

Life is to Transcend the Lower Self and Attain the Higher Self

TOPIC: THE LOWER SELF AND HIGHER SELF

Q: What is the Lower Self?

A: The Lower Self is the false ego that thinks, 'I am the body and mind that suffers.' It is the body, mind and ego complex. As long as we live as the Lower Self, the body, mind and ego, we will suffer and cry! We will not discover the truth of, 'Who am I?' The Lower Self makes us blind — it does not let us find the truth of who we are and why we are here. We believe that we are this body which will ultimately die. But this is a lie.

Q: What is the Higher Self?

A: The Higher Self is the Divine Soul, the Spark Of Unique Life (SOUL), our true identity. Once we transcend the Lower Self, our ego is Enlightened. We Realize the Truth — we are the immortal Soul. We are blessed with Eternal Peace, Divine Love and Everlasting Bliss. The Higher Self is free from the triple suffering of the body, mind and ego.

Q: Why should we transcend the Lower Self?

A: We should transcend because as long as we live as the Lower Self, we will suffer and cry. The Lower Self makes us suffer the pain of the body, misery of the mind and agony of the ego. We must transcend, go beyond and evolve from the Lower Self to the Higher Self. We must realize that we are the Divine Soul, that Spark Of Unique Life.

Then, we can live a life of Eternal Peace, Divine Love and Everlasting Bliss.

Q: What are the symptoms of the Lower Self?

A: The symptoms of the Lower Self are anger, hate, revenge, jealousy, pride and greed. All these reveal the Lower Self but greed is the lowest of them all. The ego that says 'I', leads us into suffering. We burn with anger. We naturally develop jealousy. Then revenge grows and hate becomes a bait because 'I want to be the best. I want more. I want to defeat others.' The 'I' can make us suffer and die.

Q: How does the Lower Self trap us?

A: The Lower Self traps us through ignorance — the deep-rooted ignorance that makes us sink as we blink as slaves of the toxic mind. The mind makes us blind. It does not let us find the truth that I am not this. I am that! Living as the body, mind and ego, we will never be content. We are imprisoned behind the bars of the Lower Self and don't discover the stars of the Higher Self.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 7: From Ignorance To Intelligence, Page 43

Q: What is the difference between the Lower Self and Higher Self in terms of happiness?

A: The Lower Self's happiness has only 2 Ps — Pleasure and Pain. The Higher Self transcends to Happiness with 3 Ps — Pleasure, Peace and Purpose. As long as we live as the Lower Self, we are only running after pleasure and more pleasure. As we eliminate the mind, peace, we automatically find. Then the ego is Awakened and we discover our purpose. In that moment, we are free from all misery of the Mind and Ego.

Q: How can we begin the journey from the Lower Self to the Higher Self?

A: Every journey needs preparation. But the journey of Transcendence needs a lot more than just preparation. It needs Initiation. It needs an Enlightened Master, a Guru. To transcend the Lower

Self, an Enlightened guide must mentor us. With passion, persistence and patience, we need to chip away, little by little of what we are not, to arrive at that blissful Awareness of what we truly are.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 4: Let's Start The Journey, Page 37

Q: Is the Higher Self different from who I am now?

A: The Higher Self is not different — it is who we truly are. We are so caught in lust that we just don't get to the root to understand the truth. Transcendence is a faraway thing. We don't even understand that the purpose of our life is to discover the purpose of life. We just live and die, without discovering, 'Who am I?' believing the lie that God lives in the sky, when in reality, God is none other than 'I'.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Preface, Page 5

Q: What is the ultimate purpose of life?

A: The purpose of life is to discover the purpose of life. It is transcending the Lower Self and evolving to the Higher Self. Transcendence is the Realization that we are not the Mind and Ego, ME. It is the Realization that the body comes from the 5 elements and returns to the 5 elements. The mind doesn't exist. When the ego is Enlightened with this truth, we realize that we are the Divine Soul. This is achieving our ultimate goal.

Q: What is the reward of transcending the Lower Self?

A: When we transcend, we let go of the Lower Self and attain the Higher Self. As we transform our life, going through a metamorphosis, we attain a state of Eternal Happiness, unknown to the common man. Transcendence rewards us with freedom — not just freedom from the pain of the body but also freedom from the misery of the mind. But the biggest reward is freedom from the agony, the anguish caused by the ego.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 2: Rewards Of Evolution, Page 33

Q: Can everyone transcend the Lower Self?

A: Only a human being is blessed to transcend and evolve. No other creature can be Enlightened. Although they too are none other than the Soul, they cannot achieve this goal. We humans are blessed with an intellect. It is our choice — do we want to crawl

like a worm or fly like a butterfly? Do we want to drag through life as a human being or do we want to dance through life with the euphoria of Divine Love and ecstasy of bliss?

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 40: From Lower Self To Higher Self, Page 110

Q: How does the ego relate to the Lower Self?

A: It's time to understand that we have a Lower Self, the ego that thinks, 'I am the body and mind that suffers.' The ego that stands tall like a wall has a fall! There is a profound Realization that we may appear as the river that is gurgling and flowing majestically but ultimately, we will merge with the ocean. The Lower Self fails because the body, mind and ego imprison the Lower Self in ignorance.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 19: From Pride To Humility, Page 67

Q: What happens if we never transcend the Lower Self?

A: If we don't move from the Lower Self to the Higher Self, we will continue to suffer, cry and ultimately, die. To save us from this disaster, we need a Divine Master. We need to transcend, to overcome ignorance and to Realize the Truth. If we just live and die but we don't find out, 'Who am I?' then we will suffer and cry. We will be gone and we will be reborn. The purpose of human birth is Realization and Liberation.

Q: What is the journey of life according to this book?

A: Life is ultimately a journey of evolution — not from an ape to a man but taming the monkey mind and becoming a Divine monk. It is about transcending the false ego and living as an Enlightened Ego. This is the very purpose of human existence. We can continue to crawl like a worm and cry, or Transcend and open our wings and fly!

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 40: From Lower Self To Higher Self, Page 109

Q: What is the process of Transcendence?

A: The journey of Transcendence starts with a quest. It needs the help of an Enlightened Master or a Guru. Then, we go through the process of Purification and Illumination, till there is Realization of the Truth. This book will start the process of Purification, Illumination and ultimately, Liberation from all misery on earth and the cycle of rebirth. Transcendence means an end to all confusion as we arrive at the conclusion.

TOPIC: THE SELF – WHO AM I?

Q: Who am I in reality?

A: Who am I in reality? Am I this body that will die? How can I be this body? This body came later! I was conceived 9 months before. Once implanted, I can't change my mother! I am alive and kicking before my Arrival Date, which foolishly, I celebrate as my

Birthday. One day, this body will die and people will destroy it. Our loved ones know, for sure, that this is not 'I'. But I am. So, who am I? The journey of Transcendence is realizing, 'I am the Divine Soul.'

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Introduction, Page 6

Q: Are we the body?

A: The first Transcendence is to let go of the body. I have a body but I am not the body. If I cling to this body, suffering will continue. To transcend the Lower Self, one must let go of the belief that I am thin. I am fat because the body is not me! What are we, in reality? We are not the body. We know it beyond doubt. If we are not the body and mind, who are we? We are the Soul, that Spark Of Unique Life that is throbbing within.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 5: From Body, Mind And Ego To The Soul, Page 39

Q: Are we the mind?

A: We realize that there is no mind. Nobody has ever seen the mind because it does not exist. It is just a bundle of toxic thoughts in which we are caught. The mind is nothing but a bundle of toxic thoughts. It is the biggest enemy of Transcendence. What, then, fools us into believing that we are the mind? But there is no mind! We are absolutely sure. If we are not the body and mind, who are we? We are the Soul.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Introduction, Page 7

Q: What is the Soul?

A: The Soul is a Spark Of Unique Life. It is life energy. It comes from SIP, the Supreme Immortal Power. That Power makes the heart beat. That gives us breath from birth to death. It is that Power that makes us walk and talk. The Power of the Soul is the Consciousness that gives us life. Just like energy cannot be destroyed or created, this life energy, that is our true identity, is birthless and deathless.

