 'I' am better than others, this superiority complex creates pride that leads to disappointment and anguish. Happiness comes when we give, but our ego makes us selfish and steals our happiness. These seven monsters are the cause of most agony and anguish in life. They must all be destroyed to experience Eternal Bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 19: Enlighten The Ego | Page: 98–100*

**Q: Can we kill the ego completely?**

**A:** Many philosophers talk about killing the ego, completely annihilating it. But is that even possible? The ego is nothing but our identity. It is the one that says 'I', 'me' and 'mine'. A human being is alive from birth to death and the ego seems to appear soon after we come out of the womb. We can't eliminate the ego — don't even try! But we can Enlighten the ego. When the ego is Enlightened, the seven monsters disappear and we reach a state of peace and bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 19: Enlighten The Ego | Page: 98*

**Q: How does realizing 'I am not I' help eliminate the ego's monsters?**

**A:** Not only anger, all the monsters of the ego will dissolve and disappear if only we realize 'Who am I?' When we realize that I am not this body that will die, we discover the first secret of 'Who am I?' Then, when we think we are the Mind and Ego, ME, and we try to find the mind, we realize there is no mind! This Realization that I am not the body, nor the mind, makes the ego fall. The seven monsters disappear and we reach that stage of peace and bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 19: Enlighten The Ego | Page: 100*

**Q: What causes anger and how is it rooted in ignorance?**

**A:** The cause of the agony called anger is because of the ignorance that I am separate from you. We seem to be two different bodies and so the fire of anger burns us. But what if we realize that we are not these bodies that we wear — we are the Soul, the Spark of Unique Life? Then we would not get angry because we realize that in essence, we are one. Does our right hand ever get angry at our left hand? Never! Because both are me. Anger vanishes when we realize oneness.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 19: Enlighten The Ego | Page: 99*

**Q: What is the practical impact of not reacting in relationships?**

**A:** Things will happen. Let them happen! We can't control other people's actions, but we can control our own reactions. When we are in charge of our life, we can be peaceful and blissful. Nature has given us 32 doors to hold back the poisonous snake, our tongue! How often do we say something nasty by letting words pass through our 32 teeth and react to something unwarranted? The words spoken can't be withdrawn. If we had followed RDR and not RDX, peace would have been preserved.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 94–95*

**Q: How does Enlightening the ego lead to happiness?**

**A:** This is not an easy achievement. It can only happen when the ego is Enlightened. We have to transcend that ego which is the false ego and that gives birth to the seven monsters. The moment the false ego is transformed and awakened, there is no reason for us to hate or become jealous or even take revenge. We discover a universal oneness known as non-duality. We realize that we appear different but are not. We are like different waves of the ocean but part of one ocean.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 19: Enlighten The Ego | Page: 100–101*

**Q: What is the 'game-playing attitude' and how does it help?**

**A:** To be happy, let us learn to RDR. Let us approach life with a game-playing attitude. There are some people who are even willing to fight in a game. Others, who are more conscious, laugh over what happens in a game — after all, it's just a game! Those with RDR realize that life is no more than a game. We are players who come on to the field to play in the game of life. We want to enjoy the journey, every moment of it, and not worry about the destination. This is the way to peace, love and bliss.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 18: Respond, Don't React | Page: 96–97*

**Q: How do the ego's monsters rob us of happiness?**

**A:** It is no secret that the agony and anguish created by the ego through its seven monsters kills our happiness. Happiness cannot coexist with anger and hate, revenge and jealousy. These are monsters that uproot our peace and bliss. Don't these toxic emotions of the ego rob us of our happiness? If we truly want to be happy, we must learn the art of eliminating the seven monsters of the ego — anger, hate, revenge, jealousy, pride, greed and selfishness.

