Pleasure Is Just The Tip Of The Happiness Iceberg

PLEASURE VS TRUE HAPPINESS

Q: Why is pleasure not the same as true happiness?

A: Pleasure is only the tip of the iceberg of Happiness. A large part of Happiness remains undiscovered as we revel in our pleasure thinking that we are happy. So, we become unhappy because pleasure comes and pleasure goes. Pleasure is not that Happiness that forever flows. This, unfortunately, man does not know.

Q: What does the iceberg represent in the context of happiness?

A: An iceberg is not what it appears to be. Only 10% of its volume is visible above the water line. 90% of its mass is invisible to the human eye. So is Happiness. We only enjoy 10% of Happiness thinking that Happiness is pleasure. Of course, it is. But it is just the tip of the iceberg.

Q: What are the 3 Ps of happiness?

A: Happiness has 3 Ps – Pleasure, Peace and Purpose. To be truly happy, one has to enjoy the tip of the iceberg – pleasure, dip below the waters to discover peace and go further in quest of what lies below to discover the purpose of life. The moment one discovers the 3 Ps of Happiness, he has found the 3 keys that will open the doors to Eternal Bliss.

Q: Why does chasing pleasure rob us of peace?

A: Popularly known as the Hedonic paradox, the pursuit of pleasure can rob us of our peace. Chasing pleasure can be self-defeating and can actually make us less happier. The passion for more pleasure seeks more intense experiences and more cravings, only leading to a state of unhappiness.

Q: What does the musk deer story teach us about happiness?

A: Man lives like the musk deer. The musk deer is known to frantically look all around the forest for the fragrance of the musk that comes from within it. In its frenzy to find the musk, sometimes, the deer falls off the steep cliffs and dies. Then, the hunters cut open the stomach of the musk deer and retrieve the musk that was in its navel. Man, too, is like the musk deer — he seeks happiness outside when it is within.

Q: Why is pleasure described as only 10% of happiness?

A: Man is fitted with the pleasure-pain drive. He doesn't discover that true Happiness is within, just like an iceberg. He doesn't realize that 90% of his Happiness comes from peace, love and bliss, which pleasure is not. Imagining the tip of the iceberg to be the iceberg itself, man continues to run after pleasure without achieving True Happiness.

Q: What is the hidden part of the happiness iceberg?

A: What is the hidden part of the iceberg of Happiness? It is the state of Eternal Peace, Divine Love and Everlasting Bliss. How many of us enjoy this? Look around. Some of us want to buy a new car. Some of us do online shopping. Some try to beautify our looks so that we feel good as we try to impress others. The world is filled with spas and wellness centres like never before, all because we think that pleasure is the only Happiness.

Q: How does pleasure create a cycle of pain?

A: When we want pleasure, our ego is in full bloom. Our mind becomes our master and this is a disaster! We want to be the best, richest, smartest and wealthiest. We don't realize that we are creating worry and anxiety that rob us of our peace. In our excitement to succeed, we lose our peace of mind and become miserable.

Q: Can sense gratification lead to lasting happiness?

A: Typically, man's pleasure comes from gratifying his senses. He is so busy in sense gratification that he wants to provide the eyes with something beautiful, the ears with ecstatic music, the nose with exotic fragrances and the tongue with delicious meals. Man experiences sensual pleasure through his skin. He thinks that this is Happiness. He does not discover the reservoir of Happiness that is hidden within.

Q: What is the Happiness equation?

A: Everybody wants Happiness but not everybody knows the equation of Happiness. It is $\text{Pleasure} + \text{Peace} + \text{Purpose}$. If we want to reach a state of Eternal Bliss, a state where there is Seamless Happiness, pleasure is not enough. We need peace because pleasure is momentary. It will come and it will go. But peace will forever flow.

Q: Why do most people discover only a fraction of happiness?

A: People have not realized that they are enjoying only pleasure. They have not discovered the real treasure. They are ignorant about the fact that they are enjoying only 10% of the potential Happiness that we are gifted with. We all have the right to live with peace. And peace, we don't have to find. We just have to still our mind. Then peace, we will find.

Q: How does the world wrongly define happiness?

A: The world thinks that pleasure is Happiness. Looking at the tip of the iceberg, we run after success and achievement. We try to gratify our senses but in the end, we remain unhappy. Why? When we try to achieve more and more pleasure, we inadvertently cause ourselves pain. In our passion for desires that we think will make us happy, we create anxiety and stress and our life ends up in a mess!

Q: Is happiness within or outside us?

A: We are searching for Happiness thinking that it is pleasure that is outside. We don't discover that it is peace that is within. We don't discover purpose, we don't realize that we are the Divine Soul. We live and we die, we suffer and we cry. We run till life is done, without discovering, 'Who am I?'

Rather, True Happiness is living with peace and discovering the purpose of our life.