Q: What does 'Neti Neti' mean?

A: The journey of Transcendence is best achieved with the help of the ancient Mantra of two words — Neti Neti. Neti means not this. We must contemplate Neti Neti — not this body, not this mind. When we live in awareness that we are Neti — not this body; Neti — not this mind, it is this Neti Neti which can Enlighten us. The false ego transcends the Lower Self and attains the Higher Self. I am not the body and mind.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part A, Chapter 5: Neti Neti – Transcending What I Am Not, Page 25

Q: What does 'Tat Twam Asi' mean?

A: Tat Twam Asi means That Thou Art. The journey of Transcendence is moving from the lower to the higher self. Unless we take our foot off the lower step, we cannot put our foot on the next, the higher step. Unless we let go of the body and mind with Neti Neti, we cannot arrive at the Realization of Tat Twam Asi. Therefore, 'Neti Neti, Tat Twam Asi,' means, 'Not This Not This, Thou Art That.'

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part A, Chapter 6: Tat Twam Asi – I Am That, The Soul, Page 26

Q: Why do we think we know who we are?

A: We all think we know who we are! I know who I am. I know that I am a name, an identity. I am identified by family, job, career, religion, nationality. In the modern world, we are identified by our biometrics, fingerprints and by means of face recognition. But is this who we truly are? When we look in the mirror, we identify the one that we see as 'me'. But this 'me' is just the body. Our name is only an identity. Even our body is not 'I'.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part A, Chapter 1: We All Think We Know Who We Are, Page 9

Q: What is Self-Realization?

A: In the light of truth, we experience the glow of Realization. I am not the body. I am not the mind. I am the Divine Soul. This is Self-Realization. The journey of Transcendence takes us from Self-Realization to God-Realization. 'Neti Neti Tat Twam Asi,' is the first step. 'I am the Divine Soul,' begins the next journey. The Realization will make us dance with joy and bless us with Divine Love, which is greater than any romance.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part A, Chapter 7: Realizing The Truth, Page 29

Q: Why is it important to first understand who we are not?

A: To understand who I am, first, we must understand who I am not. Only then can we start our quest. We must have the courage to put all our beliefs to the test. In the journey of transcending the Lower Self and attaining the Higher Self, life challenges us first, to realize what we are not. If it was so easy to attain Self-Realization, this whole world would not be living in ignorance, thinking that we are the body, mind and ego.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part A, Chapter 5: Neti Neti – Transcending What I Am Not, Page 24

Q: What is God-Realization?

A: The journey of Transcendence takes us from Self-Realization to God-Realization. When we realize that we are the Divine Soul, then the Realization that I am a Divine manifestation reveals the truth — that we are not the different bodies that we appear to be. We are, in essence, different Souls that are ultimately, one energy. This energy is God energy. It is SIP, the Supreme Immortal Power, that manifests as you and me.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 39: From Duality To Non-Duality, Page 108

Q: What is Consciousness?

A: Consciousness is a state of Thoughtlessness where there is complete Awareness. Some people call it Mindfulness too. The Mind and Consciousness are two sides of the same coin. Either the mind is on top or Consciousness is. When one appears, the other disappears. Imagine a sunny day with a bright blue sky. Suddenly, dark clouds appear. The sun and the blue sky disappear. They are only covered by the dark clouds. So also, the mind covers Consciousness.

Q: What is Enlightenment?

A: What is life all about? The journey of LIFE is Liberation from Ignorance and Finding Enlightenment. To be Enlightened, we must be liberated from the deep-rooted ignorance that makes us sink as we blink as slaves of the toxic mind that makes us think. The mind makes us blind. It does not let us find the truth that I am not this. I am that! Life is Liberation from Ignorance and Finding Enlightenment.

Q: Are we manifestations of God?

A: The fact is that each one of us is a Divine Soul. We are manifestations of God. Spirituality makes us realize that we are nothing. God is everything. But that God does not belong to a religion. God is SIP, the Supreme Immortal Power. We are manifestations of the Divine. Every tree has life and every animate entity is God. Not only the animate but even the inanimate entities like the mountain and the sea are manifestations of the same energy.

Q: What does it mean to live as 'I Am Not I'?

A: Do you want to let go of all the misery on earth? Do you want to live with peace, joy and mirth? The good news is that you can! If only you transcend, 'I,' and evolve to, 'I am not I,' you will be free from the pain of the body, misery of the mind and agony of the ego. When we realize, 'I am not I,' then, not only are we free from the pain of the body but we are also free from the misery of the mind.

Q: What is the truth about our identity?

A: We are not the body, mind and ego. We are the Divine Soul, just as the caterpillar is none other than the butterfly. But till the metamorphosis is complete, the worm continues to crawl. We too crawl through life thinking that I am the body, mind and ego. We don't transcend to the Higher Self. Each of us is the Divine Soul. But because there is no Transcendence, we don't achieve our ultimate goal.

TOPIC: THE MIND

Q: What is the mind?

A: What is the mind? Is it round? What is its colour and size? Nobody knows! Nobody has seen the mind. But for sure, it seems to exist! It is a bundle of toxic thoughts. These toxic thoughts pour like rain. They push us down the drain. This is the mind that makes us miserable, again and again. It creates fear, worry and stress, and makes our life a mess. We recognize it because it causes anxiety and steals our tranquillity. But the mind is the Lower Self. In reality, it does not exist.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 21: From Mind To Consciousness, Page 71

Q: Why is the mind our enemy?

A: There is a rascal, a thief, called the mind. When the mind appears, it brings with it fear, worry, stress, anxiety, regret, shame and guilt. This aggression of toxic thoughts leads us into depression. The mind goes to the past and creates regret, shame and guilt with its thoughts. Then the mind jumps to tomorrow and creates stress, worry and anxiety. The mind is bombarding us with a thought every second. Where there is mind, there can be no peace.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 21: From Mind To Consciousness, Page 71

Q: How does the mind create suffering?

A: As long as we continue to honour the mind as king and talk very highly about the mind, we will continue to suffer and be blind. It is the mind that is the monkey that is swinging from one toxic thought to another. The mind makes us miserable because we lose the gift of the present moment! The 'I' wants everything. There is no end to the desires of a human being. The mind goes to the past and creates regret. Then the mind jumps to tomorrow and creates anxiety.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 9: From Anxiety To Tranquillity, Page 48

Q: What is the monkey mind?

A: We have all heard of the theory that man has evolved from monkeys. But the unfortunate truth is that we are still monkeys. As long as the mind jumps into yesterday that is gone and tomorrow not yet born, we will continue to struggle and not enjoy the peace of a monk. We are human 'beings' but our monkey mind has made us into human 'doings'. All the time we are doing and doing. There is no time for being. The journey of Transcendence is about evolving from a monkey to a monk.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 28: From Monkey To Monk, Page 85

Q: How do we still the mind?

A: The way to transcend the Lower Self and attain the Higher Self is to move from ignorance to intelligence. The only way to do this is to stop using the mind and start using the intellect. We can slowly still the mind as we move from a state of mind to a state of Consciousness. We need to eliminate something. The moment we still the mind, peace, we can find. When we cut the tail of the monkey, the EY, that anxiety has tranquillity within.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 22: From Using The Mind To Using The Intellect, Page 73

Q: What is the difference between the mind and the intellect?

A: We, human beings, are the only species who are blessed with a fully developed intellect. We can differentiate between black and white and wrong and right. Unfortunately, the intellect is not always active. It is deactivated by the mind. The mind, which is nothing but toxic thoughts, deactivates the intellect and we do not evolve to the Higher Self that we truly are. When we stop using the mind and start using the intellect, that is the journey of Transcendence.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 22: From Using The Mind To Using The Intellect, Page 73

Q: What is the relationship between mind and anxiety?

A: Isn't it common for us to live in stress and make our life a mess? How many of us suffer anxiety attacks? Why? We continue to have anxiety because we lose our tranquillity, just as we jump into a yesterday that is gone and then, to a tomorrow that is not yet born. Because of this shuttling from yesterday to tomorrow, we are filled with misery and sorrow. But if we eliminate the mind, if we still it and kill it, we will not have anxiety.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 9: From Anxiety To Tranquillity, Page 47

Q: How does the mind react versus the intellect responding?

