THE 3 STEPS – AWAKENED, ENLIGHTENED, LIBERATED

Q: Why does Enlightenment seem impossible in one lifetime?

A: The journey of Enlightenment often seems impossible to attain in one lifetime. It is too steep, too difficult a peak to scale. This is because we are trying to jump into Enlightenment as though it is just one 'Aha' moment, one discovery or just one achievement. If one truly wants to attain Spiritual Awakening, one must choose the 3-Step method to Enlightenment. First, being Awakened, then being Enlightened and ultimately, being Liberated and united with the Divine.

Q: What is the first step?

A: The first step is to be Awakened — to wake up from the slumber of ignorance and realize who we truly are. This process needs Purification and Illumination. Once there is complete Realization, we climb from being Awakened to being Enlightened. We become free from the ignorance that

imprisoned us. We cut the strings that tied our wings, and we are able to fly in the sky as we overcome every lie and discover without any doubt the truth of, 'Who am I?'

I AM NOT THE BODY

Q: Who am I, really — am I this body?

A: We live and die without Realizing the Truth of 'Who am I?' We confidently say, 'I am Robert or Rachel,' but that is just a name given to the body after it is born. One day, this body will be gone. Then what happens to the 'I'? We are dead. Nobody calls the dead body by name. It is the body of the one who has departed. But where did the deceased one go? Do we know?

Q: Why is our birthday a 'fake' date?

A: We were conceived 9 months before, when a sperm and an ovum from our parents fertilized. The moment the zygote was created and implanted in our mother's womb, our journey of life began. Little do we realize that we are not this body that we appear to be. The body is formed over 9 months and arrives as a little baby of 25-billion cells. Ultimately, it grows into a 35-trillion celled adult. But it all starts with one cell, the zygote.

Q: Why do we say 'I have a body' rather than 'I am the body'?

A: While it is clear beyond doubt that we are not the body, although we have a body, which is our habitat, we don't Awaken to the Truth that I am not the body. We live as the body and suffer pain in

vain. We cry in fear of death because we believe the lie that I will die. When we Awaken to the Truth that we are not the body, we start our journey of Enlightenment.

I AM NOT THE MIND

Q: Have you ever seen the mind?

A: Have you ever seen the mind? What is its size, its shape and its colour? Now think about the brain, the heart, the kidneys and the lungs. We know what they look like and we know exactly where they are located. But nobody has seen the mind. How can anybody see a mind that does not exist? No doubt, we all appear to have a mind. But what is the mind, in reality? The mind is nothing but a bundle of toxic thoughts. It is best understood as MIND – Misery, Ignorance, Negativity and Desire.

Q: How does the mind create misery?

A: When toxic thoughts bundle together and pour on us like rain, the mind creates misery and pushes us down the drain. Thoughts that create fear, worry, stress, anxiety, regret, shame and guilt, make us miserable again and again. When we spend time in meditation or silence, the mind seems to disappear. As we slow down the MTR, the Mental Thought Rate, the mind, which is like a monkey, becomes a monk.

Q: Why does the mind fight so hard to exist?

A: The mind tries very hard to convince us, 'I am I. This is mine,' because the moment we discover there is no mind, the mind will be dead. So, the mind fights very hard to exist in our head. It confuses us and makes us believe that our brain is the mind. It makes us blind and pushes the truth behind. The toxic thoughts of the mind create fear and worry, anxiety and stress. We must still the mind. We must kill the mind! Then, who we truly are, we can find!

Q: If I am not the body and not the mind, who am I?

A: If I am not the body and I am not the mind, who am I? By now, we should be wide awake, and we should be absolutely clear that we have a body but we are not the body. The mind appears to be, but it is nothing but a bundle of toxic thoughts. However, if I am not the body and I am not the mind, who am I? We exist. Is there any doubt? No, there is no doubt. Q: What does 'ME' (Mind and Ego) stand for?

A: Unless the ego that stands tall like a wall has a fall, we will continue to crawl. However, when we realize that I am not the body that will die, I am not 'I', we are Awakened. We discover that we are the Power of life that arrives at birth and departs at death. Q: What is the Power that gives breath?

A: Unless the ego that stands tall like a wall has a fall, we will continue to crawl. We will live as the Mind and Ego, ME, and when the body dies, we will carry our unsettled Karma and return to earth in a rebirth. We will never be Awakened. However, when we realize that I am not the body that will die,

I am not 'I', we are Awakened. We discover that we are the Power of life that arrives at birth and departs at death. We are the Power that gives breath!

Q: How does ego create the illusion of 'me' and 'mine'?

A: The mind tries very hard to create a false ego that calls itself, 'me'. Every human being thinks that they are the body, mind and ego. But when the ego realizes that I have a body but I am not the body, I appear to have a mind but there is no mind, then the ego is Awakened. The ego is Enlightened. It begins to ask the question, 'Who am I, in reality?'

Q: Why is the Enlightened ego the gateway to the Soul?

