Q: Can choosing specific emotions lead to peace?

A: What is PEP? PEP is a set of positive emotions like faith, hope, trust, belief and enthusiasm. It is living with courage, confidence, forgiveness and compassion. It is being an optimist. When we have a life filled with positive emotions, we eliminate NEP or Negative Energy that Poisons our life with toxic emotions. People who live with PEP are joyous, while being patient and humble. They are content, cheerful and excited almost all the time. They are kind and live with empathy and tolerance. PEP builds morality and ethics. It creates peace and tranquillity in life.

Q: How does thoughtlessness relate to peace?

A: The solution is to go beyond PEP, beyond positive thinking, to a state of 'No Thinking' or Thoughtlessness. Just like we can control walking, talking and eating, we must discipline ourselves to control our thinking too. TOPIC: HAPPINESS

Q: What is the common mistake people make when defined success and happiness?

A: The world thinks that happiness is pleasure. We are made to believe, 'Success is Happiness' while the truth is 'Happiness is Success.' No wonder, the whole world is chasing money, name and fame. No doubt, these sensual pleasures give us momentary happiness, but is this what happiness all about? No! True Happiness is beyond the pleasures of the senses. It is beyond Achievement.

Q: Does wealth guarantee a life free from misery?

A: The paradox is that even the richest man in the world is not happy, because wealth is not equal to happiness. The rich and the famous live in stress, fear, anxiety, and insecurity. Therefore, while wealth is a measure of happiness, money is not directly proportionate to

bliss. If it were so, all the rich would be glad, not sad.

Q: What characterizes the second peak of happiness?

A: The Second Peak of Happiness is Fulfilment. It comes from living a life of Contentment. It is based on the foundation of Peace. Isn't it true that there are people in this world who are not so rich and not so famous, but they are far happier than the wealthiest people in the world?

Q: How can I maintain joy regardless of external circumstances?

A: Happiness is a state of being. It doesn't depend on outside circumstances. The pleasure that comes from possessions, people and places is momentary. We think that desires create happiness. Alas! Passions never quench our thirst. They only make us burst. When we yearn for material pleasures, we inadvertently create stress, worry and anxiety. We become unhappy.

Q: What are 'Happiness Triggers' and how do they work?

A: How many of us know of the 10 Triggers that will immediately trigger happiness in our life? We all want to be happy but we pay little attention to the 'Happiness Triggers.' Q: Can focusing on a single thought help cultivate happiness?

A: When the Mind is locked in focus, it ceases to exist. The Mind only appears when there are dozens of thoughts that create so much de-focus in our life. It is in the state of focus that we become the master of our thoughts. We control the Mind, and we live in Consciousness through the discrimination of the Intellect.

TOPIC: THE MIND**Q: How does the author define the Mind?**

A: Our Mind is nothing but a bundle of thoughts. When thoughts appear to bombard us, our Mind seems to appear. When there are no thoughts, there is no Mind. There is stillness; there is silence.

Q: Where can the Mind be found within the physical human body?

A: Stop and search for the images of your organs. You will discover the heart, the brain, the kidneys, the lungs, and the intestines. You will also realize that within, below the skin, there is blood, flesh, tissues and bones. But where is the Mind? Stop and find. There are trillions of nerves in the human body that behave like an entire electrical network, transmitting signals between the brain, the spinal cord and the body. Nowhere in this search can we find the Mind.

Q: Why is the Mind considered our enemy?

A: The Mind has always been the enemy of mankind. But humanity lives in ignorance. We do not realize what the Mind does. Our Mind fights extremely hard to keep us locked in ignorance for its own survival. It does not want us to realize the truth because if we do, it will cease to exist.

The fact is that the Mind is nothing but a bundle of thoughts and along with the Ego, it becomes ME.

Q: What happens when we are in a state of 'Thoughtlessness'?

A: It is the ability to move from the state of Thinking – the state of Thoughts or Mind, to a state of Thoughtlessness. It is the state of Mindfulness. Q: What is the true nature of Consciousness?

A: Consciousness is that state of being where the Monkey Mind has been tamed into being a Monk. The Monkey has a tail – EY, Ever-Yelling and Ever-Yearning. Q: How is the Intellect related to Consciousness?