A: Why is it that we react and become miserable? We get angry, we get upset. It is because we live in the Lower State of being. We don't transcend the Mind and Ego, ME. The Higher Self learns to respond, not react. When it comes to the Lower Self, it is RDX — React, Destroy and eXplode. It is the rascal mind that inflates the ego and spontaneously reacts without reflection. Once we react, it's done. We can't delete it. The Higher Self responds with the intellect.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 18: From Reacting To Responding, Page 65

Q: Can the mind be killed?

A: All this will happen when we try to find the mind. We will realize that there is no mind. Nobody has ever seen the mind because it does not exist. We must still the mind and kill the mind. Only then, freedom we will find! When we realize that we are not the body or mind but we exist, then we evolve from the unreal to the real. The journey of Transcendence means taming the monkey mind and making it a monk.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Introduction, Page 7

Q: What is the difference between living in the mind state and Consciousness?

A: I used to live in the mind state but now, I live in Consciousness, in Awareness. The Mind and Consciousness are two sides of the same coin. Either the mind is on top or Consciousness is. When one appears, the other disappears. Being in Consciousness with the intellect in charge is living a blissful life. When there is no mind, just thoughts, the intellect is able to discriminate and choose. Then, we don't lose the battle to the mind.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 22: From Using The Mind To Using The Intellect, Page 74

Q: How does the mind create the ego?

A: The mind creates the false ego that becomes ME — the Mind and Ego. It is the rascal mind that inflates the ego and spontaneously reacts without reflection. As long as we live as the Lower Self, we will burn in the agony and the anguish of anger, hate, revenge and jealousy. These toxic emotions of the Lower Self will destroy us. The mind and ego complex keeps us trapped as the Lower Self.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 18: From Reacting To Responding, Page 65

Q: What is the monkey-to-monk journey?

A: The journey of life is actually transcending the monkey and evolving to the state of a monk. A monk has overcome greed. A monk has been able to still the mind and kill the mind. A monk has overpowered passion and desire, just as a monk has replaced all negativity with positivity. A monk is the master of the mind. If we have a monkey in our head, we can tame this monkey mind and live as a peaceful, blissful monk.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 28: From Monkey To Monk, Page 86

Q: Why does the mind make us react with anger?

A: When we get angry, what do we do? We hurl our agony on the one who has raised our temper. Little do we realize that we are throwing burning hot charcoal on somebody that we are upset with. Before burning them, we burn our own hand that throws the fire! This is the ignorance of the Lower Self. As long as we are slaves of the Lower Self, we will burn in the agony and the anguish of anger, hate, revenge and jealousy.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 11: From Anger To Peace, Page 51

Q: How does confusing mind for intellect trap us?

A: Every journey of Transcendence needs an Enlightened Master, a Guru. Otherwise, we may evolve and we may choose to live with self-respect rather than arrogance but we will never attain

the Higher Self. The mind will fool us into believing that it is the intellect. While the mind is the cause of suffering and confusion, the intellect, when activated in Consciousness, is the tool that helps us discriminate and choose the right path.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 4: Let's Start The Journey, Page 37

Q: What replaces the mind when we transcend?

A: What is life all about? It is about moving from mind to Consciousness. It is flipping over from the mind to intellect. This is the journey of Transcendence, the journey from the Lower Self to the Higher Self. Being in Consciousness with the intellect in charge is living a blissful life. In this state of Consciousness, our intellect is activated. Man's greatest gift is his tool of discrimination, the intellect.

TOPIC: PEACE AND HAPPINESS

Q: What is true happiness?

A: True Happiness is Eternal Bliss that forever flows. As long as we live as the Lower Self, we live and die seeking pleasure. We spend our life trying to gratify our senses.

We never transcend and attain the state of Eternal Happiness. Happiness has 3 keys, which are the 3 Ps — Pleasure, Peace and Purpose. The Lower Self only enjoys pleasure, but the Higher Self transcends to Happiness with all 3 Ps.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 25: From Pleasure To The Real Treasure, Page 79

Q: How can we attain peace of mind?

A: As long as we are rooted in the ignorant 'I', we have no option but to suffer and die. Transcendence is climbing up higher than the foolish 'I'. It is realizing that I am not 'I'. It is Awakening to the Truth that we are all one. When we transcend the lower state of existence and evolve to the higher state of existence, stress and anxiety get replaced by peace and tranquillity. The moment we still the mind, peace, we can find. Peace is within.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 11: From Anger To Peace, Page 52

Q: What destroys our peace?

A: There is a rascal, a thief, called the mind. When the mind appears, it brings with it fear, worry, stress, anxiety, regret, shame and guilt. This aggression of toxic thoughts leads us into depression. The mind goes to the past and creates regret, shame and guilt. Then the mind jumps to tomorrow and creates stress, worry and anxiety. Immediately, any peace that we enjoy will cease because of our own mind. Where there is mind, there can be no peace.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 21: From Mind To Consciousness, Page 71

Q: Is pleasure the same as happiness?

A: Every human being in this world wants pleasure. Nobody wants pain. Unfortunately, we become miserable, again and again. Why? It is because we have not understood the true meaning of happiness. We think that happiness is pleasure. But pleasure is temporary. It comes and goes. True Happiness is Eternal Bliss that forever flows.

Those living as the Lower Self will enjoy pleasure but they will never discover the real treasure.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 25: From Pleasure To The Real Treasure, Page 79

Q: How does transcendence lead to peace?

A: With Transcendence, we can reach a state of Eternal Peace, Divine Love and Everlasting Bliss. Because we transcend the sufferer — the body, mind and ego — there is no suffering.

Transcendence creates that Consciousness, which makes us live as the Divine Soul. This Awareness of us being manifestations of the Divine, eliminates fear, worry and all causes of restlessness. As we eliminate the mind, peace, we automatically find.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 8: From Misery To Ecstasy, Page 46

Q: What is the way to overcome misery?

A: What is the way to always be glad and never be sad? Is there a way to overcome all misery and enjoy ecstasy in life? Yes. The way is Transcendence. When we let go of who we are not and discover who we truly are, we will reach a state of Eternal Happiness. For this, we need Transcendence. Who becomes miserable? Who is the sufferer? It is the body, mind and ego. The body suffers physical pain, the mind becomes miserable and the ego is agonized.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 8: From Misery To Ecstasy, Page 45

Q: What are the three keys to happiness?

A: We must find these 3 keys or the 3 Ps to unlock the real treasure of happiness — Pleasure, Peace and Purpose. While the Lower Self enjoys only pleasure, the Higher Self experiences all three. The Lower Self's happiness has only 2 Ps. The Higher Self transcends to Happiness with 3 Ps. This is because although we enjoy pleasure from the body, we realize that we are not the body. As we eliminate the mind, peace, we automatically find. Then we discover Purpose.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 25: From Pleasure To The Real Treasure, Page 80

Q: What is ecstasy and how do we experience it?

A: With Transcendence, we reach a state of Eternal Peace, Divine Love and Everlasting Bliss. We transcend the sufferer — the body, mind and ego — and so there is no suffering. This Awareness of being manifestations of the Divine eliminates fear, worry and all causes of restlessness. We are free from the agony of the ego, anger, hate, revenge and jealousy. This raises our Happiness index and we experience the state of Ananda, Eternal Happiness.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 8: From Misery To Ecstasy, Page 46

Q: Why do we lose peace when something bad happens?

A: We have a Lower Self, the ego that thinks 'I am the body and mind that suffers.' Imagine you are in a celebration party drinking champagne and eating the most exotic food. Suddenly, there is some bad news of a death in the family or a disaster. The moment we lose peace of mind, happiness, we can no longer find. Some of us are running after success and achievement because we are seeking pleasure. True peace is only found when we transcend the Lower Self.

Q: How does contentment relate to happiness?

A: We all need water but when we sink as the Lower Self, we want Cola, wine and whiskey. There is no end to our wants. But our wants are not our needs. Satisfaction comes from fulfillment, and fulfillment is the sign of the Higher Self. The Higher Self will savour what it receives. It won't suffer if it doesn't receive. Transcendence changes the game. We replace greed with need. We exit the race for achievement as we gain grace with fulfillment.