SUCCESS & ACHIEVEMENT

Q: Is success the same as happiness?

A: Success is not Happiness. Happiness is success. We are running after success because we think that it will make us happy. Unfortunately, we don't realize that if we are happy, we are already successful. What is the point of running after something that will give us pleasure, which is only the tip of the Happiness Iceberg? Instead, we should focus on how to be happy.

Q: How does success become the cause of unhappiness?

A: His success became the cause of his unhappiness. The story of Adrian is not a unique story. There are hundreds, if not thousands of successful men and women, who are blinded like a horse. All they can see is success, pleasure, name and fame. Their perspective of life is restricted, ignoring the true opportunity of living. All they can see is the tip of the iceberg.

He said, 'If only I had spent my life spending the money I made, rather than just making more and more money, I would have died a happy man.' Many successful people have died with unfulfilled wishes.

Q: What does Alexander the Great's death teach us?

A: When Alexander the great died, it is said that he asked that his empty hands be left out of the coffin to remind the world that even the greatest man cannot take with him, even a penny. Q: What is the FULFILLMENT acronym and how does it change life?

A: I discovered a new acronym for the word, FULFILLMENT – This acronym changed my life. In the 5 years that I lived with fulfillment, I experienced more Happiness than I had in those 25 years of achievement. I enjoyed peace and pleasure. It was a double bonanza. But the greater gift was living with peace from fulfillment. I was able to embark on a quest for the third and ultimate peak of life.

Q: Why does mental illness grow with the pursuit of success?

A: Because we are running the achievement marathon, we have no time for anything else but pleasure that comes from success. Today, the world suffers from so much mental illness, all because there is no stillness. Mind medicine is the biggest fad as mental diseases have overtaken the world. The cause is stress. This has created such a mess, all because people are running after success!

Q: What are the three peaks of happiness?

A: The first peak of Happiness is achievement. The second peak is a plateau called fulfillment. And the third and the ultimate peak is called Enlightenment. On the first peak, we will find pleasure. On the second peak, we will find peace. But these are not enough to discover the Happiness Iceberg. Pleasure is the tip. Peace comes with a little dip below the noise of this world. But purpose comes when we discover the entire picture, the full iceberg.

Q: Why is life not just about earning?

A: Happiness isn't about what we earn but more about what we spend. We must remember this Eternal Truth till we reach our end. Isn't it time to realize that pleasure is not the ultimate treasure? When will we experience the Eternal Bliss with peace? When we look around, it is funny that people are just making money when everybody knows that nobody can take with them even a penny! *
TOPIC 3: PEACE OF MIND

Source: *Pleasure Is Just The Tip Of The Happiness Iceberg* | Ch. 8: Happiness Is Not Just Earning | Page 36

Q: Why is peace the foundation of happiness?

A: Peace is the foundation of Happiness. Just like a beautiful skyscraper needs a strong foundation to exist, without the foundation of peace, our tower of Happiness will crumble and fall. Therefore, while we all need pleasures to be happy, without peace, we cannot even enjoy pleasure. How can we discover peace? Peace is within. We have to still the mind, then peace, we will find.

Source: *Pleasure Is Just The Tip Of The Happiness Iceberg* | Ch. 10: Discover Peace | Page 44

Q: How does the mind steal our peace?

A: Happiness is not just pleasure that comes and goes. Anybody can trigger momentary pleasure. But soon, we lose our peace of mind. Then, we find that our life is a mess because of our anxiety and stress! We don't discover that it is the mind itself that steals our peace. The Happiness that comes from pleasure will cease as quickly as it was triggered.

Source: *Pleasure Is Just The Tip Of The Happiness Iceberg* | Introduction | Page 6

Q: What is MIND as an acronym?

A: Peace is within us. We just have to still our mind. But where is the mind? Nobody has seen the mind. We have seen pictures and X-rays of the brain, the heart and other organs but nobody has seen the mind. It is because the mind doesn't exist. It appears to be but in reality, it is just a bundle of toxic thoughts. The MIND is nothing but Misery, Ignorance, Negativity and Desire.

Q: What happens below the surface of the ocean?

A: Have you ever experienced what life is below the surface of the ocean? On the surface, there is so much noise, the roaring waves and all that pandemonium which fills the world. But below the surface, there is complete stillness. There is peace and bliss. So also, we don't realize that 90% of the Happiness iceberg is not about pleasure that is visible but peace that creates contentment and fulfillment.

Q: Why can't we find peace while running after pleasure?

A: We all need pleasures to be happy, without peace, we cannot even enjoy pleasure. Unfortunately, we are running after pleasure. We want success and achievement. Inadvertently, this is robbing our peace. We don't realize this paradox. The Hedonic paradox explains that when we are seeking pleasure and even enjoying it, we become happy. But the constant pursuit of pleasure robs us of our peace as it creates dissatisfaction, stress, worry and anxiety.