A: The Intellect is awakened in the state of Consciousness. As long as the Mind bombards us with thoughts, Consciousness will not be there. Thus, the Intellect is deactivated. We need to first silence the Mind and be in a state of Thoughtlessness or Consciousness. It is in

the light of Consciousness that the Intellect will shine. As we tame the Mind, the Intellect starts functioning but it is at its best when the Mind is still.

Q: What is the benefit of moving beyond positive thoughts to a state of

thoughtlessness? A: In essence, in a state of Consciousness, there are no thoughts.

Q: How does a thought appear when one is in the state of Consciousness compared to the Mind?

A: In the state of Consciousness, there are no thoughts. Even if a thought appears, it floats like a fish that slowly enters the ocean of Consciousness. It is observed by our Consciousness and controlled by our Intellect. It is in this State of Consciousness, that there is no Mind! Therefore, this state is considered to be a state of Thoughtlessness, although, in reality, such a state does not exist.

Q: How does focus help me reach Consciousness?

A: Focus exists in a state of Consciousness because then the Mind is locked or engaged in a single thought. In that state of being locked, our Mind does not wander from thought to thought. Q: How can I move from Consciousness to true Enlightenment?

A: Consciousness is not just a state of Peace, Bliss, Happiness, it is that state of Thoughtlessness in which there can be contemplation of the Truth. Q: Why must we remain ever conscious of the Truth?

A: If we are not ever-conscious of the Truth, then there will be a vacuum in our Consciousness and this vacuum may create scope for our Mind to enter into our

Q: What is the primary principle behind the Law of Karma?

A: Everything is controlled by the Law of Karma. It is a universal law and nobody can escape it. It controls our birth and death. Once an action is performed, we cannot escape the reaction to it. We can change our thoughts and our feelings, but actions are like seeds – once planted, they must bear the fruits for it. Q: Who is ultimately responsible for the destiny we face in life?

A: Since actions control our destiny, neither good luck nor the Divine, we must be clear on how we can control our actions. Actions are triggered by feelings that are produced by thoughts.

Thoughts are created by emotions, the raw material of our thought factory and we can choose our emotions. Therefore, we can choose our thoughts, our feelings, our actions and ultimately, our destiny.

Q: Is the path of our life already determined or can we change it?

A: While man has the power to choose, can he change the road that he is driving his car on? He can't! The road is already laid. The path of his life is paved as per the result of his past Karma. Man does not realize that the account of Karma is carried forward, life after life. The body dies, but the Mind and Ego, ME, carries its Karma forward.

Q: How do our daily thoughts eventually turn into our destiny?

A: Thoughts lead to Feelings and then Actions; it is a chain. It is to do with our Mind, nothing to do with our brain. Actions become Habits and create our Destiny, It is with a Thought that we can either be Happy or Unhappy.

Q: What is considered to be 'twin Karma'?

A: Karma is both, the Karma of our previous life that is done and cannot be changed and the Karma of this life, which is in our control. Together, the past and the present Karma become the Law of Cause and Effect. What we see as an effect unfolding in our life is caused

because of our own actions.

Source: Flip Over From Mind to Consciousness, Chapter: The Law Of Karma, Page 50

Q: Does our current destiny depend on our own past actions?

A: Just like the seeds that we plant, decide the Fruits on the Tree, The Deeds that we do, decide our Destiny. We should not blame God or believe in Bad Luck! We decide our destiny; what we sow is what we will pluck!

Source: Flip Over From Mind to Consciousness, Chapter: We Control Our Destiny, Page 48

Q: How does realizing the truth about Karma change our reaction to life events?

A: Those who understand Karma, realize that some aspects of our life are predestined. Some circumstances unfold because of our past Karma that cannot be changed. But we can choose our present Karma and thus, change the destiny of our life. If we realize this, then our life is not predestined.

Source: Flip Over From Mind to Consciousness, Chapter: Is Life Pre-Destined?, Page 52

Q: Can we avoid the consequences of our deeds through prayer?

A: There is a Law of Action and Reaction. It is based on the Principle, 'What you do, will come back to you.' Everything depends on our actions. It is a myth that the Law of Attraction will work. There is no such law!