Q: What does liberation from misery look like?

A: The journey of Transcendence has rewards that are far greater than the efforts. In doing so, we are free from the triple suffering on earth — pain of the body, misery of the mind and agony of the ego. The Higher Self is liberated from all the agony and anguish caused by the ego. Normally, one suffers because of anger, just as one burns in hate, jealousy and revenge. All this is caused by the

ego. The Higher Self transcends the ego. The ego is Enlightened and so, all the anguish vanishes.

Q: How can we live in peace, love and bliss?

A: What is the ultimate purpose of life? It is to be happy. As we eliminate the mind, peace, we automatically find. Then the ego is Awakened and we discover our purpose. In that moment, we are free from all misery of the Mind and Ego, ME. Having transcended all duality, the Higher Self enjoys the state of Divine Love that creates an ecstasy of joy. This love has no heartaches or heartbreaks because this Love emanates from the Soul, not just from skin to skin.

Q: What is the meaning of Ananda?

A: We are free from the agony of the ego, anger, hate, revenge and jealousy. This raises our Happiness index and we experience the state of Ananda, Eternal Happiness. We, human beings, think that this world is a circus. We all want to have fun. But we don't realize that the purpose of life is to discover the purpose of life. Only when we transcend do we experience Ananda — not mere temporary pleasure, but the everlasting state of Eternal Happiness.

Q: Why is fulfillment better than achievement?

A: Life is Liberation from Ignorance and Finding Enlightenment. But because we seem to be enjoying the roller coaster of achievement, we go round and round in the merry-go-round. The whole world is running a race. Everybody wants to be an ace. We think life is a chase. The Lower Self is stuck in the rut of achievement. When we transcend the Lower Self, we find fulfillment and Enlightenment, which is far greater than any achievement.

Q: Can happiness truly be eternal?

A: When we transcend, we let go of the Lower Self and attain the Higher Self. As we transform our life, going through a metamorphosis, we attain a state of Eternal Happiness, unknown to the common man. Transcendence creates that Consciousness, which makes us live as the Divine Soul. This Awareness of us being manifestations of the Divine, eliminates fear, worry and all causes of restlessness. Yes, Eternal Happiness is achievable through Transcendence.

TOPIC : FEAR AND FAITH

Q: What is fear?

A: Fear was actually given to human beings as an emotion to protect us from danger. It is an instinct that triggers our response to something that may cause us harm.

Unfortunately, living as the Lower Self, as the body, mind and the ego, fear creates a paralysis and stops us from enjoying our life. Fear comes from the mind. The mind bombards us with toxic thoughts that create FEAR — False Expectation Appearing Real. There is no inherent fear — it is manufactured by the mind.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 63

Q: How can we overcome fear?

A: The Higher Self transcends all fears. The list is unending — fear of sickness, fear of poverty, fear of the loss of love, fear of death and so on. We can fear in every breath but the Higher Self is free from fear. The Higher Self learns to live with FAITH — Full Assurance In The Heart. The Higher Self

needs no reassurance because there is Transcendence. When we transcend the Lower Self, our ego is Enlightened and fear dissolves.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 64

Q: What does FEAR stand for?

A: Fear comes from the mind. The mind bombards us with toxic thoughts that create FEAR — False Expectation Appearing Real. There is no inherent fear — it is manufactured by the mind. We are afraid that we will die. We pray to a God in the sky. We suffer and cry because we believe the lie! We have been taught the myth and so, we don't Realize the Truth. We are filled with ignorance and live in fear instead of faith.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 63

Q: What does FAITH stand for?

A: The Higher Self learns to live with FAITH — Full Assurance In The Heart. The Higher Self needs no reassurance because there is Transcendence. The Higher Self is free from fear. The Higher Self knows that I am the immortal Soul. I will never die. The body may go through some disease but that is not 'I'. Transcendence replaces FEAR with FAITH — from False Expectation Appearing Real to Full Assurance In The Heart.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 64

Q: Why do we fear death?

A: We are afraid that we will die. We pray to a God in the sky. We suffer and cry because we believe the lie! We have been taught the myth and so, we don't Realize the Truth. We are filled with ignorance. Every 'body' has to die but the fact is that the body returns to dust as we burn it or bury it. The truth is that you will never die. Of course, the body will die. But you are not the body that will die. The Soul is immortal.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 36: From Death To Immortality, Page 101

Q: What is the relationship between ignorance and fear?

A: We are afraid that we will die. We pray to a God in the sky. We suffer and cry because we believe the lie! What can we do? We have been taught the myth and so, we don't Realize the Truth. We are filled with ignorance. We are warned that it is blasphemous to question our religion and therefore, we believe that God lives in the sky. Instead of living with faith, we live in fear. Ignorance is the root of fear; Transcendence and Realization replace fear with faith.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 7: From Ignorance To Intelligence, Page 43

Q: How does transcendence dissolve fear?

A: The Higher Self knows that I am the immortal Soul. I will never die. The body may go through some disease but that is not 'I'. The Higher Self transcends all fears. The list is unending — fear of sickness, fear of poverty, fear of the loss of love, fear of death and so on. We can fear in every breath but the Higher Self is free from fear. When we transcend and realize we are the immortal Soul, fear has no basis.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 64

Q: Why do we worry about the future?

A: We don't have anxiety because we lose our tranquillity, just as we jump into a yesterday that is gone and then, to a tomorrow that is not yet born. Because of this shuttling from yesterday to tomorrow, we are filled with misery and sorrow. How do we live life? We live our lives by constantly anticipating the outcome of our actions. We have not learned the simple truth of life that while we

have control over our action, we have no control over the fruit of action.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 14: From Anticipation To Surrender, Page 57

Q: What is the fearless state of the Higher Self?

A: Fear becomes faith and hate goes out of the gate. Our life is transformed as we let the Lower Self dissolve into nothingness. Then, the Higher Self emerges, blessing us with peace, love and bliss. The Higher Self is free from fear. It is always in a state of Eternal Peace, Divine Love and Everlasting Bliss. It's our choice. Do we want to crawl like a worm or fly like a butterfly? The fearless Higher Self soars.

Q: Why do people develop phobias?

A: We all experience fear and sometimes, this fear makes us paranoid. We develop phobias too. But what is the cause of this fear? Fear comes from the mind. The mind bombards us with toxic thoughts that create FEAR — False Expectation Appearing Real. Living as the Lower Self, as the body, mind and the ego, fear creates a paralysis and stops us from enjoying our life. These actions are of the Lower Self that is trapped in fear.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 63

Q: What happens to fear when we realize we are the Soul?

A: The Higher Self knows that I am the immortal Soul. I will never die. The body may go through some disease but that is not 'I'. The Higher Self transcends all fears. Just as anxiety has tranquillity within, fear has faith within. The truth is that peace we don't have to find. It is within. When we realize we are the Divine Soul that never dies, the very foundation of fear collapses and Full Assurance In The Heart takes its place.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 64

Q: What is the fear of death?

A: If you ask anybody, 'Will you die?' what is the answer that you will most likely get? 'Of course, I will die!' Eventually, everybody has to die. But those who transcend the Lower Self will evolve to realizing that they are an Immortal Soul that is deathless. The truth is that you will never die. Of course, the body will die. But you are not the body that will die. We all have a body. But we are not the body.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 36: From Death To Immortality, Page 101

Q: Is it possible to live without fear?

A: The Higher Self is free from fear. It is always in a state of Eternal Peace, Divine Love and Everlasting Bliss. The Higher Self learns to live with FAITH — Full Assurance In The Heart. When we transcend the Lower Self, we realize that we are the immortal Soul. I will never die. The body may go through some disease but that is not 'I'. Yes, it is absolutely possible to live without fear through Transcendence.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 64

Q: How does fear relate to the ego?

A: The ego is agonized as the Lower Self. The ego that says 'I' — 'I will fail,' 'I will be hurt,' 'I will lose,' — creates endless fear. These actions are of the Lower Self that is trapped in fear. As long as we live as the Lower Self, we will burn in the agony and the anguish of fear, anger, hate, revenge and jealousy. These toxic emotions of the Lower Self will destroy us. When we transcend the ego, fear dissolves.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 17: From Fear To Faith, Page 64

Q: How does surrender replace fear?

