KARMA – THE UNIVERSAL LAW

Q: What is the Law of Karma?

A: This law ensures that life is like a boomerang. What goes around comes around. What we give is what we get. What we do will come back to us. This law exists but can we prove its existence? It's like gravity that can only be proved by inference. If this law did not exist, we would find cucumbers growing on a tomato plant. Why are there no apples on a mango tree? This natural law, the Law of Karma, will not permit it. It governs everything that happens on earth.

Q: Is Karma a real universal law?

A: Karma, a Universal Law that nobody can circumvent. Whoever you are, wherever you are and whatever you do, Karma governs everything that happens to you. But we are not just puppets.

Q: Can anyone escape Karma?

A: Karma, a Universal Law that nobody can circumvent. Whoever you are, wherever you are and whatever you do, Karma governs everything that happens to you. But we are not just puppets. Everything is not predetermined nor is everything happening by chance. Everything is synchronized by Karma, the law.

Q: Why must every deed bear fruit?

A: Every seed that is planted will create roots, shoots and fruits. So also, every deed, every action, every Karma is recorded and must be redeemed. Good deeds or bad deeds, whatever you do, eventually has to come back to you. If we reverse our paradigm, we will see that whatever is happening in life is a result of what we have done. How can the lives of 8 billion people around the world be managed otherwise? The supercomputer of Karma is controlling our destiny.

Q: Is the Law of Karma a punishment?

A: Each one of us carries our own Karma. It is not transferable but it has to be redeemed - sometimes, in this lifetime and sometimes, even after death. There is a Karmic recorder inside each one of us that is recording every deed. No deed can escape, good or bad. Both get added into our Karmic account. If we have a heavy Karmic debt, we will face the agony of our past Karma. However, the Law of Karma is not punitive. It is reformative.

Q: Is there really group Karma or family Karma?

A: These days, Karma has become a fad. It has become fashionable to talk about Karma. But people believe in all kinds of things — group Karma, family Karma and even Karma of ancestors. All these are myths. Karma is an individual subject. No doubt, hundreds may die in an earthquake but each of them has their own Karma. The law is very complex because it covers 8 billion people and all their actions, moment by moment.

A: Let us overcome the myth about Karma. Let us Realize the Truth that we are not the doer of Karma, the body is. We are not the director of Karma, the Mind and Ego, ME, is. But this Mind and Ego, ME, is caused because of our ignorance. The mind creates so many myths about Karma that most of the people in the world are caught in the biggest myth that we must do good Karma.

DESTINY – WHO CONTROLS OUR LIFE

Q: Who controls our destiny?

A: Who controls our destiny? Is it us or others who are so manipulative that we believe that we are helpless? Unfortunately, we don't realize that we carry our past Karma when we come to this world. Our destiny unfolds not just based on what we do on earth but also the Karma that was in our account before our birth. Karma is destiny. There is nothing else, neither God nor luck. Everything is Karma. If we want to change our destiny, we must discover how Karma works.

Q: Is luck real?

A: In fact, luck can be better spelled as PLUCK because we pluck what we plant. Just like the seeds that we plant decide the fruit on the tree, it is our deeds that decide our destiny. The believers in God often look up at the sky and believe the lie that there is a God sitting up there, who is controlling everything.

THE PURPOSE OF LIFE

Q: What is the purpose of life?

A: The purpose of our life is to discover the purpose of our life. We are not just meant to live and die. Some of us question, 'Why?' We look up at the sky and we pray to God up there, though all this is a lie. We don't stop to ask the question, 'Who am I?' and 'Why am I here?' This is our purpose. These are the two important questions of life that we need answered.

Q: Why are we born?

A: If we pause and try to ponder the cause of our existence, we will realize that it is Karma. We are born because we have unsettled Karma and we will continue to be reborn till we are free from all Karma. Because we are so lost in enjoying worldly pleasure, we do not discover the true treasure, the Realization of who we truly are.

TWIN KARMA**Q: What is Twin Karma?**

A: What is Twin Karma? Twin Karma is a union, a merger, a fusion of the Karma we brought to earth and the Karma we did after our birth. Our Prarabdha Karma or opening balance of Karma is like a river that is flowing. When we create new Karma, Agami Karma, this tributary of Karma merges with the original stream of Karma, creating a fusion of Karma that we can call, Twin Karma.

BIRTH, DEATH AND REBIRTH

Q: What happens at the moment of death?

A: Death does not wait for good deeds and bad deeds to be settled. Death is sudden. When a person dies, there are some deeds or some Karma that are unsettled. Sometimes, death happens by accident. Therefore, every person who dies has unsettled Karma, good or bad. How will these Karma be settled? The body dies but the Mind and Ego, ME that constitutes the identity of our existence and directs our Karma, carries Karma and is born again, the moment we are gone.

A: If we stop and ponder what brought us into this world, we will realize that it is Karma. Otherwise, why would somebody be born in a slum and somebody else in a palace? MIND AND EGO**Q: Who actually does Karma — the body or the mind?**

A: While the body is the actor, the Mind and Ego, ME, is the director. In fact, we come to this earth without a body. We just start as a single cell with a Spark Of Unique Life, the Soul. Then the cell multiplies and we become the body. Why does this process happen? Because the Mind and Ego, ME, the software or the subtle body has unsettled Karma to be redeemed and so, the body is created. The Karma belongs to the Mind and Ego, ME.

SUFFERING – WHY BAD THINGS HAPPEN

Q: Can bad things happen to good people?

A: Many people wonder why bad things happen to good people. In fact, they don't just question but sometimes also curse God. As long as we don't understand Twin Karma, we will be trapped in this ignorance and continue to question why good people are suffering and bad people are celebrating. Roses don't appear on tulip stems and cucumbers don't grow on tomato plants. Every fruit and every shoot depends on the specific root that comes from the seed. So also, every trauma, every suffering, every good 'luck', is sprouting from our deed.

FREE WILL AND CHOICE

Q: Do we have free will?

A: Our life is like a car that we drive. We can go forward or reverse, turn left or right, go fast or slow. It seems like everything in life is under our control. But what about the road? If the road is going uphill, can we tell it to change its direction and come down? We have no option but to drive because it is already paved. So, whatever we have done in the past, can't be changed. GOOD KARMA AND BONDAGE

Q: Is it necessary to do good Karma?

A: Those who want to become the master of Karma, must learn one profound truth. All Karma creates bondage, be it good Karma or bad Karma. Karma is planting seeds with our deeds. These Karma must bear fruit and unless we are free from all Karma, we will return to earth to settle our Karma, good or bad. Therefore, while the first choice is obviously to do good Karma, our second and more important focus is to be free from Karma.

Q: How can we escape the three accounts of Karma?

A: Nobody born in this world can be free from Karma. The moment we are born, we must act. We have an opening balance and we create a current account. Therefore, it is inevitable that at death, our Karma is transferred to our corpus. How then can we be free from these three accounts of Karma? It is only when we realize that all this Karma does not belong to us that we can escape from this triple Karma.