Source: Flip Over From Mind to Consciousness, Chapter: We Control Our Destiny, Page 47

Q: What role does the Mind and Ego play in our continuous rebirth?

A: The Mind makes us create Karma which makes us return to earth in a rebirth. It is the Mind that causes all our suffering. Who makes us live in fear? Who causes stress, worry, anxiety and depression? It is our Mind. It bombards us with thoughts and these thoughts paralyze us. Finally, they become feelings and actions. We remain helpless slaves of the Mind, all through life.

Source: Flip Over From Mind to Consciousness, Chapter: Our Mind Is Our Enemy, Page 11

Q: What happens to our Karma after the physical body dies?

A: When our body dies, our Karma continues to live. One who leaves the body, the ME, the Mind and the Ego, carries their unsettled Karma and moves into a new birth. Because we don't understand how Karma works, we wonder why bad things happen to good people.

Source: Flip Over From Mind to Consciousness, Chapter: The Law Of Karma, Page 49

Q: How can one escape the endless cycle of death and rebirth?

A: If we choose the journey of Self-Realization, not only can we be free from the triple suffering on earth but we can also be free from rebirth. This is not an easy choice, because the majority of the world is just following the herd. If we choose to take a road that's less travelled and fly like a bird exploring the truth about life, that choice can lead us to Liberation from Karma and thus all suffering.

Source: Flip Over From Mind to Consciousness, Chapter: Life Is A Choice, Page 54

Q: Can our present actions overcome the suffering caused by our previous life?

A: Our present Karma is in our control. We can change our life despite the Karma that is unfolding every day in our life. When we realize this, we take charge of our actions and our reactions. We take charge of our thoughts and feelings and we take charge of our destiny, without forgetting that some things in life are predestined and some things are not!

Source: Flip Over From Mind to Consciousness, Chapter: Is Life Pre-Destined?, Page 52

Q: Does the book suggest that we determine our own fate?

A: Life is our choice. How is it possible? We have understood very clearly how our Karma cannot be changed. Whatever has been done in our previous life, will unfold. We have also understood that there is twin Karma. We can choose to perform good deeds and take charge of our destiny.

Source: Flip Over From Mind to Consciousness, Chapter: Life Is A Choice, Page 53

Q: If I am in charge of my destiny, how do I use my intellect properly?

A: We determine our destiny; what we sow is what we will pluck! But our Mind doesn't permit such a focus and so, dances away in thoughts, both positive and negative, as it ultimately swings us away from our goal. Our goal is to activate our Intellect and discriminate our thoughts but without focus, neither can we be in Consciousness nor can our Intellect shine.

Source: Flip Over From Mind to Consciousness, Chapter: Without Focus, There Can Be No Flip, Page 70

Q: Why must we understand the 'thought chain' to master the Law of Karma?

A: Taking charge of thoughts and feelings puts us in the driver's seat and we can command our actions. But once an action is performed, we cannot control its reaction. Those who see suffering in the world and do not understand Karma, look up at the sky, cry and ask, 'Why?' If only they understood that it was Karma, they would focus on their thoughts, feelings and actions.

TOPIC: THE INTELLECT AND EGO

Q: What specifically distinguishes human beings from the rest of the animate world regarding intellectual capacity?

A: The Power of the Intellect is a special gift that only human beings are blessed with. The rest of the animate world does not have a fully developed Intellect. Some creatures have instincts and some have small amounts of intelligence. But only a human being has the Faculty of Intellect that is fully developed.

Source: Flip Over From Mind to Consciousness, Chapter: AWAKEN THE INTELLECT, Page 19

Q: How does the author define the relationship between the Mind, Intellect, Memory, and Ego?

A: Along with the Memory, Intellect and Ego, the Mind forms the software of the human-computer. It is through this Mind and its thoughts, that a human being operates or lives. While we know this much, nobody knows where exactly the Mind is, how it functions, where it comes from and where it goes.

Source: Flip Over From Mind to Consciousness, Chapter: WHAT IS THE MIND?, Page 10

Q: What is the primary function of the Intellect in managing human destiny?