A: The Higher Self is able to still the mind and kill the mind. We don't swing like a pendulum to a past that is gone and a future not yet born. There is no anticipation or expectation. There is complete surrender. Total Transcendence means total surrender. When we have surrendered completely, we have destroyed the Lower Self. We are Awakened as the Higher Self. We have conquered the mind. The ego is Enlightened.

We realize that we are nothing and in that moment, we achieve everything.

TOPIC 6: EGO, PRIDE, AND HUMILITY

Q: What is the ego?

A: The ego is only an identity. But the Lower Self makes it our reality, which we are not. The ego that says 'I', 'me' and 'mine' — the ego is the false self. The ego that stands tall like a wall has a fall! The Lower Self is stuck in the ego. It is the ego that suffers and it is the ego that makes us suffer. When the ego is Enlightened with the truth that we are the Divine Soul, we realize the meaninglessness of getting angry.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 20: From Selfishness To Selflessness, Page 69

Q: Why is pride a trap of the Lower Self?

A: Who am I? Why am I here? This is realized when we transcend the Lower Self and attain the Higher Self. The ego that stands tall like a wall has a fall! We compete and kill because we are ignorant. We live with 'I' and we continue to cry. Because we are ignorant, we live with pride. There is a profound Realization that we may appear as the river that is gurgling and flowing majestically but ultimately, we will merge with the ocean.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 19: From Pride To Humility, Page 67

Q: How does humility emerge through transcendence?

A: Why is it rare to find humble people? Because most of us are imprisoned behind prison bars of ego, pride and selfishness. We think that we are the centre of the world and that everything revolves around us. But what are we in reality? We are not even a speck of a speck of a speck of a speck. Humility emerges when we transcend the ego and realize that we are nothing, and this nothingness makes us everything.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 19: From Pride To Humility, Page 68

Q: What is an Enlightened Ego?

A: Life is ultimately, a journey of evolution — taming the monkey mind and becoming a Divine monk. It is about transcending the false ego and living as an Enlightened Ego.

This is the very purpose of human existence. When the ego is Enlightened with this truth, we realize that we are the Divine Soul. This is achieving our ultimate goal. The Enlightened Ego does not say 'I am the body.' It says, 'I am the Divine Soul.'

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 40: From Lower Self To Higher Self, Page 109

Q: How does selfishness arise from the ego?

A: Why are we selfish? Why are we so self-centred? We believe that we are everything. Nobody else matters! It is because of our ego — 'I', 'me' and 'mine'. The ego is only an identity. But the Lower Self makes it our reality, which we are not. When we overcome our ignorance and Realize the Truth, we transcend the Lower Self and attain the Higher Self. By doing so, we become free from anger, hate, revenge and jealousy. There is no pride or greed. Our selfishness becomes selflessness.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 20: From Selfishness To Selflessness, Page 69

Q: What happens to selfishness when we transcend?

A: When we overcome our ignorance and Realize the Truth, we transcend the Lower Self and attain the Higher Self. By doing so, we become free from anger, hate, revenge and jealousy. There is no pride or greed. Our selfishness becomes selflessness. The magic is the Realization that we are all one. Everybody loves those who share and those who care. When we realize that we are all manifestations of the Divine, selflessness flows naturally.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 20: From Selfishness To Selflessness, Page 69

Q: How big is the ego in the grand scheme of things?

A: What are we in reality? We are not even a speck of a speck of a speck of a speck. We are a tiny speck in our city. Our city is a tiny speck in our country. Our country is a speck on the earth. And the earth is a speck in the solar system. When we think that we are the centre of everything, this is the ignorance of the Lower Self. Transcendence gives us the perspective to see ourselves as we truly are — a Divine manifestation, part of the whole.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 19: From Pride To Humility, Page 68

Q: What is the relationship between ego and revenge?

A: Don't we often struggle as the Lower Self, burning to get even with somebody who has harmed us? 'I will kill you!' says the ego, 'Just let me get a chance and I will destroy you!' Why do we want to take revenge? Does revenge actually make us happy? No.

On the contrary, it pushes us into a state of desperation and depression. The toxic thought of revenge continues to drill us and kill us, as we lose the beautiful moment, the present.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 10: From Revenge To Forgiveness, Page 49

Q: How does forgiveness dissolve the ego?

A: When we evolve as we transcend the Lower Self, we live in the Consciousness that we are all manifestations of the Divine. We live with the Awareness that we may be different human beings on earth, but ultimately, the Higher Self Awakens to the Truth that as the Soul, the Spark Of Unique Life, we are all effects of one cause. Ultimately, each of our individual Consciousness is part of the universal Consciousness. This Transcendence leads naturally to forgiveness.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 10: From Revenge To Forgiveness, Page 50

Q: Why does the ego make us competitive?

A: Because we are ignorant, we live with pride. The ego lives with 'I' and we continue to cry. We compete and kill because the 'I' wants to be the best. I want more. I want to defeat others. The 'I' can make us suffer and die. When we burn with the ego of 'I', we are establishing ourselves in the Lower Self. Transcendence means climbing up higher than the foolish 'I'. It is realizing that I am not 'I'.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 11: From Anger To Peace, Page 52

Q: What is meant by 'Nothing becomes Everything'?

A: I started with nothing, became something, achieved everything, only to realize that we are nothing! Then, I transcended the Lower Self and evolved to the Higher Self. I let go of the body, mind and ego. I realized that I was a Soul, the Atman. When we have surrendered completely, we have destroyed the Lower Self. We are Awakened as the Higher Self. We realize that we are nothing and in that moment, we achieve everything.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 34: From Nothing To Everything, Page 98

Q: Why is humility magical?

A: When we transcend the Lower Self, we are able to love every Soul and serve every being. This humility is magical and it can transform our life. Humility creates peace. The Higher Self has no pride. The Higher Self has no greed and selfishness. Therefore, all the agony of the ego disappears with Transcendence. Transcendence gives a profound Realization that we may appear as different rivers but ultimately, we will all merge with the same ocean.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 19: From Pride To Humility, Page 68

Q: What is the agony of the ego?

A: The body suffers physical pain, the mind becomes miserable and the ego is agonized. The Higher Self is liberated from all the agony and anguish caused by the ego. Normally, one suffers because of anger, just as one burns in hate, jealousy and

revenge. All this is caused by the ego. The Higher Self transcends the ego. The ego is Enlightened and so, all the anguish vanishes. The Higher Self has no pride and no greed.

Q: Does the ego disappear after Enlightenment?

A: The journey of life is all about transcending the false ego and living as an Enlightened Ego. The ego doesn't disappear — it is Enlightened. When the ego is Enlightened with the truth, we realize that we are the Divine Soul. This is achieving our ultimate goal. An Enlightened Ego is one that knows it is the Soul, not the body or mind. It doesn't disappear but is transformed — it goes from being a source of suffering to a vehicle of Divine expression.

Q: How does the ego create loneliness and isolation?

A: What is life all about? Ultimately, everybody has to die. When we only care about ourselves, we trigger others to distance themselves from us. Ultimately, we will end up living a life that is lonely and sad. This is the result of living as the Lower Self, where we see only 'I', 'me' and 'mine'. Everybody loves those who share and those who care. But when we only care about ourselves, people distance themselves from us. The ego creates a prison that isolates us.

TOPIC: LOVE, ATTACHMENT, AND RELATIONSHIPS**Q: What is True Love?**

A: True Love is bliss, it's not just a kiss! True LOVE is Longing Of the Soul which is Very passionate and creates an Ecstasy of Joy. Because we think that love is from skin to skin, we don't evolve to that state of True Love that sprouts from the Divine within.

True love is Soulful, Spiritual and Universal Love. The acronym reveals that TRUE Love is Transcendental, Rainbow of seven colours which is Unconditional and Eternal.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 29: From Love To True Love, Page 87

Q: Can we live without love?