**TOPIC: TRANSCEND BHOGA, LIVE IN YOGA AND ETERNAL BLISS**

**Q: What is Bhoga?**

**A:** Bhoga is lust, passion or worldly desire. Most of us are prisoners of pleasures, people and possessions. This is because we become slaves of our five senses — the eyes, ears, nose, tongue and skin. In the pursuit of joy and pleasure that comes from sensual gratification, led by the mind, we fall prey to this illusory world and its ephemeral momentary pleasures. We get so tied in Bhoga that we have no time to even think of Yoga. But we have to choose!

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 20: Transcend Bhoga, Live in Yoga | Page: 104*

**Q: What is Yoga in the true sense?**

**A:** The word Yoga comes from Yuj, which means union. It is the union of the Soul with the Supreme Soul. It is the union of our individual Consciousness with universal Consciousness. The world thinks that Yoga is just Asana and Pranayama, physical exercise and breathing techniques. This is not Yoga. This cannot give Eternal Happiness. We have to learn to be in Yoga, to be in union, and this state of Yoga lingers on as long as we don't slip into Bhoga.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 20: Transcend Bhoga, Live in Yoga | Page: 103–104*

**Q: How does Bhoga prevent eternal happiness?**

**A:** As long as we are in Bhoga, we cannot enjoy true peace and bliss. Sure, we can enjoy temporary happiness, but soon our desires will make us burst. They will never quench our thirst. We human beings become miserable because of the MIND — Misery, Ignorance, Negativity, Desires. The mind leads us into Bhoga, leading our five senses to desire material pleasures. There is no end to Bhoga. The world is filled with merchandise that will make us want more and more.

*Source: Discover the AiR Happiness Secret by AiR – Atman in Ravi | Chapter: Chapter 20: Transcend Bhoga, Live in Yoga | Page: 104–105*

**Q: What are the four states of Yoga?**

**A:** The world talks of four states of Yoga: Dhyana Yoga or meditation, Bhakti Yoga or devotion, Karma Yoga or action, Gyana Yoga or education. One can move from one state of Yoga to another and thus, escape from Bhoga and enjoy Divine peace and bliss. While we are in union or Yoga, we are so united with the Divine, so united in Consciousness, that there is no space and opportunity for the mind to bombard us with toxic thoughts of Bhoga.

*Source: Discover the AiR Happpiness Secret by AiR – Atman in Ravi | Chapter: Chapter 20: Transcend Bhoga, Live in Yoga | Page: 104*

**Q: How does living in Yoga create happiness?**

**A:** When we are in Yoga, we are in a state of being. But when we are in Bhoga, we are like machines that are constantly doing something to be happy. When our Soul is united with SIP, the Supreme Immortal Power, we experience an ecstasy of joy that is greater than any sensual pleasure. In Yoga, our thoughts are consciously filled with meditation, devotion, action and education — and we enjoy a state of being that creates peace, the very foundation of happiness.

*Source: Discover the AiR Happpiness Secret by AiR – Atman in Ravi | Chapter: Chapter 20: Transcend Bhoga, Live in Yoga | Page: 105–106*

**Q: Can we enjoy material things while living in Yoga?**

**A:** When we are in Yoga, we move away from the desires of the mind into that state of Consciousness where our Soul connects with the Supreme Soul. We enjoy things that don't need money to create happiness. We enjoy the rain, the sunset and the skies. We enjoy loving our near and dear ones and resist the onslaught of Bhoga. We can enjoy all pleasure that comes to us as Prasadam, a gift from the Supreme. The difference is we don't run behind pleasure — we enjoy what comes.

It is also the step that brings all 19 principles together. **Q: What does AiR mean by saying 'we are nothing but energy'?**

**A:** Science, through Wave-Particle Duality, has concluded that every cell is nothing but energy. The smallest particle — the quark — is nothing but energy. We human beings appear to be a mass of 30 trillion cells but in reality, we are nothing but energy. The energy of the spirit is like electricity — it gives Power to the human machinery from birth to death. When we Realize we are that energy, the Soul, the Spark Of Unique Life, we experience Eternal Bliss in Yoga.