Q: How does stillness lead to peace?

A: If we want to live every moment, we must find the stillness that will overcome all mental illness. We must pause. Only then will we find the cause of our existence. But we are not able to be still because the mind always wants to kill every moment with toxic thoughts. For peace to prevail, we must eliminate the mind. Then, we will experience moments of bliss.

Q: What is PQT and why is it important?

A: We must not underestimate the importance of PQT – Personal Quiet Time. Many authors have elaborated on the benefits of meditation and contemplation, for these will ultimately lead to Illumination. If we want to live our life to the fullest, we must learn to value the moments. It is in these moments that precious and priceless creative ideas are born, for in silence and awareness, we reach the state of Consciousness.

Q: How does peace create contentment and fulfillment?

A: The base of the iceberg is peace. Unless we evolve from pleasure to peace, we will not discover lasting Happiness. Does it mean that we have to give up pleasure? Of course, not! We can

continue to enjoy pleasure but not make it a passion. Our priority must be Happiness, not pleasure. Pleasure and peace together form most of the Happiness we need.

Q: What does peace feel like versus the noise of pleasure?

A: In a state of peace, one can enjoy Eternal Bliss. Unfortunately, the toxic thoughts of the mind do not let us remain peaceful and blissful. The mind draws our attention to pleasure, the tip of the iceberg and we lose sight of the mammoth chunk of the iceberg below the waters. That huge chunk of Happiness that lies invisible is far greater than the tip.

Q: How many toxic thoughts does the mind create?

A: The mind is a bundle of toxic thoughts. It bombards us with up to 50 thoughts every minute. This can be a humongous 50,000 thoughts every day — thoughts that can drill us and kill us! How can we be happy? When we move from mind to Consciousness, thoughts don't pour like rain to cause us pain again and again.

Q: What does Sam's story teach about comparing and losing peace?

A: Sam used to run a business. He was a happy guy. But he always looked at Tony and wanted to be better than Tony in every way. Sam would always look at Tony's life as a benchmark. Instead of remaining happy, Sam became unhappy. He started working more hours, more days, to earn more. Then, he took some loans to buy a better car. He changed his lifestyle and could hardly spend time with his family and friends. Soon, his life was a mess.

Q: Why does the mind not want us to discover peace?

A: The mind bombards us with toxic thoughts and we will only shuttle between pleasure and pain. There will be loss and gain and we will repeat the cycle, again and again. The mind does not want us to live in peace because in stillness, the mind itself disappears. To discover the Happiness Iceberg, to go beyond the tip of pleasure and to discover the real treasure, we must have the courage to take an exit from achievement.

Q: What is the difference between pleasure and peace in the body?

A: While pleasures create sense gratification and release dopamine, peace creates serotonin, the hormone that regulates our emotions. A truly happy person is said to have both these neurotransmitters flowing abundantly. To live with the 3 Ps of Happiness – Pleasure, Peace and Purpose – is to optimise our body's own chemistry for lasting wellbeing.

Source: *Pleasure Is Just The Tip Of The Happiness Iceberg* | Ch. 11: Enjoy The 3 Ps | Page 49

Q: Can peace and pleasure coexist?

A: Happiness needs both pleasure and peace to be balanced in a way that we can enjoy both. While we enjoy pleasure, the passion for pleasure should not steal our peace. Therefore, peace should be the foundation on which pleasure is built. We should lose neither. Happy is the person who is content and peaceful but who continues to enjoy the pleasures that he has achieved.

Q: What wisdom do wise people hold about yesterday and tomorrow?

A: Some wise people have rightly said, 'The past is history, forget about it! The future is a mystery, don't worry about it! Today is the pastry, enjoy it!' If you want to eat the pastry tomorrow, you will lose the pastry and the joy of eating it. We must enjoy pleasure but we must never forget that pleasure is just the tip of Happiness. Q: How does the mind make us its slave?

A: Somebody asked a man riding a horse, 'Where are you going?' The man honestly replied, 'I don't know! Ask the horse.' So many of us make our mind the boss. We experience a great loss! Q: Why does the mind want to keep us in pleasure?

A: As long as the mind bombards us with thoughts, it offers us entertainment but it will hide Enlightenment from us. We will not Realize the Truth that we are living chasing such a tiny part of

Q: How does moving from mind to Consciousness give happiness?

A: In Consciousness, we are able to use our intellect to discriminate black from white and wrong from the right. When we flip to Consciousness, we activate the intellect. Q: How does the Law of Karma relate to happiness?

A: This world is governed by Divine universal laws. If we want to be happy, we must accept. Once we accept, we must put in our best efforts. While we can't control the result of our deeds because it is based on our past Karma, our present Karma or actions are within the domain of our choice. We have the willpower and the intellect to discriminate, choose and act.