A: Can we live without love? Not only does man need air, water and food to exist, man definitely needs love. A human being does not need just air to breathe and water and food to exist. Every human being needs love for without the Divine emotion of love, we will shrivel and die. We may continue to exist but love makes us blossom. It is the very foundation of human happiness.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 29: From Love To True Love, Page 87

Q: What is the difference between love and lust?

A: The Lower Self still thinks of love as lust. Lust is Love Underestimated as a Sexual Transaction. But it is not True Transcendental Love. The Sufis called the Divine Love as Ishq-e-Haqiqi, just as they called worldly love as Ishq-e-Majazi. If we truly want to transcend the Lower Self in life and attain the Higher Self, it's time that we transcend love and discover True Love — love that is unconditional and eternal.

Q: What is Detached Attachment?

A: What is Detached Attachment? On the outside, we seem to be attached to the ones we love. But deep within, we are detached. There is no expectation and therefore, there is no disappointment. As long as we are attached, we will continue to create a prison for the ones we love and for ourselves. We will continue to suppress the Divine emotion of love. Love grows in the aura of freedom and attachment is exactly the opposite.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 16: From Attachment To Detached Attachment, Page 62

Q: How does attachment create suffering?

A: Life is strange. We wake up every morning, wanting to be happy. We want to spend moments in silence and peace. We want to enjoy the bliss of love. This leads us to loving our near and dear ones. In the process, we get attached to a few people. Our love grows. But when attachment replaces love, it creates a prison for the ones we love and for ourselves. Transcendence allows us to love without attachment, without expectation.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 16: From Attachment To Detached Attachment, Page 61

Q: How does transcendence transform love?

A: When we live with True Love, it is unconditional and eternal. We don't say, 'I love you because I need you.' In True Love, we need somebody because we truly love them. We transcend the transactions that appear to be love. Having transcended all duality, the Higher Self enjoys the state of Divine Love that creates an ecstasy of joy. This love has no heartaches or heartbreaks because this Love emanates from the Soul, not just from skin to skin.

Q: What is Divine Love?

A: The joy comes from loving and not waiting to be loved. Thus, Transcendence from body, mind and ego to the Soul is blessed with TRUE LOVE — Transcendental, Rainbow of seven colours which is Unconditional and Eternal. And it is this True Love, the Longing Of the Soul which is Very passionate and creates an Ecstasy of Joy. Divine Love is that love which flows from the Soul unconditionally and eternally to every Soul.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part C, Chapter 2: Living With Peace, Love And Bliss, Page 115

Q: Why does love lead to disappointment?

A: We live through life struggling to cope with disappointment. Why? Have you ever wondered? Our senses are craving and where there is desire, the thirst will never get quenched. Ultimately, we will burst. We are slaves to our passions and we let our need become greed. How can there not be disappointments? Disappointments are symptoms of the Lower Self. When love becomes attachment with expectation, disappointment is inevitable.

Q: Is love from the soul or from the body?

A: Because we think that love is from skin to skin, we don't evolve to that state of True Love that

sprouts from the Divine within. True Love is Soulful, Spiritual and Universal Love. When love is from a deep longing from the Soul within, this love flows to every Soul unconditionally and eternally, without any expectations. The Higher Self transcends love from the body and discovers True Love from the Soul.

Q: How does conditional love trap us?

A: As long as we are attached, we will continue to create a prison for the ones we love and for ourselves. We will continue to suppress the Divine emotion of love. Love grows in the aura of freedom and attachment is exactly the opposite. When we say, 'I love you because I need you,' this is not True Love. In True Love, we need somebody because we truly love them. Conditional love creates expectation, and expectation creates disappointment.

Q: Why is True Love a journey of transcendence?

A: Discovering True Love is part of the journey of transcendence. The Higher Self transcends love from skin-to-skin to True Love that is Soulful, Spiritual and Universal. TRUE LOVE is Transcendental, Rainbow of seven colours which is Unconditional and Eternal. It is this True Love — the Longing Of the Soul which is Very passionate and creates an Ecstasy of Joy. Q: What happens when the ego controls our relationships?

A: When we only care about ourselves, we trigger others to distance themselves from us. Ultimately, we will end up living a life that is lonely and sad. This is the result of living as the Lower Self. The ego that says 'I' and 'mine' creates a selfishness that repels love. Everybody loves those who share and those who care. But when we only care about ourselves, we lose the love of our near and dear ones.

Q: Why does the Higher Self love unconditionally?

A: When we live with True Love, it is unconditional and eternal. This happens because the Higher Self transcends the ego. The ego creates conditions — 'I love you if you love me back,' 'I love you because you give me what I want.' But the Higher Self, having realized that we are all

manifestations of the Divine, loves unconditionally. The Higher Self sees every Soul as a manifestation of the Supreme and loves accordingly — universally and eternally.

TOPIC: FREEDOM, KARMA, AND LIBERATION

Q: What is true freedom?

A: Life is all about freedom. First, freedom from all misery on earth and then, freedom from the cycle of death and rebirth. Unfortunately, we are slaves of fear, worry, greed, attachment and ego. We must break free. We must let go of all slavery. This is Transcendence. Life is not about being a slave till we reach our grave. We must stop these cravings that imprison us. To transcend is to be brave and is to make the ego that stands tall like a wall, fall.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 30: From Slavery To Freedom, Page 90

Q: What is Karma?

A: Of course, life is Karma, the Law of Action and Reaction. As we sow, so shall we reap. But what we don't learn is that there are unsettled actions of the past that are bearing fruits now. Therefore, we live with stress and anxiety. We wonder what will happen as the Lower Self. We don't surrender as the Higher Self. Karma causes rebirth. Although the body dies, the Lower Self or the Mind and Ego, ME, carries Karma and is reborn.

Q: What is Moksha or Liberation?

A: The purpose of life is to attain Nirvana, Moksha, Liberation or Salvation. Our purpose is to discover our Higher Self and to be united with the Supreme when we lose breath at the moment of death. The Soul becomes one with SIP, just as the wave becomes one with the ocean. When we transcend the Lower Self and realize that we are the Divine Soul, in the moment of death, the mind and ego cease to exist. There is no carrier of Karma to a new life.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part C, Chapter 3: Freedom From Death And Rebirth, Page 117

Q: Why are we slaves of the body, mind and ego?

A: Are we still slaves in this modern day and time? Although we may be free as a nation, we remain slaves if we live as the Lower Self. We are slaves of the body, mind and ego. Transcendence is to be free to live as the Divine Soul, which is our true identity. We are slaves of fear, worry, greed, attachment and ego. We must break free. We must still the mind and kill the mind. Only then, freedom we will find!

Q: What happens to the Soul after death?

A: When we live as the body, mind and ego and we die, the body dies and returns to dust. But the Mind and Ego, ME, carries the unsettled Karma and returns to earth in a rebirth. If we transcend the body, mind and ego and realize that we are the Divine Soul, in the moment of death, the mind and ego cease to exist. There is no carrier of Karma to a new life. The Realization that we are the Divine Soul leads to Liberation from rebirth and Unification with the Divine.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 35: From Reincarnation To Realization, Page 100

Q: What is reincarnation and why does it happen?

A: People are confused about the truth of life and death. Death is certain. Every 'body' has to die but

the fact is that the body returns to dust as we burn it or bury it. The Mind and Ego, ME, carries the unsettled Karma and returns to earth in a rebirth. The Lower Self is dead and gone. But the Mind and Ego, ME, is reborn and this goes on and on. If we transcend the body, mind and ego and realize that we are the Divine Soul, this cycle ends.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 35: From Reincarnation To Realization, Page 99

Q: Is the Soul immortal?

A: The Soul never dies. Although there is a lot of misinterpretation about the transmigration of the Soul, the truth is that the Soul is the Spark Of Unique Life. The Soul is the life energy, Prana, Chi, Ruh, Atman or Spirit. Just like energy cannot be destroyed or created, this life energy, that is our true identity, is birthless and deathless. The truth is that you will never die. Of course, the body will die. But you are not the body that will die.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 36: From Death To Immortality, Page 102

Q: How does Karma bind us to rebirth?