A: If I am not the body and I am not the mind, who am I? By now, we should be wide awake, and we should be absolutely clear that we have a body but we are not the body. The mind appears to be, but it is nothing but a bundle of toxic thoughts. However, if I am not the body and I am not the mind, who am I? We exist. Is there any doubt? No, there is no doubt. We are born and one day, we will be gone.

THE SOUL – SPARK OF UNIQUE LIFE

Q: What is the Soul?

A: The Soul is the Spark Of Unique Life. It is that spark of energy that gives us a unique life from birth to death. The Soul itself is birthless and deathless, for it is life energy. Energy cannot be created or destroyed. It can only be transformed from one form to another. The Soul is the first sign of our existence. It is that spark that causes the zygote to be born. While we understand that the

Soul energy is the life energy throbbing inside us, what we don't discover is that we are the Soul. We think we have a Soul. But this is wrong. We don't have a Soul. We are the Soul.

Q: What is the fourth Awakening?

A: In the journey of being Awakened, the first part is to discover who we are not. 'I am not the body. I am not the mind.' Then the ego is Enlightened to realize, 'I am not I, but I am something, what am I?' Then comes the fourth Awakening, 'I am the Soul. I am that Spark Of Unique Life. Q: What happens to the Soul after death?

When the ego is Enlightened, it realizes that I am not the body that will die. I am not the mind I cannot find. I am the Soul. Where does the Soul go after we die? SIP – THE SUPREME IMMORTAL POWER (GOD)

Q: What is SIP?

A: The Soul is the Spark Of Unique Life. This life energy comes from a source and ultimately, it goes back to its source. My Soul is different from your Soul. But ultimately, every Soul comes from one source of Divine Energy. The power in your television has a different switch just as the lights have different switches. But the energy in your house is coming from the main switch, the source. So also, every Soul is coming from the Power that is omnipresent, that is Supreme, that is invisible but immortal. We call this Power, SIP, the Supreme Immortal Power.

Q: Where does the Soul go after death?

A: Where does the Soul come from? When we strike a match from a matchbox, where does the fire come from? That strike of the match creates the fire. So also, the strike of the Soul creates life in the zygote. When we blow out the fire in a matchstick, where does the fire go? Similarly, when the body

dies, the Soul becomes one with SIP, the Supreme Immortal Power. This truth must be realized. It is not knowledge you can learn in a college. We must Awaken to this Truth.

Q: What are the qualities of God?

A: God is a Power that is nameless, formless, birthless, deathless, beginningless and endless. God is omnipresent, present everywhere; omniscient, all-knowing; and omnipotent, the all-powerful supreme intelligence. We are not the five elements that make the body. We are the Power, the Spark Of Unique Life and this Power flows into the Universal Power that fills the whole world. KARMA, LIBERATION & UNIFICATION

Q: What is Karma?

A: The journey of Spiritual Awakening takes a turn when we discover what we are not and ultimately discover that we are none other than a Divine manifestation. We are then, immediately free from the triple suffering on earth. We become free from the body, mind and ego. In that moment of Divine Awakening, we get a spark that we are not the Karmic beings that came to this earth. Awakening makes us free from rebirth. As I am not the body, mind and ego, I have no Karma. I do no Karma. I am a Divine instrument. Whatever I do, SIP is doing through me.

Q: Who actually owns the Karma — body, mind, or ego?

A: Who does the Karma belong to? Does Karma belong to the body, the actor? Or does Karma belong to the mind and ego, ME, the director? But when we realize that we are none of these, we are the Divine Soul, we become a part of the Creator. The Soul has no Karma. So, we become free from Karma. Q: What is Liberation?

A: Every 'body' must die but most of us return to earth in a rebirth. Only a rare few are Spiritually Awakened. Their Self-Realization, which leads them to God-Realization, helps them achieve the ultimate goal of Liberation from the cycle of death and rebirth. When one is Awakened to the Truth that I am the immortal Soul, not the body, mind and ego, he is free from Karma. Once there is no Karma, there is no need to return to earth in a rebirth. When one is Awakened, there is no mind and ego, ME, to carry Karma. When the body dies, the Soul unites with SIP and that is our ultimate goal. The Awakened One makes death a moment of celebration because there is Liberation from all suffering and Unification with the Divine. Alas, most of us live in deep ignorance and do not discover the simple truth. We do not answer the two most important questions of life – Who am I? Why am I here?

Q: Why is death called a moment of celebration?

A: Most people fear death because they don't realize that they are the Divine Soul. The Awakened One makes death a moment of celebration because there is Liberation from all suffering and Unification with the Divine. Alas, most of us live in deep ignorance and do not discover the simple truth. We do not answer the two most important questions of life – Who am I? Why am I here?

Q: What is the one purpose of every human being?

A: At death, there are only two possibilities. In most cases, when the body dies, the Mind and Ego, ME, carries Karma and returns to earth in a rebirth. When one is Awakened, there is no mind and ego, ME, to carry Karma. When the body dies, the Soul unites with SIP and that is our ultimate goal. In fact, every human being on earth has this one purpose - to be free from the cycle of rebirth. People call it Salvation, Nirvana or Moksha.