A: However, when we activate our Intellect, we intercept our thoughts with it. We discriminate each thought before it germinates into a deed and finally, our destiny. The Power of the Intellect is a special gift that only human beings are blessed with.

Source: Flip Over From Mind to Consciousness, Chapter: AWAKEN THE INTELLECT, Page 19

Q: Where is the Intellect located within the human body?

A: Along with the Mind, Memory and Ego, they form the software of the human-computer. It is present wherever the thoughts are present and it does not necessarily remain in the brain, the central hardware of the nervous system.

Source: Flip Over From Mind to Consciousness, Chapter: AWAKEN THE INTELLECT, Page 19

Q: What happens to the Intellect when we exist purely in the state of 'Mind'?

A: When we are in a state of Mind, we are bombarded by several thoughts. There is no sign of our Intellect. Intellect is a unique gift given to man. It is our power of discrimination. It can differentiate black from white and what is wrong from what is right. But when our Mind bombards us with about 50 thoughts a minute, our Intellect cannot withstand it. In this state of Mind, the Intellect becomes ineffective.

Source: Flip Over From Mind to Consciousness, Chapter: FLIP OVER FROM MIND TO INTELLECT, Page 71

Q: How does the Ego contribute to human suffering alongside the Mind?

A: The fact is that the Mind is nothing but a bundle of thoughts and along with the Ego, it becomes ME. It becomes our false identity. The Mind makes us create Karma which makes us return to earth in a rebirth. It is the Mind that causes all our suffering. Who makes us live in fear? Who causes stress, worry, anxiety and depression? It is our Mind.

Source: Flip Over From Mind to Consciousness, Chapter: OUR MIND IS OUR ENEMY, Page 11

Q: How can the Intellect be activated to stop being a slave to thoughts?

A: The Intellect is awakened in the state of Consciousness. As long as the Mind bombards us with thoughts, Consciousness will not be there. Thus, the Intellect is deactivated. We need to first silence the Mind and be in a state of Thoughtlessness or Consciousness. It is in the light of Consciousness that the Intellect will shine.

Q: What role does the Ego play in creating negative emotions like anger and hate?

A: Along with the Ego, the Mind becomes ME and creates the agony of anger, hate, revenge and jealousy. If only we can tame the Monkey Mind, cut its tail, EY, that is Ever Yelling and Ever Yearning, we can stop the thoughts and reach the desired state of Thoughtlessness.

Source: Flip Over From Mind to Consciousness, Chapter: HOW TO BE IN CONSCIOUSNESS?, Page 21

Q: Why is the Intellect described as a 'gift-wrapped box' for many people?

A: Many of us do not discover the difference between the Mind and the Intellect. Therefore, we live believing the Mind to be the Intellect. We are fooled into believing that it is the Mind that

discriminates. Because of this, we do not activate our Intellect. It is as though the gift of the Intellect is gift wrapped in a box and we take it unwrapped to our graves.

Source: Flip Over From Mind to Consciousness, Chapter: AWAKEN THE INTELLECT, Page 19

Q: What is the relationship between the Intellect and spiritual realization?

A: One of the two, either the Mind, or the Intellect, will always be in command of our life. In most cases, it is the Mind because we think up to 50 thoughts a minute. In such an environment, there is no Consciousness and thus our Intellect is dormant. Our Intellect comes alive in the state of Consciousness. When we are able to still the Mind, we kill the Rascal Mind.

Source: Flip Over From Mind to Consciousness, Chapter: OUR INTELLECT SHINES IN CONSCIOUSNESS, Page 74

Q: How does the author describe the 'ego' in the state of Consciousness?

A: When we are in a state of Consciousness, there is no Mind. Because we were able to still the mind, we were able to kill the Mind. We reach that state of Thoughtlessness, where there are no thoughts of fear and worry. With the Mind disappearing, the ME doesn't exist. The ego drops into a state of dormancy and we overcome the anguish of anger and hate.

Q: What is the 'Ultimate Truth' regarding the Soul, Body, Mind, and Ego?

A: The ultimate truth of life is to discover 'who we are', 'why we are here' and to merge with SIP, the Supreme Immortal Power, our very source. Q: What is the 'agony of the Ego' that keeps humans enslaved?