A: As long as we are caught in the Lower Self, living as the body, mind and ego, we have no option but to face death and then, reincarnation. Karma causes rebirth. Although the body dies, the Lower Self or the Mind and Ego, ME, carries Karma and is reborn, and this goes on. The purpose of life is to attain Nirvana, Moksha, Liberation or Salvation — to be free from the cycle of death and rebirth.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part C, Chapter 3: Freedom From Death And Rebirth, Page 116

Q: What is meant by 'the wave becomes one with the ocean'?

A: The Soul becomes one with SIP, just as the wave becomes one with the ocean. The truth is that we are that, the Divine. When we realize that as the Soul, we are all effects of one cause, each of our individual Consciousness becomes part of the universal Consciousness. The Lower Self sees itself as a separate wave. The Higher Self realizes that it is the ocean. Death for the Higher Self is not an end — it is a return to the source.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part C, Chapter 3: Freedom From Death And Rebirth, Page 117

Q: What is the freedom of the Higher Self?

A: Transcendence from the Lower Self to the Higher Self has the greatest reward of life. It is Liberation from the cycle of death and rebirth and Unification with the Divine. How can we achieve this? When the ego is Enlightened, we become free from all Karma. The Lower Self is gone and reborn but the Higher Self is free from all misery and returns to its source. This is the ultimate freedom — freedom from misery, death, rebirth and ignorance.

Q: What is a Jivanmukta?

A: The journey of Transcendence is completed when we become a Jivanmukta, one who is free from the body, mind and ego, although alive. The Lower Self fails because the body, mind and ego imprison the Lower Self in ignorance. Unless all ignorance is replaced with the Illumination of the truth and we are locked in this Consciousness, we can fail and return to the jail of this world. A Jivanmukta is one who lives in the world but is free from its bondages.

Q: What is a Sthitpragya?

A: No superstition can hold us back. We are beyond the reach of toxic thoughts as we live as a Sthitpragya, one with an unwavering steady intellect. The journey of Transcendence is completed when we become a Jivanmukta, one who is free from the body, mind and ego, although alive. A

Sthitpragya lives in the world with a completely steady mind — unshaken by pleasure or pain, gain or loss, praise or blame.

Q: What does surrender mean in the context of Transcendence?

A: Total Transcendence means total surrender. When we have surrendered completely, we have destroyed the Lower Self. We are Awakened as the Higher Self. We have conquered the mind. The ego is Enlightened. We realize that we are nothing and in that moment, we achieve everything. What is it to live in total surrender? It is the Realization that nothing is mine. Everything is Divine. It is not passive giving up but an active Awakening to who we truly are.

Q: How does Transcendence lead to non-duality?

A: The journey of life is all about experiencing universal oneness. It is about experiencing the union between individual Consciousness and Universal Consciousness. How does one do that? It is only when we let go of the Lower Self and evolve to the Higher Self that we begin our journey of universal oneness. The way this happens is when we overcome the ignorance of duality and Realize the Truth of non-duality — that we are all one.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 39: From Duality To Non-Duality, Page 107

Q: Why is death not the end for the Higher Self?

A: Every 'body' has to die but the fact is that the body returns to dust as we burn it or bury it. The Soul is the Spark Of Unique Life. The Soul is the life energy, Prana, Chi, Ruh, Atman or Spirit. Just like energy cannot be destroyed or created, this life energy, that is our true identity, is birthless and deathless. For the Higher Self, death is not the end — it is Liberation, a return to the Source, the Supreme Immortal Power.

TOPIC: GOD AND SPIRITUALITY

Q: What is God?

A: God is SIP, the Supreme Immortal Power. It is the nameless and formless, birthless and deathless Divine Power that is everywhere, in everything. The energy that fills the universe is Consciousness. Where does this Consciousness come from? It comes from the Soul, the Spark Of Unique Life in the moment of conception. Every molecule of energy in this world is nothing but SIP, the Supreme Immortal Power — and that is God.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 37: From Man To God, Page 104

Q: Is God in heaven or within us?

A: The Lower Self, however, still believes the lie that God lives in the sky. The Lower Self has not discovered the secret of, 'Who am I?' But attaining the Higher Self realizes God within the temple of our hearts. We have already learned we are not the body, mind and ego. We are the Divine Soul. The Soul is none other than SIP. Therefore, we are SIP. The truth is that every cell of our existence is none other than the Divine energy of SIP, the Supreme Immortal Power that we call, God.

Q: What is the difference between religion and spirituality?

A: People who are religious believe in a particular God and scripture. They follow the dogmas,

rituals and myths laid down by their religion. Every religion thinks that its God is the real God and its scripture is the ultimate truth. What is Spirituality? It is the science of the Spirit. It is realizing that we are not the body that will die, not the Mind and Ego, ME. We are the Divine Soul, Spirit or Atman. Spirituality transcends the kindergarten of religion to the university of Spirit.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 33: From Religion To Spirituality, Page 95

Q: Can man become God?

A: How can man be God? Ridiculous! When people talk of non-duality and that in reality, we are all manifestations of God, those who live in the Lower Self think of it as being completely crazy. However, Transcendence gives a different story.

Transcendence leads us to realizing that not just you and me, even a butterfly and a bee is none other than a manifestation of God. Every tree has life and every animate entity is God. We are all manifestations of SIP, the Supreme Immortal Power.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part B, Chapter 37: From Man To God, Page 103

Q: What is SIP?

A: SIP stands for the Supreme Immortal Power — the Divine Power that is nameless and formless, birthless and deathless. It is everywhere, in everything. He is on a mission to help people discover the way to Eternal Happiness through Enlightenment. AiR realized that God lives in the temple of our heart and he realized that we are the Soul, the Atman, a part of the Supreme Immortal Power. SIP is the source from which the Soul comes and to which it returns.

Q: Why does religion alone not lead to spiritual liberation?

A: About 80% of the world believes in some religion or God. However, many religious people think that they are spiritual. But they do not transcend the Lower Self that is religious and attain the Higher Self that is spiritual. As long as we search for God only outside in a temple, without realizing that God lives in the temple of our heart, we do not evolve from the kindergarten of religion to the university of Spirituality.

Q: What does science say about our true nature?

A: When the Quark was being examined under an advanced microscope, it suddenly disappeared. The scientists were baffled. They called this phenomenon, the Wave-Particle Duality. Under the branch of Quantum Physics and Quantum Mechanics, science accepts that every molecule of matter is intrinsically nothing but energy. 3 scientists from the field of Quantum Physics have been awarded the Nobel Prize in Physics for their work. Today, science and Spirituality have synergy. Both believe that we are energy.

Q: What is the Cosmic Illusion (Maya)?

A: In this world, some people make things happen. Others watch things happen. There are many others who wonder what happened! What is this world? Is it real? Science says that it all happened because of a Big Bang. The truth is that this whole world is a manifestation of energy. The Cosmic Illusion of this universe is, in reality, a manifestation of the Divine. Whatever appears to be, you and me, a butterfly and a bee, everything is ultimately, Divine energy.

Q: What is non-duality?

A: Throughout life, we believe that I am 'I' and you are 'you' and never can the two become one. This is the belief of someone living in duality. But when we realize that as the Soul, we are all Divine

manifestations — that we are not the different bodies that we appear to be — we are, in essence, different Souls that are ultimately, one energy. This energy is God energy. It is SIP that manifests as you and me. This is the truth of non-duality.

Q: How do we experience God within?

A: As we transcend the journey of life, we evolve from realizing that God lives in a sky to the Realization that God is within the temple of our hearts. The knowledge is not enough. Unless the intellectualization of this truth turns into Realization, we will never experience God in the temple of our heart. The truth is that every cell of our existence is none other than the Divine energy of SIP, the Supreme Immortal Power that we call, God.

Q: Is this world real?

A: What do we think of this world? We think it is very real. We think that a dream is just a dream — it is unreal! But when we wake up, we wake up to the real world. Little do we realize that this is the understanding of the Lower Self. The Higher Self realizes that even the world is like a dream. It is unreal. Every atom of this universe is energy appearing as matter. The real is the Divine energy — the Source — and everything else is a manifestation.

Q: What is the relationship between the individual soul and the universal soul?

A: The journey of life is all about experiencing universal oneness. It is about experiencing the union between individual Consciousness and Universal Consciousness. We are all individual Consciousness as the body but finally, we will all become one with the universal Consciousness. Each of our individual Consciousness is part of the universal Consciousness. This is Transcendence — realizing that the individual soul and the universal Soul are ultimately one.

Q: Why do different religions speak of the same God?

A: Most of the world prays to a God. We believe in different religions and different Gods. But ultimately, our common sense tells us that there is just one God. Spirituality makes us realize that we are nothing. God is everything. But that God does not belong to a religion. God is SIP, the Supreme Immortal Power. Spirituality transcends religious dogma and dogmas to reveal the universal truth that there is one Divine energy that manifests as all of creation.

Q: What is the purpose of human birth?

A: Why did we come to earth? Why did we get this human birth? Is this world just a circus or is there a purpose? The purpose of life is to discover the purpose of life. The reason we are given an opportunity to come to this earth is to discover our Higher Self. Only a human being is blessed to transcend and evolve. No other creature can be Enlightened. We humans are blessed with an intellect — and our purpose is to use it to Realize the Truth.

Q: What is Bhoga and Yoga?

A: The Lower Self lives in Bhoga. The Higher Self lives in Yoga. The world of Bhoga is the material world, a world of pleasures and possessions. We are enamoured by our desires and passions. We never transcend Bhoga to ultimately reach the peak of Yoga.

A Yogi is like a lotus flower. Although the lotus is rooted in the dirty waters of a lake, it remains above the waters. It does not sink. So also, the transcended being is unaffected by the pangs of Bhoga.

TOPIC: TRANSFORMATION AND ENLIGHTENMENT

Q: What is spiritual transformation?

A: We are not supposed to crawl like a caterpillar, a worm, throughout life. As human beings, we have been blessed to experience a metamorphosis, a Spiritual Awakening that can irreversibly transform our life. However, if we want to discover the ocean, we must have the wisdom and the courage to lose sight of the shore. To climb the steps of a ladder, we must let go of the rung below to step on the rung above. Only then will we discover peace, bliss and love.

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Preface, Page 4

Q: What is the caterpillar-to-butterfly metaphor?

A: What would you prefer? To crawl like a worm, a caterpillar or fly like a beautiful butterfly? They are both the same entity but unless the caterpillar goes through the stages of metamorphosis, it cannot become a butterfly. What does this metamorphosis teach us? It inspires us to transform our life, transcend our state of being a worm and evolve to the Higher Self of the butterfly. Throughout life, we crawl as the body, mind and ego. Ignorance ties our wings with strings.

Q: What is the journey from confusion to conclusion?

A: We are all so confused in life. We don't know what to do. There are so many options in today's world. We want everything but there is no time! For those who have transcended and evolved, life is about Self-Realization and God-Realization. These are not complicated terms. Life is about finding the meaning of existence. Life is understanding the purpose of the show before we go. Transcendence means an end to all confusion as we arrive at the conclusion.

Q: What is Purification, Illumination and Realization?

A: This book will start the process of Purification, Illumination and ultimately, Liberation from all misery on earth and the cycle of rebirth. We understand the need for Realization. And then, we go through Purification and Illumination and understand that the cause of our misery and sorrow is the false self, the ego. Purification is cleansing the mind of toxic thoughts; Illumination is the dawning of the truth; Realization is the Awakening to the truth of who we are.

Q: What does it mean to exit the highway of achievement?

A: Life is Liberation from Ignorance and Finding Enlightenment. But because we seem to be enjoying the roller coaster of achievement, we go round and round. I shut down my business when I was 40-years old. I realized the meaninglessness of the pursuit of success and achievement. I had fulfilled my need long ago and I understood that the Lower Self was full of greed. So, one day, I took an exit from the achievement highway. And after sailing for 5 years in peace and fulfillment, I embarked on the journey of Enlightenment.

Q: What is the journey from the unreal to the real?

A: The Higher Self realizes that even the world is like a dream. It is unreal. When we transcend the Lower Self, we realize that we are not the gross physical body. The truth is scientific and exactly what Spirituality has presented. This whole world is a manifestation of energy. Every atom of this universe is energy appearing as matter. We move from the unreal — the world of appearances — to the real — the Divine energy that is the truth of all existence.

Q: What does it mean to go from 'circus to purpose'?

A: We, human beings, think that this world is a circus. We all want to have fun. Before we realize it, life is done! It's time to go even before we understand the true meaning of this show. We just keep jumping up and down like a clown. Sometimes, we smile and sometimes, we frown. But we don't realize that the purpose of life is to discover the purpose of life. When we transcend, we move from living in the circus to living with purpose and meaning.

Q: What is the role of a Guru in Transcendence?

A: Every journey of Transcendence needs Initiation. It needs an Enlightened Master, a Guru. Otherwise, we may evolve and we may choose to live with self-respect rather than arrogance but we will never attain the Higher Self. To transcend the Lower Self, an Enlightened guide must mentor us. Otherwise, the mind will fool us into believing that it is the intellect. With passion, persistence and patience, a Guru helps us chip away what we are not.

Q: What is the transformation that happens through Transcendence?

A: I too lived as the Lower Self for so many decades. I didn't even understand that there was something called the Higher Self, till one day I Awakened to realize, 'I am not I.' I

realized that my body will die but people will say that I passed away. Suddenly, I was free from the triple suffering of the body, mind and ego. From 16 to 40, I was chasing success and achievement. Today, I have transcended the Lower Self and attained the Higher Self.

Q: What is the metamorphosis of the soul?

A: We are born, we learn and then, we earn. Thereafter, we burn and return. The cycle goes on and on. If only we turn and yearn for a metamorphosis — the transformation from the Lower Self to the Higher Self. Just as the caterpillar transforms into a butterfly, we too can undergo a metamorphosis. When we transcend the body, mind and ego and realize we are the Divine Soul, our life is irreversibly transformed. The worm that was crawling develops wings that were earlier tied by strings.

Q: What does it mean to live after Transcendence?

A: The journey of Transcendence has rewards that are far greater than the efforts. In doing so, we are free from the triple suffering on earth — pain of the body, misery of the mind and agony of the ego. We are always in a state of Eternal Peace, Divine Love and Everlasting Bliss. It's our choice. Do we want to crawl like a worm or fly like a butterfly? Do we want to drag through life as a human being or do we want to dance through life with the euphoria of Divine Love?

Source: Life is to Transcend the Lower Self and Attain the Higher Self, Part C, Chapter 1: Liberation From All Misery, Page 112

Q: Why is it never too late to begin the journey of Transcendence?

A: When should we transcend the circus? The time is now. Many people think that life is to enjoy. They say, 'Let us get a little old to discover our purpose.' Do we do the same with gold? We want all

the money and the wealth now, even though we can't even take a penny with us. What is needed is Transcendence. We can continue to crawl like a worm and cry, or Transcend and open our wings and fly! The time to start is now.

Q: What is the EE formula?

A: We follow a simple formula called EE — Excellence at the highest and Expectation at the lowest. This is Transcendence. Life is about action and reaction — what we give is what we will get. We should do our best. But transcending to the Higher Self, we surrender the rest. We are highly motivated in our action but there is no expectation in the reaction. Life with disappointments will never create peace and bliss. The EE formula brings peace in action.

Q: What happens when we transcend achievement and live with purpose?

A: The whole world is running a race. Everybody wants to be an ace. We think life is a chase. We have been taught that success is Happiness. But the Lower Self is stuck in the rut of achievement. When we transcend the Lower Self, we find fulfillment and Enlightenment. Life is about action and reaction. We should do our best but surrender the rest. We are highly motivated in our action but there is no expectation in the reaction — this is living with purpose.

Q: How does the journey of Transcendence begin and end?

A: The journey of Transcendence starts with a quest. It needs the help of an Enlightened Master or a Guru. Then, we go through the process of Purification and Illumination, till there is Realization of the Truth. The journey of Transcendence is completed when we become a Jivanmukta, one who is free from the body, mind and ego, although alive. What is our ultimate purpose? It is first, to realize, 'Who am I?' Then, to discover, 'I am the Divine Soul.' That is the end of the journey.
